

# PREPARE TO TAKE YOUR CLASSROOM ONLINE

## Earn a Certificate in Online Teaching (COT)

Aeriel C., Class of 2018

In today's uncertain climate, it's more important than ever to expand your skillset to effectively teach – whether you're in class, online, or using a blended model. In this program, you'll learn how to transition your traditional classroom strategies to the online environment, building your multi-modal teaching portfolio.

This ten-module online certificate is designed to provide you with practical skills to create engaging online courses. You'll build your skills in multi-modal teaching to enhance the classroom experience with multimedia, videos, and asynchronous assessment. Upon completion, you'll have a deep understanding of the online learner's perspective and therefore be capable of building a strong online classroom.

### Program Learning Outcomes

- Apply internet search skills to find answers to technical questions
- Use the basic terminology of online learning
- Use traditional online communication and tools effectively
- Demonstrate sound and image manipulation for the purpose of crafting learning objects
- Implement targeted online assessments, engaging discussions, and relevant assignments
- Analyze traditional practices for adaptation into multi-modal learning spaces
- Evaluate affordances and constraints of new educational technology for best fit
- Create a website or course using a template to showcase synthesis of certificate concepts
