

Need To Talk? We Hear You.

The California Youth Crisis Line is a free 24/7 confidential phone, text, and chat counseling service. We're available statewide to youth ages 12-24 and/or adults supporting youth. Calls made to us are safe, secure, and supportive, and our team of volunteer crisis counselors are here to listen and help navigate crises. With a growing resource bank of over 5,000 services, we can connect youth to the resources and services in their immediate area to help. Additionally, we have translation services available for non-english speaking callers. Learn more about the California Youth Crisis Line by visiting www.calyouth.org/cycl.
