## New Jersey Assessment(s) Refusal Form

TO: School Principal

By completing this form and signing below, I am advising you of my wishes to have my child refuse any and all New Jersey Student Learning Assessments (NJSLA) scheduled during the 2019-2020 school year as designated below.

I acknowledge that I understand the school plans to use the results to support my child's academic progress and that the results obtained by high school students can be used as one of several options to satisfy the high school graduation testing requirement.

For parents of students taking high school courses: NJSLA refusal results in limiting the number of options a high school student may use to satisfy his or her graduation-testing requirement. Under current regulations, members of the Class of 2020 (12<sup>th</sup> grade) through 2022 can demonstrate graduation assessment proficiency as outlined by the document found here:

<https://www.state.nj.us/education/assessment/parents/GradReq.pdf>. Currently, graduation requirements for students in the Class of 2023 and beyond are under discussion by the New Jersey department of education.
