

El Reno Public Schools is excited to offer parents the opportunity to enroll in our Virtual ER Educational Program for the 2020-2021 school year. We know there is concern for the health and safety of our students and many parents are interested in options. Virtual ER is an online, virtual curriculum through our educational partner Edmentum managed by certified ERPS teachers.

- ❑ Students work from home through ERPS enrolled classes. Students will continue to be enrolled in their grade equivalent school site in the district.
- ❑ ERPS Teachers work with students through their courses monitoring and assessing their mastery of content and skills.
- ❑ Students enrolled in Virtual ER may still participate in the following extracurricular activities with ERPS. (HS Athletics, JH Athletics, HS Band, JH Band, HS Speech and Drama, HS Vocal Music, JH Vocal, and HS FFA). Students must be enrolled in and attend on site each extracurricular class in order to be eligible to participate.
- ❑ Juniors and Seniors enrolled in Virtual ER may choose to have a blended schedule by taking Advanced Placement classes on campus in a traditional classroom.
- ❑ Students would continue to need to meet the attendance requirements of ERPS in a virtual/digital manner.
- ❑ Students will meet weekly with a certified ERPS teacher. These meetings may take place in person or virtually depending on the need.
- ❑ Students enrolling in Virtual ER will be making a full semester commitment to the program. Students would have the option of switching out at the beginning of the next semester.

Students interested in enrolling in Virtual ER for the 2020 -2021 school year need to submit an application to begin the process.
