

Perry County District #32

326 College St.
Perryville, MO 63775

COPPA Form for Parental Consent

Dear Families,

In order for Perry County District #32 to provide your student with the most effective web-based tools and apps for learning, we need to abide by federal regulations that require a parental permission as outlined below. District #32 utilizes several computer software apps and webbased services operated not by District #32, but by third parties. These include Google Apps for Education, Clever, SeeSaw and similar educational programs. A complete listing of all the websites and apps used by District #32 along with the privacy policy and terms of use for each can be found on the Perry County District #32 website at <https://www.pcsd32.com/o/district-32/page/ferpa-coppa-policy>.

In order for our students to use these programs and services, certain basic personal identifying information--generally the student's name, username and email address--must be provided to the web site operator. It is important to note that students in grades K-7 can only email District #32 staff and students from their school accounts and cannot receive email from ANY outside email addresses. There is no danger that any outside individuals or companies will be able to communicate with children in these grades.

In many cases, access to these websites and resources is provided through a teacher account or a single sign-on website (Clever) and is monitored by the teacher using the resource. Students in grade 8, however, are able to receive email from outside email addresses since the majority of these students are 13 or will be turning 13.

Under the federal COPPA law, these websites must notify parents and obtain parental consent before collecting personal information from children under the age of 13. However, the law permits schools such as District #32 to consent to the collection of personal information on behalf of all of its students, thereby eliminating the need for individual parental consent to be given directly to each website provider.

This form constitutes your consent for Perry County District #32 to provide limited personal identifying information for your child consisting of first name, last name, email address, and username to the following web-operators: Google Apps for Education, SeeSaw and the operators of any additional web-based educational programs and services which Perry County School District #32 may deem necessary during the upcoming academic year.

These tools will be used through two types of accounts: teacher and student accounts. Student accounts and information related to them is stored completely privately and is only accessible to us as a district. With their many accounts, students will watch video lessons, respond to questions to evaluate their understanding of the subject and get feedback from their teacher regarding their performance.

If your child is under 13, we need your consent to create your child's student account on their behalf. Please sign and return as soon as possible!

Thank you!

Yes, I give permission for the school to create student accounts for my child.

Student name: _____

Parent name: _____

Parent cell/email: _____

Parent signature: _____

Date: _____
