

# CLEVER R-V SCHOOL DISTRICT

## *Return to Learn*

Clever R-V is committed to providing a high quality education for all students while prioritizing the health of our entire school community. We recognize the need for families to have options so they may determine the best learning environment for their student(s). Additionally, school leaders understand the importance of implementing online learning in every classroom so students are more prepared to transition from face-to-face instruction to distanced learning should schools be forced to close again in the future.

The following learning options will be available for the 2020-21 school year. For those choosing the Bluejays@Home option, an application must be submitted by July 31.

Should the district at any time move to an extended school closure, all students will be moved to an online learning platform.

### Seated In Person

- In-person classes will be taught in a more traditional format. However, students will begin using an online platform such as Google Classroom, SeeSaw or Canvas intermittently throughout the school day.
- If a temporary school closure occurred due to increased health and safety concerns, in-person classes would immediately transition to distanced learning and remain in place until reopening.
- Students who begin in-person classes will be transferred to distanced learning in the event of a school closure.

### Bluejays@Home

- All students in grades K-12 will have the option to enroll in the virtual learning program Bluejays@Home.
- The program will be taught by Clever R-V teachers using a combination of District adopted resources, teacher directed instruction and District approved technology programs.
- Bluejays@Home Application is due by Friday, July 31, 2020. No late registrations will be accepted due to staffing decisions.
- Students will have interaction with their teachers via video conferencing.

### 100% Virtual Learning (LAUNCH)

- LAUNCH is taught by a certified Missouri instructor using a curriculum developed by outside the Clever District.
- Families should plan on six hours of instruction daily.
- LAUNCH candidates are students who:
- Are self-motivated and can work independently
- Are comfortable using CANVAS and other technology.
- Consistently meet deadlines.
- Can advocate for themselves and ask for assistance if they are having difficulty with a course.
- Possess solid communication skills needed to interact appropriately with classmates and teachers in an online setting.
- Have met grade level reading expectations.
