

July 24, 2020

Dear Viking Community,

The Illinois Elementary School Association (IESA) notified school districts, earlier today, that it has cancelled the Fall season and state series in the Junior High sports of boys and girls golf, boys baseball, girls softball, and boys and girls cross-country for the 2020-21 school year. There are no plans for the IESA to reschedule the activities or conduct them later in the school year. The IESA Board has delayed its decision on girls basketball.

With that being said, please be patient with us as we weigh our options for our Junior High student athletes to remain active in these activities this school year. We are not ready to give up on our fall sports just yet, but need to investigate ways for our student athletes to participate in these sports in some capacity at Tri-Valley this fall. At this time, due to this announcement, we will postpone the start of all fall Junior High sports until we can further research what options are available. Thank you again for your patience and understanding in this difficult time.

Sincerely,

The Tri-Valley Athletic Department
