July 17, 2020

Parents,

The last few months have been something that none of us have experienced before. As we continue to work through these challenges we also continue to plan for the new school year. We have been working diligently on a Plan to Reopen that will provide a framework with all of the details that are important to the reopening of Tecumseh Public School. Many of you are unsure about whether you want to send your children back to the traditional in person school setting due to your concerns for COVID-19. We understand these concerns and as a response we have recreated a new virtual distance learning program through the purchase of a Learning Management System (LMS). This new system will allow us to provide a quality educational program for our students regardless of whether they are attending in person or through our virtual distance learning platform. Attached to this letter please find a listing of the instructional options that Tecumseh Public Schools will be offering your students this fall. We are excited to get back into school and wanted to make you aware of these options for your students for the new school year.

Thank you for your continued support of Tecumseh Public Schools.

Sincerely,

  
Tom Wilsie  
Superintendent
