RE: Return to Learn

I would like to thank everyone for completing our Return to Learn surveys. As I'm writing you this note (realizing it may change before I finish) I want you to know that the District Leadership Teams have been working throughout this time on plans for coming back in this fall. The District Leadership Team will reconvene the last week of July to finalize district plans for returning to school. Currently school will start in a normal school setting on August 24th. We will let you know our finalized plans in early August. Thank you for your patience as we continue to make plans for your child's education as safe for students and staff as possible.
