

Welcome Back to School

From the Nurse's Station

Room 104

If you have students entering 4K, Kindergarten, or 6th grade, please make sure to have their immunizations updated before school starts.

During Open House hours, families will be able to talk with a nurse, and families are encouraged to stop into room 104/the Nurse's Station at any time with questions about medications, allergies or any other health issues with your student.

IMPORTANT: Please have a copy of your child's immunization record complete and returned to the school within 30 days after admission.
