- Yes: 2.7%
  - 3 people

-Q7: Questions or comments about reopening?

**Concerns (based on themes)**

-Who will provide sanitation needs, masks, etc.

-How will we monitor for health of all who enter the respective buildings

-Who will clean? And how often?

-Ventilation concerns at all three buildings

-Plumbing/ hand washing/ hot water concerns at all three buildings

-How do we take breaks from masks? AND how younger aged kids are expected to follow this all the time

-How will enforcement of wearing masks take place/ on what level?

-Basic changes to working conditions; that we are being asked to wear multiple hats by doing hybrid model as needs of in person and remote are quite different

-childcare/school for staff within they hybrid models

-family health concerns

-how are specialists being considered in that they are being recommended to work everyday to accommodate service plans, etc.

-can remote teaching be done from my own classroom?

-PD/ trainings for safety and remote teaching

-sick day protocol

-class sizes
