

## **AHS - Virtual and On Site Learning**

Arkadelphia High School is committed to offering a high quality education, regardless of whether you select our “On Site” or “Virtual” program. Our teachers will continue utilizing the ECHO learning management system, with which our students and staff are already familiar. Our goal is for students to receive the same quality content, both on site and virtually.

With both “On Site” and “Virtual” programs, teachers will utilize short video segments, class agendas, discussion threads, assignments, quizzes, a multi outcome grading system, and many other tools to deliver our quality curriculum. Additionally, teachers will have access to supplemental tools, including but not limited to, Lincoln Learning and Khan Academy. However, it is important to note that we will be using our own curriculum.

Training our students to be effective users of technology has been a commitment of AHS for many years. We will continue this commitment with a detailed focus on virtual learning. Please know that all of our students will be taught how to use all the virtual learning tools we offer.
