The service will deliver the message within minutes of an emergency or unplanned event that causes early dismissal, school cancellation, or late start. It will deliver the message to both the live answer and answering machine along with the capability of texting and emailing the message. After you answer the phone, there is a pause before the message begins. If you receive a call from the school, please check to see if a message has been left before calling the school back.

## **STUDENT SERVICES**

### **Homebound Instruction**

Students who are unable to attend school for a period of more than two weeks may be eligible for homebound instruction. A student who is absent from school, or whose physician, physician assistant or licensed advanced practice registered nurse anticipates his or her absence from school, because of a medical condition may be eligible for instruction in the student's home or hospital. See the building principal for further information regarding homebound instruction.

Appropriate educational services from qualified staff will begin no later than five school days after receiving a written statement from a physician, physician assistant, or licensed advanced practice registered nurse. Instructional or related services for a student receiving special education services will be determined by the student's individualized education program.

### **Problem Solving Team**

Rogers Elementary School has a team of adults from the staff who have formed a student assistance program. The team was formed to assist students dealing with at-risk behaviors. Their focus is on the student's behavior, academics, health, and attendance where the school has a legal and ethical responsibility. The team will work with the human resources available and provide any linkage needed to local and state agencies.

## **PBIS**

Rogers Elementary School utilizes a program known as Positive Behavior Interventions and Supports (PBIS) to teach and positively reinforce behavior expectations across all school settings. Student may be rewarded with Rockin' Roger slips when they display appropriate behavior. These are placed in a weekly drawing in each classroom. One student is chosen from each class for a weekly reward with the principal. Students are also rewarded periodically with "Principal's Awards" for displaying appropriate behavior. Additionally, all classrooms have positive behavior systems in place. These systems emphasize teaching expectations, rewarding students who meet these expectations, and consequences for not following expectations. In addition to teaching expectations and promoting appropriate behavior through positive rewards, the PBIS team meets on a regular basis to make decisions based on office discipline referrals. We have experienced a significant decrease in office referrals over the past four year while using this approach.

## **Social Work Services**

A certified School Social Worker is available to talk with any parent/guardian about concerns they may have with their child. Behavior and emotional issues and social skills are dealt with in small groups, or on a one-on-one level, depending upon the student's individual situation. If you feel that this service would benefit you and your child, please call the office at 939-3454 and follow the prompts. All information is kept strictly confidential.

## **Accelerated Placement**

The District provides for an Accelerated Placement Program (APP) for qualified students. It provides students with an educational setting with curriculum options that are usually reserved for students who are older or in higher grades than the student. Accelerated placement includes but may not be limited to: early entrance to kindergarten or first grade, accelerating a student in a single subject and grade acceleration. Participation is open to all students who demonstrate high ability and who may benefit from accelerated placement. It is not limited to students who have been identified as gifted or talented. Please contact the building principal for additional information.

# **NOTIFICATIONS**

## **SECTION 504**

Section 504 of the Rehabilitation Act of 1973, as amended, is a civil rights law that prohibits discrimination against individuals with disabilities. The statute ensures that a qualified student with a disability receives reasonable accommodations necessary for that student to access education or school related programs and activities.

Any child suspected of needing a Section 504 Plan should be referred to the district's Section 504 Coordinator. The coordinator will then initiate the process for determining whether the student meets the qualifications under this federal law.

### **Student Records**

A school student record is any writing or other recorded information concerning a student and by which a student may be identified individually that is maintained by a school or at its direction or by a school employee, regardless of how or where the information is stored, except for certain records kept in a staff member's sole possession; records maintained by law enforcement officers working in the school; video and other electronic recordings (including electronic recordings made on school busses) that are created in part for law enforcement, security, or safety reasons or purposes, though such electronic recordings may become a student record if the content is used for disciplinary or special education purposes regarding a particular student. The Family Educational Rights and Privacy Act (FERPA) and the Illinois Student Records Act afford parents/guardians and students over 18 years of age ("eligible students") certain rights with respect to the student's school records. They are:

1. The right to inspect and copy the student's education records within 10 business days of the day the District receives a request for access. The degree of access a student has to his or her records depends on the student's age. Students less than 18 years of age have the right to inspect and copy only their permanent record. Students 18 years of age or older have access and copy rights to both permanent and temporary records. A parent/guardian or student should submit to the building principal a written request that identifies the record(s) he or she wishes to inspect. Within 10 business days, the building principal will make arrangements for access and notify the parent/guardian or student of the time and place where the records may be inspected. In certain circumstances, the District may request an additional 5 business days in which to grant access. The District charges \$.35 per page for copying but no one will be denied their right to copies of their records for inability to pay this cost. These rights are denied to any person against whom an order of protection has been entered concerning the student.
2. The right to have one or more scores received on college entrance examinations included on the student's academic transcript. 1 Parents/guardians or eligible students may have one or more scores on college entrance examinations included on the student's academic transcript. The District will include scores on college entrance examinations upon the written request of the parent/guardian or eligible student stating the name of each college entrance examination that is the subject of the request and the dates of the scores that are to be included.

3. The right to request the amendment of the student's education records that the parent/ guardian or eligible student believes are inaccurate, irrelevant, or improper. A parent/guardian or eligible student may ask the District to amend a record that is believed to be inaccurate, irrelevant, or improper. Requests should be sent to the building principal and should clearly identify the record the parent/guardian or eligible student wants changed and the specific reason a change is being sought. If the District decides not to amend the record, the District will notify the parent/guardian or eligible student of the decision and advise him or her of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent/guardian or eligible student when notified of the right to a hearing.
4. The right to permit disclosure of personally identifiable information contained in the student's education records, except to the extent that the FERPA or Illinois School Student Records Act authorizes disclosure without consent. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility or contractual obligation with the district.

Upon request, the District discloses education records without consent to officials of another school district in which a student has enrolled or intends to enroll, as well as to any person as specifically required by State or federal law. Before information is released to these individuals, the parents/guardians or eligible student will receive prior written notice of the nature and substance of the information, and an opportunity to inspect, copy, and challenge such records.

Academic grades and references to expulsions or out-of-school suspensions cannot be challenged at the time a student's records are being forwarded to another school to which the student is transferring.

Disclosure is also permitted without consent to: any person for research, statistical reporting or planning, provided that no student or parent/guardian can

be identified; any person named in a court order; appropriate persons if the knowledge of such information is necessary to protect the health or safety of the student or other persons; and juvenile authorities when necessary for the discharge of their official duties who request information before adjudication of the student.

5. The right to a copy of any school student record proposed to be destroyed or deleted. The permanent record is maintained for at least 60 years after the student transfers, graduates, or permanently withdraws. The temporary record is maintained for at least 5 years after the student transfers, graduates, or permanently withdraws. ### **Cell Phones in School Zones**

According to Illinois statute (Public Act 096-0131) usage of cell phones by drivers in school zones are not permitted.

### **Bus Transportation**

All students living at least 1.5 miles from school are entitled to free bus transportation. Drivers have the authority and responsibility to maintain order on the bus; they may assign seats. Drivers will process incidents of misconduct to the assistant principal through their supervisory chain.

To achieve safe and efficient transportation, the Superintendent of Public Instruction of the State of Illinois has provided these regulations.

1. The driver is in charge of the pupils and the bus. Students must obey the driver promptly. Transportation is provided to students as a privilege. Should any student persist in violating any of the rules and regulations, the driver shall notify the school administration and appropriate disciplinary action will be taken.

2. Pupils must be on time at the designated bus stops. Bus drivers have specific instructions not to wait for those who are tardy. This is especially important at those stops on pavement where traffic tie-ups may result.
3. Pupils should refrain from unnecessary conversation with the driver since it is necessary that the driver's attention to the road be diverted as little as possible. Be courteous to fellow students and to the bus driver.
4. Students must stay in their seats and must not move on the bus while it is in motion. Remain in the bus in the event of a real emergency until the driver gives instructions.
5. Be absolutely quiet when approaching a railroad-crossing stop.
6. Stay off the road at all times while waiting for the bus. Be careful while approaching the place where the bus stops. Do not move toward the bus until the bus has been brought to a complete stop.
7. Students are not to place their feet on the seat, mark, mutilate or manipulate bus equipment, or stand on the seats.
8. Pupils must not, at any time, extend their hands, arms, or heads out of the bus window.
9. For safety purposes, bus windows are not to be lowered below the marked line.

16. Students are prohibited from taking live animals or glass containers on the bus.

17. Cell phones may not be used while on the school bus.

Video and audio cameras may be active on busses to record student conduct and may be used for the purposes of investigation into misconduct or accidents on the bus.

The riding of the bus is a privilege granted to District #5 students by the Board of Education. Any serious violation of the bus rules will result in the removal of the individual from the bus. Bus suspension may be extended to include the remainder of the current school year. A student who is suspended from riding the school bus and who does not have alternative transportation to school shall be allowed the opportunity to make up all missed work for equivalent academic credit. It is the responsibility of the student's parent or guardian to notify the school that the student does not have alternative transportation to school.

Electronic devices may never be used in any manner that disrupts the educational environment, violates student conduct rules or violates the rights of others. This includes, but is not limited to, the following: (1) using the device to take photographs on the bus, in the classroom or bathrooms; (2) cheating; and (3) creating, sending, sharing, viewing, receiving, or possessing an indecent visual depiction or non-consensual dissemination of private sexual images (i.e., sexting).

The administrator's signature or initials must appear on all materials posted. All information posted without proper signatures will be removed.

### **Dress**

Students are expected to dress in a clean, neat and appropriate manner. Clothing that creates a health problem, safety hazard, or is disruptive to the learning

process will not be permitted. This includes clothing that is excessively revealing, displays profanity, advertises alcoholic beverages and/or tobacco products, advertises the use of illegal substances, or is overtly vulgar. Students dressed inappropriately will be required to change clothes. The following guidelines are offered:

### **Gift Deliveries**

Deliveries of flowers and gifts for students will remain in the office until the end of the school day.

### **Birthdays**

Pre-packaged treats for birthdays are allowed. Please consult your teacher before sending birthday treats to school. All food items brought to school, and served to students during school hours must be individually wrapped, prepackaged items or purchased from a bakery. Bakery items brought to school must be sealed in the original bakery package. **Please do not bring cakes or large cookies that need to be divided.** Classroom treats that are already individually portioned are required. A classroom is not conducive to cutting and distributing cakes, giant cookies or scooping ice cream. Homemade items are also not acceptable.

While recognizing your child’s special day is important, please do not bring balloons, treat bags, etc. for your child’s classmates. Classrooms and school buses are not conducive to housing these items.

## SCHOOL OPERATIONS DURING A PANDEMIC OR OTHER HEALTH EMERGENCY

*This handbook procedure is meant to apply generally to any pandemic or other health emergency and should be supplemented with other relevant and timely information.*

A pandemic is a global outbreak of disease. Pandemics happen when a new virus emerges to infect individuals and, because there is little to no pre-existing immunity against the new virus, it spreads sustainably. Your child's school and district play an essential role, along with the local health department and emergency management agencies, in protecting the public's health and safety during a pandemic or other health emergency.

During a pandemic or other health emergency, you will be notified in a timely manner of all changes to the school environment and schedule that impact your child. Please be assured that even if school is not physically in session, it is the goal of the school and district to provide your child with the best educational opportunities possible.

Additionally, please note the following:

1. All decisions regarding changes to the school environment and schedule, including a possible interruption of in-person learning, will be made by the superintendent in consultation with and, if necessary, at the direction of the Governor, Illinois Department of Public Health, local health department, emergency management agencies, and/or Regional Office of Education.
2. Available learning opportunities may include remote and/or blended learning. Blended learning may require your child to attend school on a modified schedule.
3. Students will be expected to participate in blended and remote instruction as required by the school and district. Parents are responsible for assuring the participation of their child. Students who do not participate in blended or remote learning will be considered truant.
4. All school disciplinary rules remain in effect during the interruption of in-person learning. Students are subject to discipline for disrupting the remote learning environment to the same extent that discipline would be imposed for disruption of the traditional classroom.
5. Students and parents will be required to observe all public health and safety measures implemented by the school and district in conjunction with state and local requirements.
6. During a pandemic or other health emergency, the school and district will ensure that educational opportunities are available to all students.
7. School personnel will work closely with students with disabilities and other vulnerable student populations to minimize the impact of any educational disruption.

8. Students who have a compromised immune system, live with an individual with a compromised immune system, or have a medical condition that may impact their ability to attend school during a pandemic or other public health emergency should contact school officials.
9. During a pandemic or other health emergency, teachers and school staff will receive additional training on health and safety measures.
10. In accordance with school district or state mandates, the school may need to conduct a daily health assessment of your child. Parents and students will be notified of the exact assessment procedures if this becomes necessary.
11. Parents should not send their child to school if their child exhibits any symptoms consistent with the pandemic or other health emergency.
12. Please do not hesitate to contact school or district officials if you have any concerns regarding your child's education, health or safety.

## **TECHNOLOGY USE & INTERNET SAFETY POLICY**

### **Waterloo Community Unit School District No. 5**

The Board of Education hereby determines that it is in the best interests of the District, its personnel and its students, and members of the Waterloo Community Unit School District No. 5 community to promote use of and familiarity with the District Technology System and with the services which are available through that System to support learning and enhance instruction, and to improve communications between the school and community.

Knowledgeable and appropriate use of the District Technology System can facilitate access to information resources available on-line, create innovative learning environments, and provide for worldwide communication. For purposes of this policy, implementing rules, and acceptable use guidelines, the term "District Technology System" or "System" shall include all computer hardware and software owned or operated by the District, District electronic mail, District web sites, and District on-line services and bulletin board systems. "Use" of the District Technology System shall include use of or obtaining access to the System from any computer terminal whether or not owned or operated by the District. The District Technology System was established to comprise part of the school curriculum, and is intended by this Board to function in support of that curriculum and of students' mastery of the curriculum through improved communication between the school and students' parents or guardians. The District Technology System does not constitute a public forum. The District reserves and retains the right to regulate the content of and links to the District Technology System. The District also has the right to and does monitor use of its Technology System. Except as provided by federal and state statutes protecting the confidentiality of

students' education records, no user of the District Technology System has an expectation of privacy in connection with such use.

The Board of Education recognizes that although the Internet and on-line services afford access to legitimate sources of information for academic and educational purposes, they also enable access to materials, which may be illegal, obscene or indecent. The use of elements of the District Technology System including the Internet shall be consistent with the District's educational mission and the curriculum adopted by the Board.

With respect to any of its computers with Internet access, the District will use technology protection measures to (A) protect minors against access through such computers to visual depictions which are obscene, constitute child pornography, or are otherwise harmful to minors, and (B) protect all users against access through such computers to visual depictions that are obscene or constitute child pornography.

The Board of Education further recognizes that the effective operation of the District Technology System depends upon the existence and enforcement of guidelines for the efficient, ethical and legal use of its resources. The Administration is authorized to and shall adopt and enforce guidelines, which limit the use of the System to educational purposes, and describe acceptable and ethical use of the System. The guidelines shall, among other points, address:

- A. access by minors to inappropriate matter on the Internet and electronic mail.
- B. the safety and security of minors when using electronic mail, chat rooms, and other forms of direct electronic communication;
- C. unauthorized access, including "hacking" and other unlawful activities by minors and other users online;
- D. unauthorized disclosure, use, and dissemination of personal identification information regarding minors; and
- E. measures designed to restrict minors' access to materials harmful to minors.

Such guidelines shall be distributed to District employees and students (and other members of the Waterloo Community School District No. 5 community) who are afforded access to the System.

Violation of the acceptable use guidelines shall be subject to consequences including but not limited to discipline, loss of System use privileges, and referral to law enforcement authorities or other legal action in appropriate cases.

## **Annual Notice to Parents about Educational Technology**

School districts throughout the State of Illinois contract with different educational technology vendors for beneficial K-12 purposes such as providing personalized learning and innovative educational technologies, and increasing efficiency in school operations.

Under Illinois' Student Online Personal Protection Act, or SOPPA (105 ILCS 85/), educational technology vendors and other entities that operate Internet websites, online services, online applications, or mobile applications that are designed, marketed, and primarily used for K-12 school purposes are referred to in SOPPA as *operators*. SOPPA is intended to ensure that student data collected by operators is protected, and it requires those vendors, as well as school districts and the Ill. State Board of Education, to take a number of actions to protect online student data.

Depending upon the particular educational technology being used, our District may need to collect different types of student data, which is then shared with educational technology vendors through their online sites, services, and/or applications. Under SOPPA, educational technology vendors are prohibited from selling or renting a student's information or from engaging in targeted advertising using a student's information. Such vendors may only disclose student data for K-12 school purposes and other limited purposes permitted under the law.

In general terms, the types of student data that may be collected and shared include personally identifiable information (PII) about students or information that can be linked to PII about students, such as:

- Basic identifying information, including student or parent/guardian name and student or parent/guardian contact information, username/password, student ID number
- Demographic information
- Enrollment information
- Assessment data, grades, and transcripts
- Attendance and class schedule
- Academic/extracurricular activities
- Special indicators (e.g., disability information, English language learner, free/reduced meals or homeless/foster care status)
- Conduct/behavioral data
- Health information
- Food purchases
- Transportation information
- In-application performance data
- Student-generated work
- Online communications
- Application metadata and application use statistics

- Permanent and temporary school student record information

Operators may collect and use student data only for K-12 purposes, which are purposes that aid in the administration of school activities, such as:

- Instruction in the classroom or at home (including remote learning)
- Administrative activities
- Collaboration between students, school personnel, and/or parents/guardians
- Other activities that are for the use and benefit of the school district

## **HEALTH SERVICES**

### **Health Examinations/Immunizations**

All students are required to present appropriate proof of a health examination and the immunizations against, and screenings for, preventable communicable diseases within one year prior to:

1. Entering kindergarten or the first grade;
2. Entering the sixth and ninth grades; and
3. Enrolling in an Illinois school for the first time, regardless of the student's grade.

Proof of immunization against meningococcal disease is required for students in grades 6 and 12. A diabetes screening must be included as part of the health exam (though diabetes testing is not required). Students between the age of one and seven must provide a statement from a physician assuring that the student was "risk-assessed" or screened for lead poisoning.

Failure to comply with the above requirements by October 15 of the current school year will result in the student's exclusion from school until the required health forms are presented to the school, subject to certain exceptions. New students who register mid-term have 30 days following registration to comply with the health examination and immunization requirements. If a medical reason prevents a student from receiving a required immunization by October 15, the student must present, by October 15, an immunization schedule and a statement of the medical reasons causing the delay. The schedule and statement of medical reasons must be signed by an appropriate medical professional.

### **Eye Examination**

All students entering kindergarten or the school for the first time must present proof by October 15 of the current school year of an eye examination performed within one year. Failure to present proof by October 15, allows the school to hold the student's report card until the student presents: (1) proof of a completed eye examination, or (2) that an eye examination will take place within 60 days after October 15.

### **Dental Examination**

All students entering kindergarten, second and sixth grades must present proof by May 15 of the current school year of having been examined by a licensed dentist within the last 18 months. Failure to present proof allows the school to hold the child's report card until the student presents: (1) proof of a completed dental examination, or (2) that a dental examination will take place within 60 days after May 15.

### **Exemptions**

A student will be exempted from the above requirements for:

1. Medical grounds if the student's parent/guardian presents to the building principal a signed statement explaining the objection;
2. Religious grounds if the student's parent/guardian presents to the building principal a completed Certificate of Religious Exemption;
3. Health examination or immunization requirements on medical grounds if a physician provides written verification;
4. Eye examination requirement if the student's parent/guardian shows an undue burden or lack of access to a physician licensed to practice medicine in all of its branches who provides eye examinations or a licensed optometrist; or
5. Dental examination requirement if the student's parent/guardian shows an undue burden or a lack of access to a dentist.

### **Care of Students with Diabetes**

If your child has diabetes and requires assistance with managing this condition while at school and school functions, a Diabetes Care Plan must be submitted to the building principal, Mr. Brian Smith (618) 939-3454 or bsmith@wcusd5.net.

Parents/guardians are responsible for and must:

1. Inform the school in a timely manner of any change which needs to be made to the Diabetes Care Plan on file with the school for their child.
2. Inform the school in a timely manner of any changes to their emergency contact numbers or contact numbers of health care providers. c. Sign the Diabetes Care Plan.

3. Grant consent for and authorize designated School District representatives to communicate directly with the health care provider whose instructions are included in the Diabetes Care Plan.

For further information, please contact the building principal.

### **Food Allergies**

State law requires our school district to annually inform parents of students with life threatening allergies or life-threatening chronic illnesses of the applicable provisions of Section 504 of the Rehabilitation Act of 1973 and other applicable federal statutes, state statutes, federal regulations and state rules.

If your student has a life-threatening allergy or life-threatening chronic illness, please notify the building principal, Mr. Brian Smith at (618) 939-3454 or bsmith@wcusd5.net.

Federal law protects students from discrimination due to a disability that substantially limits a major life activity. If your student has a qualifying disability, an individualized Section 504 Plan will be developed and implemented to provide the needed supports so that your student can access his or her education as effectively as students without disabilities.

Not all students with life-threatening allergies and life-threatening chronic illnesses may be eligible under Section 504. Our school district also may be able to appropriately meet a student's needs through other means.

### **Medication**

The safety of every student is a primary concern. Rogers Elementary School has a nurse to assist in the health and safety of your child during school hours. The Board of Education has adopted policies and procedures to follow in order to assure the safety of all students in the school district. If medication is needed for temporary illness, chronic conditions or diseases such as asthma, behavioral disorders, headaches, stomachaches, etc., a completed physician and parental consent form (a medical dispensation form) must be on file in the health office. **NO** medications will be dispensed without a medical dispensation form on file. The forms may be obtained from the main office or the health office at any of the buildings. Medication must be brought to school in a container appropriately labeled by the pharmacist or physician. No student shall possess or consume any prescription or nonprescription medication on school grounds other than as provided for in this policy and its administering procedures.

The Health Office will accept a faxed copy of the form from the physician with the proper instructions included. Also, written parental consent must be obtained before any medication is given. **The Board of Education allows no student to carry over-the-counter medication on his or her person at any time while on**

**school property.** No student is allowed to leave the school building to retrieve medication from any other source, i.e. a vehicle or person. If your child requires an over-the-counter medication such as Tylenol, allergy medicine, Motrin or other pain medication, etc., the same procedure must be followed as for prescription drugs. Please contact the school nurse at your child's building as soon as possible if your child is in need of any medication during school hours. The nurse is able to assist in obtaining the necessary documentation to allow your child to take even over-the-counter medications while at school.

The Health Office is equipped with a locked cabinet in order to keep all medication safe. The parent would be responsible for bringing the prescribed medication to the school health office in the original container with their name printed on it. A record will be kept in the health office when each student receives medication. No medication will be given without physician and parental written consent.

Should a student become ill while at school and need medication, every effort will be made by the school nurse or administrative staff to contact the responsible party and request medication be brought to school for the student. In such cases where a responsible party cannot be reached, comfort measures will be given to the student until someone is available. The school does not have medication on hand to administer to students randomly.

No school or district employee is allowed to administer to any student, or supervise a student's self-administration of, any prescription or non-prescription medication until a completed and signed School Medication Authorization Form is submitted by the student's parent/guardian. No student is allowed to possess or consume any prescription or non-prescription medication on school grounds or at a school-related function other than as provided for in this procedure.

### **Self-Administration of Medication**

A student may possess and self-administer an epinephrine injector (e.g., EpiPen®) and/or an asthma inhaler or medication prescribed for use at the student's discretion, provided the student's parent/guardian has completed and signed a School Medication Authorization Form.

Students who are diabetic may possess and self-administer diabetic testing supplies and insulin if authorized by the student's diabetes care plan, which must be on file with the school.

Students with epilepsy may possess and self-administer supplies, equipment and medication, if authorized by the student's seizure action plan, which must be on file with the school.

Students may self-administer (but not possess on their person) other medications required under a qualified plan, provided the student's parent/guardian has completed and signed a School Medication Authorization Form.

The school district shall incur no liability, except for willful and wanton conduct, as a result of any injury arising from a student's self-administration of medication, including asthma medication or epinephrine injectors, or medication required under a qualifying plan. A student's parent/guardian must indemnify and hold harmless the school district and its employees and agents, against any claims, except a claim based on willful and wanton conduct, arising out of a student's self-administration of an epinephrine injector, asthma medication, and/or a medication required under a qualifying plan.

All students choosing not to comply with the medication guidelines will be subject to disciplinary action. Questions regarding ANY medications at school may be directed to the school nurse. Any student who becomes ill during the normal school day (6:50-2:45) must use the school provided phones in the Principal, Assistant Principal, or Nurse's office to call a parent/guardian.

### **Designated Caregiver Administration of Medical Cannabis**

In accordance with the Compassionate Use of Medical Cannabis Program, qualifying students are allowed to utilize medical cannabis infused products while at school and school events. Please contact the building principal for additional information. Discipline of a student for being administered a product by a designated caregiver pursuant to this procedure is prohibited. The District may not deny a student attendance at a school solely because he or she requires administration of the product during school hours.

The Compassionate Use of Medical Cannabis Pilot Program Act allows a parent/guardian of a student who is a minor to register with the Ill. Dept. of Public Health (IDPH) as a designated caregiver to administer medical cannabis to their child. A designated caregiver may also be another individual other than the student's parent/guardian. Any designated caregiver must be at least 21 years old and is allowed to administer a medical cannabis infused product to a child who is a student on the premises of his or her school or on his or her school bus if:

1. Both the student and the designated caregiver possess valid registry identification cards issued by IDPH;
2. Copies of the registry identification cards are provided to the District; and
3. That student's parent/guardian completed, signed, and submitted a School Medication Authorization Form - Medical Cannabis.

Medical cannabis infused product, (product) includes oils, ointments, foods, and other products that contain usable cannabis but are not smoked or vaped. Smoking and/or vaping medical cannabis is prohibited. After administering the

product to the student, the designated caregiver shall immediately remove it from school premises or the school bus. The product may not be administered in a manner that, in the opinion of the District or school, would create a disruption to the educational environment or cause exposure of the product to other students. A school employee shall not be required to administer the product. Discipline of a student for being administered a product by a designated caregiver pursuant to this procedure is prohibited. The District may not deny a student attendance at a school solely because he or she requires administration of the product during school hours.

### **Undesignated Medications**

The school may maintain the following undesignated prescription medications for emergency use: (1) Asthma medication; (2) Epinephrine injectors; (3) Opioid antagonists; and (4) Glucagon. No one, including without limitation, parents/guardians of students, should rely on the school or district for the availability of undesignated medication. This procedure does not guarantee the availability of undesignated medications. Students and their parents/guardians should consult their own physician regarding these medication(s).

### **Emergency Aid to Students**

Nothing in this policy shall prohibit any school employee from providing emergency assistance to students, including administering medication.

### **Suicide and Depression Awareness and Prevention**

Youth suicide impacts the safety of the school environment. It also affects the school community, diminishing the ability of surviving students to learn and the school's ability to educate. Suicide and depression awareness and prevention are important goals of the school district.

The school district maintains student and parent resources on suicide and depression awareness and prevention. Information can also be obtained from the school office.

## **ATTENDANCE POLICIES**

Illinois law requires that whoever has custody or control of any child between six (by September 1<sup>st</sup>) and seventeen years of age shall assure that the child attends school in the district in which he or she resides, during the entire time school is in session (unless the child has already graduated from high school). Illinois law also requires that whoever has custody or control of a child who is enrolled in the school, regardless of the child's age, shall assure that the child attends school during the entire time school is in session.

Illinois law requires that whoever has custody or control of any child between six (by September 1st) and seventeen years of age shall assure that the child attends school in the district in which he or she resides, during the entire time school is in session (unless the child has already graduated from high school). Illinois law also requires that whoever has custody or control of a child who is enrolled in the school, regardless of the child's age, shall assure that the child attends school during the entire time school is in session.

### **Absence from School**

If a student is absent, the parent should call the office (939-3454) before 8:00 a.m. and follow the attendance prompts each day stating the reason for the absence. If a call has not been made to the school by 10:00 a.m. on the day of a student's absence, a school official will call the home to inquire why the student is not at school. If the parent/guardian cannot be contacted, the student will be required to submit a signed note from the parent/guardian explaining the reason for the absence. Failure to do so shall result in an unexcused absence. Upon request of the parent/guardian, the reason for an absence will be kept confidential. Failure to do so will result in the absence being classified unexcused. An unexcused absence will not be changed to excused unless the parent calls the school the day of the absence or the following school day. A message can be left on the attendance office's phone messaging system.

Written notes will be accepted only if the parent has made a prior request to the school. This request must include the student's name, the reason for excusing the student in this manner, and a parent signature. The request must be sent by mail in order to be valid. Students who enter or leave school throughout the day, for any reason, must sign in or out at the attendance window, with the permission of the parents and the office staff. Failure to do so will result in the absence being classified as truancy. (Note: Parent calls after a student leaves school will not excuse the absence.)

Additionally, a student will be excused for up to 5 days in cases where the student's parent/guardian is an active duty member of the uniformed services and has been called to duty for, is on leave from, or has immediately returned from deployment to a combat zone or combat-support postings. The Board of Education, in its discretion, may excuse a student for additional days relative to such leave or deployment. A student and the student's parent/guardian are responsible for obtaining assignments from the student's teachers prior to any excused absences and for ensuring that such assignments are completed by the student prior to his or her return to school.

### **Attendance Accounting**

Attendance is taken for each student every day. This information is kept in the student's permanent record. The school's average daily attendance is reported to the state, and it is used to determine the amount of state aid we receive. A

student must be present at least 300 minutes to be credited with a full day of attendance. Under the “normal” school day schedule a half-day of attendance is credited if the student is in school between 150 and 299 minutes.

### **Absence Classifications**

- **Excused Absence:** An absence due to personal illness, death in the immediate family, observance of a religious holiday, attending a military honors funeral to sound TAPS or an emergency situation beyond the control of the student as determined by the building principal will be considered an excused absence. An excused absence entitles a student to make up all assignments missed. The student will have one day, plus the number of days absent to turn in makeup work. It is the responsibility of the student to contact the teacher on the day he/she returns to complete a plan for doing work that was missed. In the event that a student has an excused absence on the day that a specific long-term assignment is due and the student was previously informed of the pre-determined due date, the student may be required to submit such assignment on the day that the student returns to school from the excused absence. The teacher may extend the due date with unusual circumstances.
- **Unexcused Absence:** An absence due to truancy or to any cause, which the administration cannot approve, is classified as unexcused. In such matters, the teacher has no responsibility for assisting the student in making up the work missed, and the student receives no credit.
- **Partial Day Absence:** Permission to miss class for personal emergency, important business or medical and dental appointments that cannot be scheduled during nonschool hours, must be obtained in the attendance office. The office must have parental permission for the student to leave and the student must provide verification upon return. In no case should a student leave the school grounds without reporting to the office, nor shall a student report late to school without first checking into the office. **FAILURE TO DO SO WILL RESULT IN AN UNEXCUSED ABSENCE AND DISCIPLINARY ACTION.** Students who become ill at school should report to the nurse to be excused for the remainder of the day.

In order for a student to participate or attend a scheduled extracurricular practice or activity on a school afternoon or night, he/she must be in attendance at school for the entire day. The only exception will be a pre-arranged administrative approval (i.e. funeral, doctor’s appointment, etc.) If a student misses any part of the day due to illness, he/she will not be permitted to participate or attend that afternoon or evening activity. A student that is too sick to attend the full school day is too sick to participate in or attend any after-school activity.

## **Truancy**

Student attendance is critical to the learning process. Truancy is therefore a serious issue and will be dealt with in a serious manner by the school and district. Students who miss more than 1% but less than 5% of the prior 180 regular school days without valid cause (a recognized excuse) are truant. Students who miss 5% or more of the prior 180 regular school days without a valid cause are considered chronic truants. Students who are chronic truants will be offered support services and resources aimed at correcting the truancy issue.

If chronic truancy persists after support services and other resources are made available, the school and district will take further action, including:

- Referral to the truancy officer
- Reporting to officials under the Juvenile Court Act
- Referral to the State's Attorney
- Appropriate school discipline

A student who misses 15 consecutive days of school without valid cause and who cannot be located or, after exhausting all available support services, cannot be compelled to return to school is subject to expulsion from school.

A parent or guardian who knowingly and willfully permits a child to be truant is in violation of State law.

## **Pre-arranged Absences**

Please call the office or visit the office to pick up a *Planned Absence* form if you know ahead of time that your child will be missing school for any reason.

## **Tardiness**

Students will be counted tardy if not present by 8:05 A.M. Please check your child in at the office if arrival is after 8:05 A.M.

## **Religious Observances**

Students desiring to attend religious services will be allowed to do so. In order for an absence to be excused, the parent/guardian must complete the Planned Absence Form and submit it to the office one-day prior to the absence.

## **Physical Education Excusal**

In order to be excused from participation in physical education, a student must present an appropriate excuse from his or her parent/guardian or from a person licensed under the Medical Practice Act. The excuse may be based on medical or religious prohibitions. An excuse because of medical reasons must include a signed statement from a person licensed under the Medical Practice Act that corroborates the medical reason for the

request. An excuse based on religious reasons must include a signed statement from a member of the clergy that corroborates the religious reason for the request.

Students with an Individualized Education Program may also be excused from physical education courses for reasons stated in Handbook Procedure 10.30.1 Special activities in physical education will be provided for a student whose physical or emotional condition, as determined by a person licensed under the Medical Practices Act, prevents his or her participation in the physical education course.

State law prohibits the School District from honoring parental excuses based upon a student's participation in athletic training, activities, or competitions conducted outside the auspices of the School District.

Students who have been excused from physical education shall return to the course as soon as practical. The following considerations will be used to determine when a student shall return to a physical education course:

1. The time of year when the student's participation ceases; and
2. The student's class schedule.

## **DISCIPLINARY PROCEDURES**

### **Student Discipline**

Teachers and other certified educational personnel shall maintain discipline in the schools. In all matters relating to the discipline in and the conduct of the school and the school children, they stand in the relations of parents and guardians to the pupils. This relationship shall extend to all activities connected with the school program and may be exercised at any time for the safety and supervision of the pupils in the absence of their parents and guardians. (Illinois School Code). Cooperation among parents, teachers and administrators is both necessary and desirable. In order for the student to benefit from disciplinary procedures, it is most important that they understand the reasons for such actions. Discipline should be fair and constructive, not arbitrary or excessive.

The development of discipline is a major element of the maturation process. As a child matures, he/she must progress from the need of external control to internalized self discipline necessary to become an effective, responsible adult. The goals of a disciplinary policy are to develop self-control, orderliness and change the behavior. The elements of a disciplinary policy must focus on these goals for the institution in its corrective, behavior modification measures.

An individual has the right to the opportunity of public supported education. However, an individual does not have the right to interfere with the rights of others

to an education in a safe, secure and orderly manner. The rights of an individual and the institution must be balanced.

### **School Property and Equipment as well as Personal Effects Left There by Students**

School authorities may inspect and search school property and equipment owned or controlled by the school (such as, lockers, desks, and parking lots), as well as personal effects left there by a student, without notice to or the consent of the student. Students have no reasonable expectation of privacy in these places or areas or in their personal effects left there.

The building principal may request the assistance of law enforcement officials to conduct inspections and searches of lockers, desks, parking lots, and other school property and equipment for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through the use of specially trained dogs.

### **Student Searches**

School authorities may search a student and/or the student's personal effects in the student's possession (such as, purses, wallets, knapsacks, book bags, lunch boxes, etc.) when there is a reasonable ground for suspecting that the search will produce evidence the particular student has violated or is violating either the law or the school or district's student rules and policies. The search will be conducted in a manner that is reasonably related to its objective of the search and not excessively intrusive in light of the student's age and sex, and the nature of the infraction.

### **Seizure of Property**

If a search produces evidence that the student has violated or is violating either the law or the school or district's policies or rules, evidence may be seized and impounded by school authorities, and disciplinary action may be taken. When appropriate, evidence may be transferred to law enforcement authorities.

### **Access to Student Social Networking Passwords & Websites**

School officials may conduct an investigation or require a student to cooperate in an investigation if there is specific information about activity on the student's account on a social networking website that violates a school disciplinary rule or policy. In the course of an investigation, the student may be required to share the content that is reported in order to allow school officials to make a factual determination. School officials may not request or require a student or his or her parent/guardian to provide a password or other related account information to gain access to the student's account or profile on a social networking website.

### **Questioning of Students Suspected of Committing Criminal Activity**

Before a law enforcement officer, school resource officer, or other school security person detains and questions on school grounds a student under 18 years of age who is suspected of committing a criminal act, the building principal or designee will: (a) Notify or attempt to notify the student's parent/guardian and document the time and manner in writing; (b) Make reasonable efforts to ensure the student's parent/guardian is present during questioning or, if they are not present, ensure that a school employee (including, but not limited to, a social worker, psychologist, nurse, guidance counselor, or any other mental health professional) is present during the questioning; and (c) If practicable, make reasonable efforts to ensure that a law enforcement officer trained in promoting safe interactions and communications with youth is present during the questioning.

### **Possible Consequences**

Students who choose not to follow the expectations are choosing negative consequences. We feel that the perfect consequence is the one that changes the inappropriate behavior.

These consequences include, but are not limited to, the following options: student/teacher conference, parent/teacher conference, loss of privileges (recess, etc.), lunch detention, after school detention, community service, assignment to the alternative room, Saturday detention, and out of school suspension.

### **Suspension (Out of School)**

Suspension out of school is a disciplinary action taken by school officials to separate a student from school for a period of ten days or less. Students who are suspended are not permitted to be on or near campus, to use school transportation, or to attend school sponsored activities. For a student who is suspended the first occasion in a given school year, it shall be the responsibility of the student to request assignments for the duration of the suspension, and the student must turn in all work and complete tests for his/her teachers on the day the student returns from the suspension in order to earn credit. Furthermore, a student will have the opportunity to earn 100% credit on all academic work during the suspension if completed and turned in upon return. Assignments made during the suspension but due after the suspension is over will be accepted. There will be no due date extension. In addition, a student who is suspended from school is exempt from earning extra credit beyond what is typically offered to all students in a particular class.

### **Suspension Due Process**

The Superintendent, Building Principal, and the Assistant Principal are authorized to suspend students guilty of gross disobedience or misconduct from school and all school functions for a period not to exceed ten (10) school days. The student and/or parents are due the following procedural protection:

1. Prior to suspension, the student shall be provided oral or written notice of the charges.
2. If the charges are denied, the student shall be given an explanation of the evidence against him/her and an opportunity to present his/her version of the incident.
3. Prior notice and hearing as stated above may not be required and the student immediately suspended when the student's presence poses a continuing danger to persons or property or an ongoing threat of disruption to the academic or educational process. In such cases, the necessary notice and hearing shall follow as soon as it is practical.
4. Any suspension shall be reported to the parents or guardian of the student. Such reports shall contain a full statement of the reasons for suspension and a notice to the parents or guardian of their right of review. Also, a copy of the notice shall be given to the Superintendent and the Board of Education.
5. Upon request of the parents or guardian, a hearing shall be conducted by the School Board or hearing officer appointed by it to review the suspension. At the hearing, the parents or guardian of the student may appear and discuss the suspension with the Board. After the hearing or upon the receipt of the report of the hearing officer, the Board may take such action as it finds appropriate.

(2) A knife, brass knuckles or other knuckle weapon regardless of its composition, a billy club, or any other object if used or attempted to be used to cause bodily harm, including "look alike" of any firearm as defined above. The expulsion requirement may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by case basis.

2. Off school grounds at school activities, functions or events.

4. Anywhere, if the conduct may reasonably be considered to be a threat or an attempted intimidation of staff members, or an interference with school purposes or an education function; or

**DISCIPLINARY MEASURES INCLUDE:**

School officials shall limit the number and duration of expulsions and out-of-school suspensions to the greatest extent practicable, and, where practicable and reasonable, shall consider forms of non-exclusionary discipline before using

out-of-school suspensions or expulsions. School personnel shall not advise or encourage students to drop out of school voluntarily due to behavioral or academic difficulties. Potential disciplinary measures include, without limitation, any of the following measures:

Before receiving disciplinary action, the student shall be given the opportunity to deny or explain his or her conduct.

The above list of disciplinary measures is a range of options that will not always be applicable in every case. In some circumstances, it may not be possible to avoid suspending or expelling a student because behavioral interventions, other than a suspension or expulsion, will not be appropriate and available, and the only reasonable and practical way to resolve the threat and/or address the disruption is a suspension or expulsion.

### **Isolated Time Out**

Time Out and Physical Restraint Isolated time out, time out, and physical restraint shall only be used if the student's behavior presents an imminent danger of serious physical harm to the student or others and other less restrictive and intrusive measures were tried and proven ineffective in stopping it. The school may not use isolated time out, time out, and physical restraint as discipline or punishment, convenience for staff, retaliation, a substitute for appropriate educational or behavioral support, a routine safety matter, or to prevent property damage in the absence of imminent danger of serious physical harm to the student or others.

### **Bullying Policy-Prevention of and response to bullying, intimidation and harassment**

Bullying, intimidation, and harassment diminish a student's ability to learn and a school's ability to educate. Preventing students from engaging in these disruptive behaviors and providing all students equal access to a safe, non-hostile learning environment are important school goals. Bullying on the basis of actual or perceived race, color, national origin, immigration status, military status, unfavorable discharge status from the military service, sex, sexual orientation, gender identity, gender-related identity or expression, ancestry, age, religion, physical or mental disability, order of protection status, status of being homeless, or actual or potential marital or parental status, including pregnancy, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic is prohibited in each of the following situations:

1. During any school-sponsored education program or activity.

4. Through the transmission of information from a computer that is accessed at a nonschool-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by the school district or school if the bullying causes a substantial disruption to the educational process or orderly operation of a school.

If there is any reason to believe that a student is using drugs illicitly at any time on or off school premises, the health and counseling services of the school shall be made available to the students and parents. All prescription drugs, medicine and stimulants must be turned into the nurse’s office for dispensing with a medical dispensation form. A letter from the parent must accompany the medicine stating the dosage and duration the student is to be taking the prescription. The letter will be kept on file in the nurse’s office.

### **Delegation Of Authority**

Each teacher and any other school personnel when students are under his or her charge, is authorized to impose any disciplinary measure, other than suspension, or expulsion, corporal punishment or in-school suspension, which is appropriate and in accordance with the policies and rules on student discipline. Teachers may use reasonable force as needed to maintain safety for other students and remove students from a classroom for disruptive behavior.

The Superintendent, Building Principal, Assistant Principal are authorized to impose the same disciplinary measures as teachers and may also suspend students guilty of gross disobedience or misconduct from school (including all school functions) and from riding the school bus, up to 10 consecutive school days, provided the appropriate procedures are followed.

The School Board may suspend a student from riding the bus in excess of 10 days for safety reasons and may expel students guilty of gross disobedience or misconduct for the remainder of the school term or for a period up to 2 years as determined by the Board.
