# ARTICLE VIII – The Role of Parents in Interscholastic Athletics

Make sure your child knows that win or lose; you appreciate their efforts. Teach them to enjoy the thrill of competition. Teach them the importance of working hard to improve their skills and attitudes. Try your best to be completely honest about your child's athletic ability, competitive attitude, sportsmanship, and actual skill level. Don't compare the skill, courage, or attitude of your child with other members of the team. Don't compete with the coach. A child receiving mixed messages from two different authority figures can place a child in a difficult situation. Always remember that children tend to exaggerate, both when praised and when criticized. Temper your reaction and investigate before overreacting. Be a role model for your child when it comes to sportsmanship, demonstrate the guidelines listed above.

## COMMUNICATING WITH THE COACH

If for any reason the band uniform is soiled, it must be dry cleaned before the next performance. These uniforms are very expensive and the utmost care needs to be taken by all band members in keeping the uniforms in excellent condition.

Official band shoes are to be worn at all uniform performances. If the student does not have the correct socks (black) and the correct shoes (completely black), that student will not be allowed to perform with the band in that activity.

Uniforms are to be turned in at the end of the school year with receipt showing that the uniform has been cleaned after the last band performance. If the student does not have time to get his/her uniform cleaned, a seven (\$7) dollar dry cleaning fee will be charged to that student.

Instrumental supplies are available from the band director, and students are asked to pick up these supplies before or after rehearsal. All bills must be paid before the end of each nine week grading period as to restock depleted items.

A limited number of school instruments are available for students to use without any cost. Instrument check out is coordinated by the band director. Repairs on school owned instruments are the responsibility of the student to which the instrument is assigned.

The Drum Major and the Assistant Drum Major are selected by tryouts. If there is a competition for either of these positions, a band director from another school district will be invited to do the judging and his/her decision will be final.

3. Players are expected to conduct themselves in a healthy way at all times. Smoking, vaping, alcohol, and drugs will be dealt with in a severe manner, up to dismissal from the team.
4. Satisfactory grades are required at all times. When in the classroom players should show respect to teachers and staff at all times.

5. Players are required to be at every practice. Every effort should be made to schedule around practice schedules. The Coach should be notified as soon as possible before practice if a player is going to miss. Failure to notify the Coach will result in additional make up work.
6. Players missing a practice after the season begins will have make up work to finish after the next practice and if a starting player, will not be allowed to start the next game.
7. Players are expected to be accountable for themselves and should be the person contacting the Coach.
8. Any infractions of team guidelines will be dealt with at the discretion of the coaching staff and school administrators.

## **ARTICLE XXVIII – TRACK AND FIELD**

1. **Academics** - Students are required to meet the Pond Creek-Hunter School District policy regarding grades and participation in extracurricular activities. If a student is not eligible in **any** of his/her classes, he or she cannot participate or attend with the team any track meets. If a student is constantly on the ineligibility list, he/or she can be terminated from the team. This decision will ultimately be left up to the coach's discretion.
2. **Rules and Regulations** - Absolutely no disrespect will be tolerated towards a coach, sports official, teammates, or opposing athletes. You are expected to be at practice as scheduled. If you are going to miss practice, the coach needs to be notified prior to the absence (if possible). Being at school all day and checking out at 2:35pm when athletics starts without given notice to the coach is not acceptable. There obviously are certain exceptions; such as family emergencies. If you are not able to attend a track meet, prior notice needs to be given to the coach and a reasonable excuse as well. We do not attend very many track meets throughout the year (6 or 7 at most); so participation in those meets is very important. If you miss a Saturday track meet and do not have an adequate excuse, you are not allowed to attend the next meet that occurs during the school day. Once again acceptable excuses or reasons for missing will be determined by the coach's discretion and punishment for missing as well.
3. **Lettering Policy** - Because of Softball and Baseball being at the same time, participation in all of the track meets for those athletes is very

difficult. However, to receive a letter in track, athletes **must** attend the Regional track meet.

4. **Concerns** - I have an open door policy. If a student athlete or parent has any concerns, questions, or issues with something or someone, he/she is encouraged to come talk to me and we will address those concerns together.

## **ARTICLE XXIX – GOLF RULES**

The intent of the PC-H Golf program is to build the student athletes performance level, character and level of responsibility. All disciplinary issues will be dealt with on a case by case basis relying on the Extra Curricular and Student Handbooks.

Students will be responsible for proper care of all school equipment and uniforms used by them during the season.

## **ARTICLE XXX – SCHOLASTIC SHOOTING SPORTS**

The Oklahoma Department of Wildlife Conservation recognizes that today's youth will be tomorrow's sportsmen. Shooting sports, like many outdoor activities are great sources of fun relaxation when practiced safely and responsibly. The Oklahoma Scholastic Shooting Sports Program is focused on providing a safe environment for participating in shooting sports and reconnecting kids with the joy of being outdoors. The OKSSSP will raise awareness of conservation related sports, promotes safety and responsibility and raise self-esteem.

Parents need to be aware that there are risks involved with shooting sports before letting their kids participate. Accidents can happen, although the instructors/sponsor will do everything in their power to keep them safe from happening. The landowner, school, and instructors/sponsor will not be held liable for accidents.

Parents are encouraged to help reinforce the safety rules. Basic rules of firearm safety for the hunter education manual and the OKSSSP Handbook. Parents are expected to read over this material with your kids before letting

them participate. The instructors will constantly train students on firearm safety.

If any instructors believe anyone is acting in an unsafe manner, the instructors, have the right to remove that individual from practice, and they will not be allowed on the team.

# Activity Student Drug Testing Policy

The Pond Creek-Hunter Board of Education in an effort to protect the health and safety of its extra-curricular activities students from illegal and/or performance-enhancing drug use and abuse, thereby setting an example for all other students of the Pond Creek-Hunter Public School District, propose to adopt the following policy for drug testing of activity students.

## STATEMENT OF PURPOSE AND INTENT

Although the Board of Education, administration, and staff desire that every student in the Pond Creek-Hunter Public School district refrain from using or possessing illegal drugs, district officials realize that their power to restrict the possession or use of illegal and performance-enhancing drugs is limited. Therefore, this policy governs only performance-enhancing and illegal drugs use by students participating in certain extra-curricular activities. The sanctions imposed for violations of this policy will be limitations solely upon limiting the opportunity of any student determined to be in violation of this policy to a student's privilege to participate in extra-curricular activities. No suspensions from school or academic sanctions will be imposed for violations of this policy. This policy supplements and complements all other policies, rules, and regulations of the Pond Creek-Hunter Public School District regarding possession or use of illegal drugs.

Participation in school-sponsored interscholastic extra-curricular activities at the Pond Creek-Hunter Public School District is a privilege. Students who participate in these activities are respected by the student body and are representing the school district and the community. Accordingly, students in extra-curricular activities carry a responsibility to themselves, their fellow students, their parents, and their school to set highest possible examples of conduct, sportsmanship, and training, which includes avoiding the use or possession of illegal drugs.

The purposes of this policy are five-fold:

1. To educate students of the serious physical, mental, and emotional harm caused by illegal drug use.
2. To alert students with possible substance abuse problems to the potential harms that drug use poses for their physical, mental, and emotional well-being and offer them the privilege of competition as

an incentive to stop using such substances.

3. Ensure that students adhere to a training program that bars the intake of illegal and performance-enhancing drugs.
4. To prevent injury, illness, and harm for students that may arise from illegal and performance-enhancing drug use.
5. To offer students practices, competition, and school activities free of the effects of illegal and performance-enhancing drug use.

Illegal and performance-enhancing drug use of any kind is incompatible with the physical, mental, and emotional demands placed upon the participants in extra-curricular activities and upon the positive image these students project to other students and the community on behalf of the Pond Creek-Hunter Public School District. For the safety, health, and well-being of students in extra-curricular activities the Pond Creek-Hunter Public School District has adopted this policy for use by all participants in interscholastic extra-curricular activities in grades 7-12.

The administration may adopt regulations to implement this policy.

#### I. Definitions

“Activity Student” means a member of any middle school or high school Pond Creek-Hunter School District sponsored extra-curricular organization which participates in interscholastic competition. This includes any student that represents Pond Creek-Hunter Schools in any extra-curricular activity in interscholastic competition such as FFA, FHA, Academic Team, Band, Vocal, Pom Pon, Cheerleader, and Athletics.

“Drug use test” means a scientifically substantiated method to test for the presence of illegal or performance-enhancing drugs or the metabolites thereof in a person’s urine.

“Random Selection Basis” means a mechanism for selecting activity students for drug testing that:

- A. results in an equal probability that any student from a group of activity students subject to the selection mechanism will be selected, and
- B. does not give the School District discretion to waive the selection of any activity student selected under the mechanism.

“Illegal drugs” means any substance which an individual may not sell, possess, use, distribute, or purchase under either Federal or

Oklahoma law. “Illegal drugs” includes, but is not limited to, all scheduled drugs as defined by the Oklahoma Uniform Controlled Dangerous Substance Act, all prescription drugs obtained without authorization, and all prescribed and over-the-counter drugs being used for an abusive purpose. “Illegal drugs” shall also include alcohol.

“Performance-enhancing drugs” include the anabolic steroids and any other natural or synthetic substance used to increase muscle mass, strength, endurance, speed, or other athletic ability. The term “performance-enhancing drugs” does not include the dietary or nutritional supplements such as vitamins, minerals, and proteins which can be lawfully purchase in over-the-counter transactions.

“Positive” when referring to a drug use test administered under this policy means a toxicological test result which is considered to demonstrate the presence of an illegal or a performance-enhancing drug or the metabolites thereof using the standards customarily established by the testing laboratory administering the drug use test.

“Reasonable suspicion” means a suspicion of illegal or performance-enhancing drug use based on specific observations made by coaches/administrators/sponsors of the appearance, speech, or behavior of an activity student; the reasonable inferences that are drawn from those observations; and/or information of illegal or performance-enhancing drug use by an activity student when supplied to school officials by other students, staff members, or patrons.

## II. Procedures

Each activity student shall be provided with a copy of the “Student Drug Testing Consent Form” which shall be read, signed, and dated by the student, parent or custodial guardian, and coach/sponsor before such student shall be eligible to practice or participate in any extra-curricular activities. The consent requires the activity student to provide a urine sample: (a) as part of the student’s annual physical or for eligibility for participation; (b) when the activity student is selected by the random selection basis to provide a urine sample; and (c) at any time when there is a reasonable suspicion to test for illegal or performance-enhancing drugs. No student shall be allowed to practice or participate in any extra-curricular activities involving interscholastic competition unless the student has returned the properly signed “Student Drug Testing Consent Form”

Prior to the commencement of drug testing each year an orientation session

will be held with each Activity Student to educate them of the sample collection process, privacy arrangements, drug testing procedures, and other areas which may help to reassure the activity student and help avoid embarrassment or uncomfortable feelings about the drug testing process.

Each Activity Student shall receive a copy of the Activity Student Drug Testing Policy. The head coach or sponsor shall be responsible for explaining the Policy to all prospective students, and for preparing an educational presentation to acquaint the student with the harmful consequences of drug and alcohol use and abuse.

All Activity Students will be required to provide a urine sample before the student may participate in an extra-curricular activity covered under this policy. A student who moves into the district after the school year begins will have to undergo a drug test before they will be eligible for participation.

Drug use testing for Activity Students will also be chosen on a random selection basis monthly from a list of all Activity Students who are involved in off-season or in-season activities. The Pond Creek-Hunter Public School District will determine a monthly number of student names to be drawn at random to provide a urine sample for drug use testing for illegal drugs or performance-enhancing drugs.

In addition to drug tests required above, any Activity Student may be required at any time to submit to a test for illegal or performance-enhancing drugs, or the metabolites thereof when an administrator, coach or sponsor has reasonable suspicion of illegal or performance-enhancing drug use by that particular student.

Any drug use test will be administered by or at the direction of a professional laboratory chosen by the Pond Creek-Hunter School District. The professional laboratory shall be required to use scientifically validated toxicological testing methods, have detailed written specification to assure chain of custody of the specimens, and proper laboratory control and scientific testing.

All aspects of the drug use testing program, including the taking of specimens, will be conducted so as to safeguard the personal and privacy rights of the student to the maximum degree possible. The test specimen shall be obtained in a manner designed to minimize intrusiveness of the procedure. In particular, the specimen must be collected in a restroom or other private facility behind a closed stall. The principal/athletic director

shall designate a coach, sponsor, or school employee of the same sex as the student to accompany the student to a restroom or other private facility behind a closed stall. The monitor shall not observe the student while the specimen is being produced, but the monitor shall be present outside the stall to listen for the normal sounds of urination in order to guard against tampered specimens and to insure an accurate chain of custody. The monitor shall verify the normal warmth and appearance of the specimen. If at any time during the testing procedure the monitor has reason to believe or suspect that a student is tampering with the specimen, the monitor may stop the procedure and inform the principal/athletic director who will then determine if a new sample should be obtained. The monitor shall give each student a form on which the student may list any medications legally prescribed for the student he or she has taken in the preceding thirty (30) days. The parent or legal guardian shall be able to confirm the medication list submitted by their child during the twenty-four (24) hours following a drug test. The medication list shall be submitted to the lab in a sealed and confidential envelope and shall not be viewed by district employees.

An initial positive test result will be subject to confirmation by a second and different test of the same specimen. The second test will use the gas chromatography/mass spectrometry technique. A specimen shall not be reported positive unless the second test utilizing the gas chromatography/mass spectrometry procedure is positive for the presence of an illegal drug or the metabolites thereof. The unused portion of a specimen that tested positive shall be preserved by the laboratory for a period of six (6) months or the end of the school year, whichever is shorter. Student records will be retained until the end of the school year.

### III. Confidentiality

The laboratory will notify the principal/athletic director or designee of any positive test. To keep the positive test results confidential, the principal/athletic director or designee will only notify the student, head coach/sponsor, and the parent or custodial guardian of the student of the results. The principal/athletic director or designee will schedule a conference with the student and parent or guardian and explain the student's opportunity to submit additional information to the principal/athletic director or to the lab. The Pond Creek-Hunter Public School District will rely on the opinion of the laboratory which performed the test in determining whether the positive test result was produced by something other than consumption of an illegal or performance-enhancing drug.

Test Results will be kept in files separate from the student's other educational records, shall be disclosed only to those school personnel who have a need to know, and will not be turned over to any law enforcement authorities.

#### IV. Appeal

An Activity Student who has been determined by the principal/athletic director to be in violation of this policy shall have the right to appeal the decision to the Superintendent or his/her designee(s). Such request for a review must be submitted to the Superintendent in writing within five (5) calendar days of notice of the positive test. A student requesting a review will remain eligible to participate in any extra-curricular activities until the review is completed. The Superintendent or his/her designee(s) shall then determine whether the original finding was justified. No further review of the Superintendent's decision will be provided and his/her decision shall be conclusive in all respects. Any necessary interpretation or application of this policy shall be in the sole and exclusive judgment and discretion of the Superintendent which shall be final and non-appealable.

#### V. Consequences

Any activity student who tests positive in a drug test under this policy shall be subject to the following restrictions:

##### A. For the First Offense:

The parent/guardian will be contacted immediately and a private conference will be scheduled to present the test results to the parent/guardian. A meeting will then be set up with the student, parent/guardian, athletic director, and principal concerning the positive drug test. In order to continue participation in the activity the student and parent/guardian must, within five (5) days of the joint meeting show proof that the student has received drug counseling from a qualified drug treatment program or counseling entity. Additionally, the student must voluntarily submit to a second drug test to be administered within two (2) weeks in accordance with the testing provisions of this policy.

If parent/guardian and student agree to these provisions, the student will continue to participate in the activity. Should the parent/student not agree to these provisions the consequences listed in this policy for the second offense will be imposed.

## B. For the Second Offense:

Suspension from participation in all activities covered under this policy for fourteen (14) calendar days, and successful completion of four (4) hours of substance abuse education/counseling provided by the school. The student may not participate in any meetings, practices, scrimmages, or competitions during this period. The student will be randomly tested monthly for the remainder of the school year. The time and date will be unknown to the student and determined by the principal/athletic director or designee.

These restrictions and requirements shall begin immediately, consecutive in nature, unless a review appeal is filed following receipt of a positive test. Provided, however, a student who on his or her own volition informs (self-refers) the athletic director, principal, or coach/sponsor of usage before being notified to submit to a drug use test will be allowed to remain active in all activities covered under this policy. Such student will be allowed to remain active in all activities covered under this policy. Such student will however, be considered to have committed his/her first offense under the policy, and will be required to retest as would a student who has tested positive.

## C. For the Third Offense (in the same school year)

Complete suspension from participation in all extra-curricular activities including all meetings, practices, performances, and competition for the remainder of the school year. Or eighty-eight school days (1 Semester) whichever is longer.

## VI. Refusal to Submit to Drug Use Test

A participating student who refuses to submit to a drug test authorized under this policy, shall not be eligible to participate in any activities covered under this policy including all meetings, practices, performance, and competitions for the remainder of the school year. Additionally, such student shall not be considered for any interscholastic activity honors or awards given by the school.

Pond Creek-Hunter Public Schools is committed to cooperating with parents/guardians in an effort to help students avoid illegal drug use. The Pond Creek-Hunter Public School District believes accountability is a powerful tool to help some students avoid using drugs and that early detection and intervention can save lives.
