

Whenever an employee is absent from work and is receiving workers compensation benefits due to a work-related injury or is receiving district paid disability insurance, the employee may use available paid sick leave to supplement the workers compensation or district paid disability insurance payments. Workers compensation benefits and FMLA benefits provided in a board approved plan shall run concurrently if both are applicable.

In no event shall the employee be entitled to a combination of workers compensation benefits, district paid disability insurance, and salary in excess of his/her full salary. Available paid sick leave may be used for this purpose until 1) available paid sick leave benefits are exhausted; 2) the employee returns to work; or 3) employment is terminated. Sick leave shall be deducted on a prorata amount equal to the percentage of salary paid by the district.
