

Daily Screening

Each morning students will have their temperature checked by school personnel with a touchless thermometer. If any student has a fever of 100.4 (CDC Guidelines) or above, that student will be sent home, encouraged to see a doctor, and not allowed to return to school until he or she is fever free for 72 hours. Each school should have a designated quarantine room where symptomatic students stay while waiting for parents to pick them up from school. Any student with fever will NOT be allowed to return to the classroom to gather his/her belongings or wait for pick-up. There can be no exceptions to this rule. We ask that parents please keep students at home who show any symptoms, have fever, or have been exposed. Parents should notify the school immediately if their child should at any time test positive for COVID-19.
