

PLACERVILLE UNION SCHOOL DISTRICT
20__ - 20__ Directory Information Authorization Denial Form

We are pleased to offer students of the Placerville Union School District access to a variety of educational online applications. For example; AR or Reflex Math. This means we will share their name only with the third party vendor, for account purposes only, this is called, Directory Information.

Our teachers integrate these applications within their curriculum. Students use the applications for educational purposes only.

If you choose **not** to give your permission, you will need to print this form and turn it into your students' school office to have it take effect. **Please know** that if this form is not turned into the school office your students name will be shared with the third party educational vendors that are being used within your child's classes and your child will have an account created.

If you deny access, your child will not have any accounts created for them and will not be able to participate with this part of the curriculum.

No, as the parent or legal guardian of the student signing below, I do not want my son or daughter's name shared with a third party vendor, which will block access to all of the educational sites. I have explained this to my child.

Student Name – Last	First	Middle
Gender (circle one) M F	Date of Birth:	Grade:
School	Teacher	

PARENT SIGNATURE _____ DATE _____
