683-2361 ext. 135

Greetings, I am Mr. Carver and have been teaching at BCHS for 30 years. I have double majored in both Mathematics and English with credits from almost every college and University in the state of Montana. I also achieved a Master's in Education Technology and Computers from Boise State. Having a double major I have taught Pre-Algebra through Algebra II, and English I through English IV. I coached wrestling for fifteen years and football for thirty. I am proud of our school and all three of my children graduated from BCHS and each have graduated from college and are employed. I attribute much of that due to our staff and administration.
