

# Welcome Back to School!

## School Menus Available Anywhere, Anytime

Randolph Central Schools, in partnership with Chartwells K12, uses Nutrislice to publish school menus to an interactive website and free smartphone app.

- Daily menu items, with photo and description
- Nutrition information
- Filters for common food allergens like nuts, wheat, and dairy
- Available on the Apple App Store and Google Play
- Visit [rc.nutrislice.com](http://rc.nutrislice.com) on desktop

## Power of Choice

With multiple daily options for entrees and sides, kids have the power to choose what they want to eat every day!

## Better for Kids

Research shows that kids who eat school meals are more attentive in class, have better attendance, and may have fewer disciplinary problems.

## Global Eats

### No Passport? No Problem! Introducing Global Eats

Turn food into a worldly adventure and encourage students to eat together, tasting new foods and flavors while learning about different cultures with our new program, Global Eats. Students will travel the globe tasting exotic flavors from countries like Italy, China, India, and Mexico.

## Allergies & Meal Accommodations

If you would like your child to receive meal accommodations for food allergies or medical condition impacting the diet, please ensure that you submit the required documentation to your child's school.

## Try Something New!

Packed lunches often consist of the same rotation of foods. School lunch gives your child the opportunity to try different foods every day. Our team of chefs and dietitians are constantly developing new recipes that keep up with the trends (and are kid-approved)!

## Free & Reduced Meals

Families can qualify for free or reduced meals based on household income by submitting a meal application. The application can be found on the Food Services page at [rc.k12.in.us](http://rc.k12.in.us). For more information, please visit [www.fns.usda.gov/nsfp](http://www.fns.usda.gov/nsfp)
