9120 PUBLIC RELATIONS PROGRAM

The Board of Education believes all reasonable means should be employed to keep the community served by the school district informed on matters of importance regarding district programs, finances, personnel, policies, and operations.

The Board will determine which of its official actions have sufficient community impact and interest to warrant special release; the Board alone will release to the news media information about those matters of importance. The Board President may release information regarding Board actions of lesser importance as they have been recorded in the minutes of the Board meetings and upon the request of media representatives. The release of all other publications, photographs, and documents depicting the accomplishments of the pupils and staff of the district shall be approved by the Superintendent of Schools or designee.

The school district will not release or publish photographs or release other personal identifying information of an individual district pupil without the prior written permission of the parent(s) or legal guardian(s) or from the adult pupil. Written permission slips for such release from each parent(s) or legal guardian(s) or adult pupil will be obtained by the Principal or designee for the pupils in their school building or by the Program Administrator for pupils in programs where a Principal is not assigned. These written permission forms shall be maintained by the Principal or Program Administrator. Group photographs may be released by the district without permission, but in no event will an individual pupil in a group photograph be identified by name and/or by other personal identifier without written permission from the parent(s) or legal guardian(s) or adult pupil.

The Superintendent of Schools shall direct an information program designed to acquaint residents of the community and the public generally with the achievements and the needs of the schools. As a minimum, information shall be disseminated regarding the district's educational goals; the district's guarantee of equal educational opportunity; the district's programs for basic skills improvement, special education, bilingual education, and English as a second language; and summary reports of the administration of statewide assessment tests. Every effort shall be made to foresee and avoid problems caused by misunderstanding or lack of information.

The public information program may include the publication and distribution of a district newsletter, meetings with parent(s) or legal guardian(s) and interested residents, a presentation and interpretation of the proposed annual budget, periodically distributed calendars and notices of events, the Superintendent's annual report, and a pupil handbook, as well as the release of news and photographs of school activities for publication. Notices, publications, and other written materials may be prepared in languages other than English as necessary and appropriate for understanding.

The Board of Education adopts the following strategies to minimize the cost of public relations as defined in N.J.A.C. 6A:23A-9.3(c)14 in accordance with N.J.A.C. 6A:23A-5.2.

School district publications shall be produced and distributed in the most cost-efficient manner possible that will enable the school district to inform and educate the target community. The use of expensive materials or production techniques where lower cost methods are available and appropriate, such as the use of multi-color glossy publications instead of suitable, less expensive alternatives, is prohibited.

The school district will not distribute, via mass mailings or other means to the district community at large, publications that include the picture(s) of any members of the Board of Education within ninety days before any election in which any Board member is seeking any elective office or any election relating to school district operations held in the district. Any publication(s) distributed by the Board via mass mailings or other means to the district community at large within sixty days before any election in which any Board member is seeking any elective office or any election relating to school district operations held in the district must be submitted to the Executive County Superintendent for review prior to distribution to ensure that the public funds are being expended in a reasonable and cost-effective manner.

Public relations activities, such as booths at Statewide conferences, marketing activities and celebrations for opening schools and community events, and TV productions that are not part of the instructional program or do not provide information about district or Board operations to the public, that are excessive in nature are prohibited. All activities involving promotional efforts to advance a particular position on school elections or any referenda are prohibited.

Nothing in N.J.A.C. 6A:23A-5.2 and this Policy shall preclude the school district from accepting donations or volunteer services from community members, local private education foundations and local business owners to conduct or assist in public relations services. Examples include, but are not limited to: providing school district flyers, newsletters, or other materials containing school-related information of public concern to local businesses, public meeting places, or other local organizations to display or make available for dissemination; making school district related information of public concern available to local newspapers to publish related articles; and utilizing volunteered services of local community members, district employees, members of parent organizations or local businesses with expertise in related areas such as printing, advertising, publishing, or journalism.

9200 COOPERATION BETWEEN PARENTS AND SCHOOL

The Board of Education believes that the education of children is a joint responsibility that the Board shares with the parent(s) or legal guardian(s) of pupils. To ensure that the best interests of the child are served in this process, a strong program of communication between home and school must be maintained.

It is the position of the Board that parent(s) or legal guardian(s) bear the ultimate responsibility for their children's in-school behavior, including the behavior of pupils who have reached the legal age of majority, but are still for all practical purposes under parental authority.

The Board directs that cooperation be encouraged by parent-teacher conferences that permit two-way communication between home and school; open houses in the school that provide parent(s) or legal guardian(s) with the opportunity to see the school facilities, meet the faculty, and observe the program on a first hand basis; meetings of staff members and groups of the parent(s) or legal guardian(s) of those pupils having special abilities, needs, or problems; and special events of a cultural, ethnic, or topical nature, which are initiated by parent groups, involve the cooperative effort of pupils and parent(s) or legal guardian(s), and are of general interest to the school or community.

Adopted: 19 May 2009

9210 PARENT ORGANIZATIONS

A school-connected organization is a voluntary organization of parent(s) or legal guardian(s), school staff, and friends of the school whose purpose is to support school sponsored co-curricular and athletic programs. These organizations must be approved by the Lakeland Regional High School District Board of Education which encourages the work performed and the support provided by school-connected organizations. Such organizations may not establish educational policy, participate in the administration of the school, or authorize management and direction of school affairs. Furthermore, approval by the Board does not make an organization the only spokesperson for parent(s) or legal guardian(s) interested in the particular activity.

Permission to hold meetings of the organization in the Lakeland Regional High School District facilities will be extended by the Board of Education for a particular school year, in accordance with policy. Each organization shall provide a written goal statement and by-laws which must clearly define the role of the organization and its members prior to Board approval. After review and recommendation by the Principal or his/her designee, these organizations will be annually approved by the Board at the Organization Meeting. Each organization shall have as their objective the promotion of pupil welfare; the development of close relationships between the home and the school; and the support of the program and every pupil participating in the program.

All books, accounts, and financial records of a fund-raising organization must be available for inspection.

Organizations must report the names of the groups' officers to the Superintendent each school year.

The Principal or his/her designee shall develop procedures to monitor school-connected organizations in these areas:

1. Any interaction with pupils and/or staff;
2. Any use of school property and/or equipment;
3. Contribution of funds;
4. Contributions of equipment; and
5. Fundraising and service activities. All fundraising activities must be preapproved by the Assistant Principal responsible for Student Activities and the School Business Administrator.

School-connected organizations shall be coordinated with the Principal or his/her designee. School-connected organizations shall not approach coaches, advisors, teachers, or administrators to discuss personnel decisions or to redesign any program. Organizations shall not use the district's name in their titles without the Board's express consent. Such permission to use the district's name does not constitute permission to act as the district's representative. Any activity involving pupils shall require Board of Education approval. All fundraising activities and requests to use the school's name or logo on equipment, clothing, or other objects must have prior approval by the Principal or his/her designee. Contributions of funds or equipment must be approved and accepted by the Board of Education.

All funds and property raised on behalf of the district or a particular district program that are submitted to the district account are held in trust for the participating pupils of the district. These funds are no longer the property of the fund-raising organization. Any equipment/uniforms/awards or other approved items must be provided equally to all team, club, or group members. Team, club, or group members may not be discriminated against for their inability to pay or for any reason.

The Lakeland Regional High School District Board of Education encourages such organizations to inform parent(s) or legal guardian(s), school staff, and friends of the school of regularly scheduled meetings and of any special meetings to the extent possible. However, the Lakeland Regional High School District Board of Education shall make it a practice not to interfere in the internal workings of such groups.

School-connected organizations shall be noncommercial, nonsectarian, and nonpartisan. Membership shall be made available to any individual citizen, parent(s) or legal guardian(s), or employee of the district without regard to race, color, creed, or national origin. The groups and/or any of its membership shall not be used in any connection with a commercial concern or with any partisan interest or for any purpose not appropriately related to promotion of the guidelines of the group.

School-connected organizations shall not, directly or indirectly, participate or intervene in any way, including the publishing or distributing of statements in any political campaign on behalf of, or in opposition to, any candidate for public office or devote more than an insubstantial part of its activities in attempting to influence legislation by propaganda or otherwise.

A professional staff member may serve as an advisor to the school-connected organizations. All members of the professional staff shall be encouraged to support the school-connected organizations and to participate in their activities. The Lakeland Regional High School District Board of Education welcomes officers from all school-connected organizations at its Board meetings.

9230 PARENTAL RESPONSIBILITIES

The Board of Education believes that children benefit when parent(s) or legal guardian(s) recognize and discharge a responsibility to encourage and support the learning process.

Parent(s) or legal guardian(s) can help children learn by:

1. Requiring that children obey all school rules and by accepting responsibility for a child's improper conduct;
2. Requiring their child or children to attend school and all their classes every school day that the child is physically able to attend school and provide written documentation whenever the child is absent.
3. Work with your child to establish academic expectations that: set high standards for success; are realistic for the abilities of the child; have appropriate consequences when not achieved.
4. Sending children to school with proper attention to health, personal cleanliness, and dress;
5. Maintaining an active interest in each child's daily work and making it possible for the child to complete assigned homework by providing a quiet place and suitable conditions for study;
6. Reading communications from the school and signing and returning them promptly when so requested;
7. Attending conferences arranged for the exchange of information on the child's progress in school; and
8. Scheduling family matters to minimize interference with school time.

Adopted: 19 May 2009

9240 RIGHTS OF PARENTS

The Board of Education recognizes that the parent(s) or legal guardian(s) of each child are ultimately responsible for the care and custody of that child, and that both parent(s) or legal guardian(s) share that responsibility equally. The Board recognizes as well that, where only one parent has legal custody of a child, the rights and responsibilities of the other parent may be limited. The Board believes that the interests of the child are best served by the continuing involvement of both parents in the child's life and well-being.

The Board will presume that each natural or adoptive parent(s) or legal guardian(s) of a pupil enrolled in this district possesses full parental rights of access to the pupil and to information about the pupil, notwithstanding any separation of the parent(s) or legal guardian(s) or dissolution of their marriage. Accordingly, and in the absence of notice to the contrary, the Board directs that school administrators accommodate the needs of both parent(s) or legal guardian(s) for access to their child, to their child's teachers, and to information about their child.

Every parent, except as prohibited by federal and state law, shall have access to records and information pertaining to his/her unemancipated child, including, but not limited to, medical, dental, insurance, child care and educational records, whether or not the child resides with the parent, unless that access is found by the court to be not in the best interest of the child or the access is found by the court to be sought for the purpose of causing detriment to the other parent.

The place of residence of either parent shall not appear on any records or information released pursuant to the provisions of this section.

A child's parent(s), guardian(s) or legal custodian(s) may petition the court to have a parent's access to the records limited. If the court, after a hearing, finds that the parent's access to the record is not in the best interest of the child or that the access sought is for the purpose of causing detriment to the other parent, the court may order that access to the records be limited. Proper notice of court action consists of the custodial parent's sworn affidavit or certification supported by a copy of the pertinent portion of a legal agreement or court order that awards custody and establishes the rights and limitation of the noncustodial parent or terminates the parental rights of the noncustodial parent.

Nothing in this policy shall be construed as limiting in any way the rights of the noncustodial parent whose parental rights have not been terminated to full access to his/her child's records.

9242 USE OF ELECTRONIC SIGNATURES

The New Jersey Uniform Electronic Transactions Act (UETA) authorizes a Board of Education to use electronic forms, filings, and signatures to conduct official business with the public. The use of electronic forms, filings, and signatures may save school district resources and will provide a convenient and cost-efficient option for parents to receive, review, and acknowledge receipt of information from the school district. Therefore, the Board of Education authorizes the use of electronic forms, filings, and signatures in communications between the school district and parents pursuant to the UETA.

For the purposes of this Policy, “electronic” means relating to technology having electrical, digital, magnetic, wireless, optical, electromagnetic, or similar capabilities.

For the purposes of this Policy, “electronic record” means a record created, generated, sent, communicated, received, or stored by electronic means.

For the purposes of this Policy, “electronic signature” means an electronic sound, symbol, or process attached to or logically associated with a record and executed or adopted by a person with the intent to sign the record.

For the purposes of this Policy, “information processing system” means an electronic system for creating, generating, sending, receiving, storing, displaying, or processing information.

The school district may electronically send documents to parents of students enrolled in the school district. These documents may include, but are not limited to: informational notices; school or school related events or activities; periodic updates on a student’s progress; school district forms; requests for information; and any other communications between the school district and home. Some documents electronically sent to parents may require the parent to: acknowledge receipt of a document; provide parental consent for such matters as student compliance with the district’s acceptable use of school district computers and administration of surveys; and/or acknowledge receipt and acceptance of terms of a Board of Education policy, regulation, or practice. Any document sent to parents of students enrolled in the school district must be capable of retention by the recipient. To be capable of retention, the recipient at the time of receipt, must be able to retain and accurately reproduce the document for later reference by all persons who are entitled to retain the record. A record is not capable of retention by the recipient if the sender of its information processing system inhibits the ability of the recipient to print or store the electronic record.

USE OF ELECTRONIC SIGNATURES

The Board of Education authorizes documents may be electronically sent to parents of students enrolled in the school district only with the approval of the Superintendent of Schools. The Superintendent shall establish an information processing system to include a process for parents to electronically send, sign, and return documents to the school district. The school district shall make accommodations for a parent who is unable or unwilling to conduct business electronically. In addition, a parent may refuse to conduct business electronically for any reason and at any time. In this event, the school district shall make available a hard copy of the document(s) to the parent to review, maintain, and any document(s) requiring signatures to be returned to the district. The Superintendent will only implement an information processing system in accordance with the provisions of the UETA.

Documents that are electronically signed and returned to the school district may be maintained by the school district in electronic or non-electronic form. Documents returned to the district that are not electronically signed shall be maintained by the district in non-electronic form. However, nothing shall prevent the school district from converting a non-electronic document to an electronic document and for such document to be stored in electronic form. All electronic or non-electronic documents returned to the school district shall be maintained by the school district in accordance with the New Jersey Department of the Treasury - Records Management Services - Records Retention Schedules and in accordance with N.J.S.A. 12A:12-12.

9260 PARENTAL LIABILITY FOR VANDALISM

The school property held in trust by this Board of Education represents a substantial investment of the taxpayers of the school district; liability for the willful and malicious destruction of that property should be borne by those directly and indirectly responsible.

The Board further believes that parent(s) or legal guardian(s) are ultimately responsible for the supervision and discipline of pupils and that the knowledge that they are vicariously liable for the acts of their children and wards will encourage parent(s) or legal guardian(s) to exercise that responsibility more vigorously.

Where any property, real or personal, owned by this Board has been willfully and maliciously damaged by any minor, whether or not the person is enrolled in this district, the Board shall bring civil action against the parent(s) or legal guardian(s) having legal custody and control of the person at the time the damage was caused, for the full amount of the damage. All legal action available to the Board will be held in abeyance whenever the parent(s) or legal guardian(s) are working in good faith with the administration to resolve the issue.

HOME SCHOOLING AND EQUIVALENT EDUCATION OUTSIDE THE SCHOOLS (M)

9270 HOME SCHOOLING AND EQUIVALENT EDUCATION OUTSIDE THE SCHOOLS (M)

M

The Board of Education encourages the enrollment of all children of school age resident in the district in the public school or in approved private schools so that they may enjoy the benefits of a well-planned educational program and the socialization possible in a group environment.

Every parent, legal guardian or other person having custody and control of a child between the ages of six and sixteen years shall cause such child regularly to attend the public school or a day school in which there is given instruction equivalent to that provided in the public school for children of similar grades and attainments or to receive equivalent instruction elsewhere than at school. The Board recognizes its responsibility for assuring that every child of school age resident in the district is enrolled in a public or private school or is offered an equivalent thorough and efficient education elsewhere than at school. The Board acknowledges that a parents, guardian, or other person having custody and control of a child has a constitutional right to choose the type and character of education they feel is best suited for their children, be it secular or sectarian. Home schooling is an option and when chosen this option will be carried out in the pupil's home rather than the school.

In the event the Superintendent determines there is credible evidence the parent, legal guardian, or other person having custody and control of a school-aged child is not causing the child to receive equivalent instruction elsewhere than at school, the Superintendent may request a letter of intent from the parent, legal guardian, or other person confirming the child is receiving equivalent instruction elsewhere than at school. The Superintendent may report to the appropriate municipal authorities children whom he/she has reason to believe are not receiving an education in accordance with N.J.S.A. 18A:38-25. The New Jersey Department of Education encourages the parent, legal guardian, or other person having custody and control of a school-aged child to notify the Superintendent of the intent to educate the child elsewhere than at school to avoid questions with respect to compliance with the compulsory education laws.

The parent or legal guardian or other person having custody and control of a child between the ages of six and sixteen, who fails to comply with any of the compulsory education provisions of N.J.S.A. 18A:38 et seq. relating to his/her duties, shall be deemed to be a disorderly person and shall be subject to a fine.

HOME SCHOOLING AND EQUIVALENT EDUCATION OUTSIDE THE SCHOOLS (M)

If a child seeks admission to this school district from a program of home schooling, the school district will evaluate the work of the child to determine his/her appropriate grade placement. The Superintendent or designee will objectively evaluate the child's skill and achievement levels, as it would with any transfer pupil, before making a determination as to the acceptability of credits and/or the appropriate grade level placement.

When children are home schooled and are not enrolled in a school, the school district is not required to provide any of the entitlements or privileges of pupils enrolled in the school district unless an entitlement or privilege is specifically provided in Board Policy or by required Federal law, or State statute or administrative code. The school district's curriculum and other public record information will be provided to the parent, legal guardian, or other person having custody and control of a child upon request in accordance with the Open Public Records Act and Policy and Regulation 8310.

A child educated at home shall not receive a state endorsed high school diploma from the Board of Education.

9280 PARENT CONFERENCES

The Board of Education endorses the parent-teacher conference as an effective means of permitting parent(s) or legal guardian(s) and teachers to share information about pupils and the educational program in a constructive setting.

The Superintendent is directed to schedule parent-teacher conferences at such times as will permit the maximum attendance of parent(s) or legal guardian(s), including working parent(s) or legal guardian(s); to encourage the participation of parent(s) or legal guardian(s); and to provide instruction to teachers to assist them in making most effective use of the conference.

The Board believes that the information exchanged in parent-teacher conferences can be of great importance to the pupil's ability to profit educationally; such conferences are, therefore, an essential part of the instructional program and an integral part of a teacher's professional responsibility. Accordingly, all teachers are required to attend the parent conferences scheduled for the children assigned to them. A teacher's failure to observe this policy may be cause for discipline.

The Board regards parent-teacher conferences as non-adversarial meetings in which all persons present are united in a common interest in the educational well-being of the pupil. The parent(s) or legal guardian(s) of the pupil may bring to the conference additional persons who share that interest and wish to aid the parent(s) or legal guardian(s) and the teacher. When a parent(s) or legal guardian(s) desires the representation of legal counsel at the conference, however, the Board may wish to be similarly represented. Accordingly, the parent(s) or legal guardian(s) who plans to bring legal counsel to a parent-teacher conference shall notify the Principal of that intention no later than five working days in advance of the conference in order that the Superintendent may secure such legal representation as he/she may deem advisable.

The purposes of the parent-teacher conference are best served when all persons present share freely and candidly their knowledge of the pupil's educational progress and information relating to that progress. Any person present may make and preserve notes, for his/her benefit, of the information shared and may make a tape recording of the conference as an aid to memory or to share with an absent parent or legal guardian. Because the presence of the tape recorder may act to impede the free exchange necessary to an effective conference, however, either the parent(s) or legal guardian(s) or the teacher may refuse the other's request that a tape recorder be used. When either party records the conference the other party will be given the opportunity to also record the conference or will have the opportunity to receive an unaltered copy of the recording.

9324 SEX OFFENDER REGISTRATION AND NOTIFICATION

The Board of Education and administration will comply with the guidelines developed by the New Jersey Attorney General's Office and will work cooperatively with the County Prosecutor's Office and the Wanaque Police Department regarding the requirements of N.J.S.A. 2C:7-1 et seq. (Megan's Law).

The Megan's Law notification statute applies to all sex offenders who are required to register pursuant to N.J.S.A. 2C:7-1 et seq. The offenses requiring registration by persons convicted, an adjudicated delinquent or a person acquitted by reason of insanity are as indicated in New Jersey Statutes Annotated.

Definitions

- A. Tier One offenders encompass those that are a "low risk of re-offense", thus constituting a low risk of harm to the community. This offender is one who, because of the type of crime, the lack of violence in his/her behavior, the lack of a substantial criminal history and the existence of ties to the community presents no more than a possible risk of re-offense.
- B. Tier Two offenders encompass those who are a "moderate risk of re-offense", thus constituting a moderate risk of harm to the community in that the pertinent documents demonstrate that they are reasonably likely to re-offend, warranting limited notice for the protection of the public.
- C. Tier Three offenders encompass those who are a "high risk of re-offense" in that the available record demonstrates that there is a probable risk of re-offense, warranting notice to the community likely to encounter the offender.

The County Prosecutors Office determines the specific schools, community organizations and residences to receive notification.

The School District is automatically included on the notification list and is not required to register to be notified under Tier Two or Tier Three notifications. Where the risk of re-offense is determined by the County Prosecutor's Office to be moderate or high in accordance with the law, the County Prosecutor's Office and/or the appropriate law enforcement office will notify the Superintendent and the Principal of the targeted school(s). The Superintendent should not notify the target school(s), but may contact the Prosecutor's Office if the Superintendent thinks that a

school in the notification area has been inadvertently omitted. The school district is entitled to receive the offender's name and a recent photograph, along with a physical description, the offense of which he/she was convicted, their address, place of employment and/or schooling, and vehicle license number.

The Board of Education shall take appropriate steps to educate and alert those staff members who are charged with the care and supervision of children, emphasizing that this information is intended to assist such staff members in the protection of their charges, not to provide notification to the community at large. All sex offender notification information to the community must be released by the appropriate law enforcement agency or the County Prosecutor's Office. The school district and/or any school staff member shall keep all sex offender notification information confidential. In the event the school district is notified a pupil is a Tier One or Two sex offender, the school district will cooperate with the local law enforcement and the County Prosecutor's Office on community notification consistent with the law and guidelines of the New Jersey Attorney General's Office.

The County Prosecutor's Office will be asked to provide guidance to the school district staff members. The Board of Education, working in conjunction with the County Prosecutor's Office and/or a local law enforcement office, will hold meetings and other educational programs at a particular school for staff regarding the safeguarding of the school district's children. There will be a strong emphasis on providing pertinent information, constructive knowledge and guidance to the community, as well as advice concerning the consequences of vigilante activity.

The Building Principal notified by the Prosecutor's Office will have the discretion to make the determination as to which employees within the school should be informed of the notification. The Building Principal should share the notice with any person who in the course of the duties of his/her employment or assignment is regularly in a position to observe unauthorized persons in or near the property of the notified school. If any persons to be notified by the Building Principal are employees of private contractors, the Principal or the Superintendent will notify the private vendor who will provide notice to the employees. The Principal shall only notify school appropriate district staff of Tier Two or Tier Three notifications and not to provide notification to the community at large. Guidance to the school district in providing this information to staff members will be obtainable from the County Prosecutor's Office.

9340 COOPERATION WITH PUBLIC LIBRARIES

The public library can and should play an important role in the intellectual and educational development of children attending the school, serving them as a resource that reinforces and augments the school library in many areas and by providing services and materials that may go beyond those that the school library alone can provide.

The Board of Education encourages the effective utilization of the public libraries by communication and cooperation between the school and library staff. School staff members should be kept informed of new materials and services available from the public libraries and library staff members should be kept advised of school projects and programs that call for pupil use of the public libraries.

A staff member who is acting on their own behalf as a private citizen should be cognizant of their obligations to protect the privacy and confidentiality of students and school operations in accordance with Federal and State laws.

The Board of Education reserves its right to regulate the exercise of school district staff members' First Amendment rights of the United States Constitution in such situations to the extent that such exercise may interfere with the safe and orderly operation of the schools and the learning environment.

9500 COOPERATION WITH THE LOCAL SENDING DISTRICTS AND EDUCATIONAL AGENCIES

The Board of Education recognizes the need for communication between this district and other districts and educational institutions that provide programs, training, and services not otherwise available to children residing in this district.

The Board acknowledges the responsibility for the education and conduct of the pupil in the school district in which Lakeland pupils are sent.

The Board will attempt to meet periodically with the governing boards of other educational institutions that receive from this district a significant number of pupils or that send to this district a significant number of pupils.

In order to maintain a cordial and constructive relationship with the Sending and Receiving Districts, the Superintendent shall provide annually a complete description of all programs available to pupils, institute an articulation program to coordinate the program of studies between this district and those districts sending pupils here; provide an orientation program for incoming pupils; assure that unusual traits of individual pupils entering this district have been made known to the staff members that can be of most assistance to such pupils; and inform the sending district of any serious discipline problems encountered with pupils from that district. Special Education programs will be handled through the Tri-District Director of Special Services.

In order to maintain a cordial and constructive relationship with the Wanaque and Ringwood School Districts, the Superintendent shall cooperate with the professional staff in articulation efforts to assure that pupils of the sending districts are properly prepared to enter the high school of the Lakeland district; inform pupils in their final year in the sending districts of program options in the Lakeland district and counsel them regarding their program choices; provide an orientation program to pupils to familiarize them with the facilities, procedures, and rules of the Lakeland district. The Superintendent will keep the Board informed of any problems of an individual or group nature that may be a threat to the educational progress of our pupils.

The Board of Education encourages cooperation with the state colleges and universities in the education of teachers, because the public school offers an experience essential to their training, interaction with pupils and teachers at work in the classroom. Accordingly, the school will accept students from accredited institutions of higher learning as junior or senior student teachers/interns.

The Board retains the right to approve the selection of all student teachers/interns.

Student teachers/interns shall be selected and assigned by the Superintendent. The Superintendent shall assign student teachers/interns throughout the district in a manner that assures that no single group of pupils will be subject to excessive student teacher/intern classroom hours.

Student teachers/intern shall comply with the health examination required by rules of the State Board of Education and that required for teaching staff members by this Board. Student teachers serving in the school shall be responsible to the Principal for their conduct and to the cooperating teacher for their performance. It is required that all student teachers obtain a county substitute certificate prior to taking control of a classroom setting.

The Board of Education will cooperate, whenever appropriate and feasible, with organizations and individuals conducting bona fide educational research involving pupils enrolled in the school.

All educational research by persons other than district employees must be approved in advance by the Board. A written application for approval must state the purpose of the research, the specific ways in which pupils will be involved, the estimated duration of the project, the persons who will conduct the research project and their relevant affiliations, and any possible benefits to pupils or to the school district. Approval will be granted only to those projects that will serve the interests of pupils and the educational program; approval will not be granted to projects that will impede or significantly disrupt the instructional program approved by the Board.

Parent(s) or legal guardian(s) will be informed of any educational research project that involves their children and may request the removal of their children from the project.

The conduct of research activities must rigorously protect pupils' privacy. Approved researchers may be given access to pupil records in accordance with rules of the State Board of Education and Board Policy No. 8330, but shall not abuse this privilege by using information in any way that may embarrass or harm individual pupils or their families.
