

SPECIAL NOTICE

TO: Parents, Guardians and School Employees

FROM: Marcia Dunaway

SUBJECT: Asbestos Management Plan for the Trimble County Public Schools

DATE: 2022-2023 School Year

This notice is being issued to inform concerned individuals. The Trimble County Board of Education meets both Federal and State regulations that relate to asbestos-containing building materials (ACBM).

An inspection for building materials that contain asbestos has been completed for all buildings owned, leased or otherwise occupied by the Trimble County Board of Education. This inspection has been conducted by a certified inspector and the material samples were evaluated by an accredited laboratory. Building materials with as little asbestos as one percent (1%) have been identified and made a part of an Asbestos Management Plan for the school system.

A complete Asbestos Management Plan for the school district is on file at the Trimble County Board of Education Superintendent's Office. Also, a copy of the Asbestos Management Plan for each individual school is on file in each respective School's office.

We will continue to notify the public at least once each year on the status of the Asbestos Management Plan. Should it be necessary, more frequent updates will be issued from additional inspections, normal surveillance practices, response actions or remodeled work that might disturb building materials that contain asbestos. Every precaution will continue to be used to protect the well being of students and employees of the Trimble County Public School System.

Jessica Wilcoxson, LEA Designated Asbestos Coordinator
