

# Parent Survey - 7/21/2020

**Responses-** 965 students represented (may be some repeated entries)

**Learning Model - If given a choice, which option would you choose for your student?**

- Remote Only- 15 percent
- In-person- 85 percent
  - 5 day in person instruction at 3 feet.- 62 percent
  - Hybrid instruction with 6 feet of distancing for in person instruction- 27 percent

**Hybrid Model- Given your family and employment situation, which of the two hybrid models work best for you and your family?**

- 76 percent- 2 day in person, 3 day remote
- 31 percent- Week on/week off

**Remote Learning Feedback-**

*What worked in remote learning:*

- Live meetings with teachers
- Independent "traditional" work provided by teachers
- Independent online/computer based work provided by teachers

*What parts of remote learning provided the biggest challenges*

- My student could not complete work without adult assistance
- Lack of contact with students
- Lack of contact with teachers
- Getting my student interested

*As we are building our remote learning pathway, which of the following are most important to you?*

- The learning includes balanced combination of online and offline assignments and activities
- The learning includes a balanced combination of synchronous(via GoogleMeet) and asynchronous instructional experiences
- That my student is interested in the material
- That my student feels supported and has direct contact or the ability to interact academically in a virtual setting with their teachers and classmates

- That my student is receiving feedback on their work from the teacher
