Haddonfield
Overbrook
Woodbury

As you know, Janet's Law requires public and nonpublic schools K-12 to have automated external defibrillators or AEDs onsite and establish emergency action plans for responding to a sudden cardiac arrest event.

An AED must be placed onsite in an unblocked location with an appropriate sign to identify it. It should be accessible during the school day and any other time an athletic event, including practices, is taking place. The defibrillator needs to be "within reasonable proximity of the school athletic field", as applicable. For every minute that passes the chance of survival decreases 10 percent.

Janet's Law about onsite AED defibrillators on school grounds also mandates that schools "shall establish and implement an emergency action plan for responding to a sudden cardiac event including, but not limited to, an event in which the use of an automated external defibrillator may be necessary."

Please list all athletic facilities used throughout your school district.

Athletic Facilities Used in Your School District

- | | |
|--------------------------------------|----------------------------------|
| 1. <u>High School Irvine Gym</u> | 7. <u>Middle School Aux. Gym</u> |
| 2. <u>Middle School Ben Mark Gym</u> | 8. <u>Tennis Courts</u> |
| 3. <u>Oaklyn Public Schools</u> | 9. <u>Track</u> |
| 4. <u>Knights Park</u> | 10. <u>Softball fields</u> |
| 5. <u>Football Stadium</u> | 11. _____ |
| 6. <u>Coursen Wrestling Center</u> | 12. _____ |

Please have the appropriate administrators sign this form below. Please note that the signatures below verify that you are compliant with Janet's Law and meet all requirements which are stated in the above description, including having an emergency action plan for responding to a sudden cardiac event.
