

**A Healthy Smile  
for your Child!**

**Brought to you by Heartland Community Health Center and Your School**

Improving a child's dental knowledge and awareness can provide a positive dental experience and good oral health, extending through every stage of life. With this goal in mind, a school-based dental program has been developed to achieve a healthy smile for your child. Heartland Community Health Center is working with schools to serve children ages Pre-K through 12th grade with this program.

### ELIGIBILITY

- ◆ For ALL students, regardless of income level or insurance status. We serve those with KanCare (Medicaid), Private Insurance or no insurance at NO cost to you
- ◆ Aimed and children who have no current dental home.
- ◆ We encourage all students who already have a dental home to continue receiving regular check-ups and cleanings from their dentist!

### SERVICES

- ◆ Dental Cleanings
- ◆ Fluoride treatments
- ◆ Silver Diamine Fluoride
- ◆ Sealants
- ◆ X-Rays
- ◆ Oral Exam
- ◆ Dental Hygiene Instruction

### ENROLL

- ◆ Enrollment is open throughout the school year.
- ◆ Fill out the two-sided parental and dental form provided and return to the school.
- ◆ Questions? Please feel free to contact Laura Gigstad at:
