Dear Students, Parents, and Families

What a difference a year makes! The 2019-20 school year ended as a historical moment. We quickly began our review for the 2020-21 school year before the end of 2019-20. We thank those parents, teachers, classified staff, administrators, managers, and childcare providers who participated in our Reopening Committee in June. Surveys were distributed over the Summer to staff and parents in June and July regarding distance learning and preferences for the start of the school year. We appreciate everyone who participated. At the July 18th and 22nd Board meetings, staff presented information related to the surveys and the recommendation from staff to begin the school year in a distance learning format. On July 17th, Governor Newsom announced counties on the monitoring/watch list are required to open in a distance learning format, for as long as the county is on the monitor/watch list. San Benito County is on the list. We have established specific timeframes to assess the current model and if there is an opportunity to begin phasing into an in-person educational model.

The District has prepared a handbook that will provide the protocols and plans for three educational models (i.e., 100% in person, Hybrid, and Distance Learning). Although we are required to open in a distance learning model, we will be assessing the ability for us to move to a hybrid model as soon as conditions allow. Please take a moment to review the handbook and become familiar with our protocols and the school schedules. The guide does provide several resources for our parents to access as educational supplementals to support students at home.

Each of our school sites has prepared written communications with protocols and information for your respective site attached for your convenience. Please contact your school site with additional questions. They can be reached at:
