ASBESTOS MANAGEMENT PLAN INFORMATION

Annual Asbestos Notification:

In accordance with the federal Asbestos Hazard Emergency Response Act (AHERA) 40 CFR 763..84.c and in compliance with the EPA standards, Hamilton Community Schools is required to notify parents, teachers, vendors, contractors, staff, and other employees each year of the availability of Asbestos Management Plans which document all performed or planned asbestos related inspections, response actions, and post-response action activities, including periodic re-inspection and surveillance activities within the school district. A copy of this Asbestos Management Plan is available for your review at the 7-12 office. Users of the District's buildings, both children and adults, have not and will not be exposed to any level of free and harmful asbestos. Covering, enclosing and/or encapsulation have provided the necessary protection from any possible hazards. A periodic surveillance of all building occurs every six months and a completed re-inspection of each building is completed every three years. The Asbestos Management Plan includes the results of each periodic surveillance and the most recent re-inspection as well as documentation of asbestos related activities. HARASSMENT

It is the policy of the School Board to maintain an education and work environment which is free from all forms of unlawful harassment, including sexual harassment. This commitment applies to all School Corporation operations, programs, and activities. All students, administrators, teachers, staff, and all other school personnel share responsibility for avoiding, discouraging, and reporting any form of unlawful harassment. This policy applies to unlawful conduct occurring on school property, or at another location if such conduct occurs during an activity sponsored by the Board.

The Board will vigorously enforce its prohibition against harassment based on sex, race, color, national origin, religion, disability, or any other unlawful basis, and encourages those within the School Corporation community as well as third parties who feel aggrieved to seek assistance to rectify the

problems. The Board will investigate all allegations of harassment and in those cases where unlawful harassment is substantiated, the Board will take immediate steps to end the harassment. Individuals who are found to have engaged in unlawful harassment will be subject to appropriate disciplinary action.

For purposes of this policy, "School Corporation community" means students, administrators, teachers, staff, and all other school personnel, including Board members, agents, volunteers, contractors, or other person subject to the control and supervision of the Board.

For purposes of this policy, "third parties" include, but are not limited to, guests and/or visitors on School Corporation property (e.g., visiting speakers, participants on opposing athletic teams, parents), vendors doing business with, or seeking to do business with, the Board, and other individuals who come in contact with members of the School Corporation community at school-related events/activities (whether on or off School Corporation property).

Other Violations of the Anti-Harassment Policy

The Board will also take immediate steps to impose disciplinary action on individuals engaging in any of the following prohibited acts:

- A. Retaliating against a person who has made a report or filed a complaint alleging harassment, or who has participated as a witness in a harassment investigation.
- B. Filing a malicious or knowingly false report or complaint of harassment.
- C. Disregarding, failing to investigate adequately, or delaying investigation of allegations of harassment, when responsibility for reporting and/or investigating harassment charges comprises part of one's supervisory duties.

Definitions

Sexual Harassment

The School Board recognizes that students and staff members have the right to work in an environment untainted by sexual or other forms of harassment or discrimination. Offensive conduct which has the purpose or effect of unreasonably interfering with any staff member's work performance or creating an intimidating, hostile, discriminatory, or offensive educational environment disrupts the educational process and impedes the legitimate pedagogical concerns of the Corporation and will not be tolerated.

Sexual harassment includes all unwelcome sexual advances, requests for sexual favors, and verbal or physical contacts of a sexual nature whenever submission to such conduct is made a condition of employment or a basis for an employment decision. Sexual harassment includes, but is not limited to, verbal teasing or abuse, repeated remarks to another of a sexual nature, unwelcome touching, and pressure for sexual activity. Other prohibited conduct includes that which has the purpose or effect of creating an intimidating, hostile, discriminatory, or offensive educational environment on the basis of gender, religion, race, color, ethnicity, age, and/or disability.

The harassment of any staff member or student of this Corporation is strictly forbidden. Any staff member or agent of this Board who is found to have harassed another staff member, student or other employee of this Corporation will be subject to disciplinary action in accordance with law, applicable policies of the Board and/or terms of any applicable collective bargaining agreement.

Pursuant to Title VII of the Civil Rights Act of 1964 and Title IX of the Educational Amendments of 1972, "sexual harassment" is defined as:

Unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature, when:

- A. Submission to such conduct is made either implicitly or explicitly a term or condition of an individual's status in a class, educational program, or activity;
- B. Submission or rejection of such conduct by an individual is used as the basis for educational decisions affecting such individual;
- C. Such conduct has the purpose or effect of interfering with the individual's educational performance; of creating an intimidating, hostile, or offensive learning environment; or of interfering with one's ability to participate in or benefit from a class or an educational program or activity.

Sexual harassment may involve the behavior of a person of either gender against a person of the same or opposite gender.

Prohibited acts that constitute sexual harassment may take a variety of forms. Examples of the kinds of conduct that may constitute sexual harassment include, but are not limited to:

- A. Unwelcome sexual propositions, invitations, solicitations, and flirtations.
- B. Physical assault.
- C. Threats or insinuations that a person's academic grade, promotion, classroom work or assignments, academic status, participation in athletics or extra-curricular programs or events, or other conditions of education may be adversely affected by not submitting to sexual advances.
- D. Unwelcome verbal expressions of a sexual nature, including graphic sexual commentaries about a person's body, dress, appearance, or sexual activities; the unwelcome use of sexually degrading language, jokes or innuendoes; unwelcome suggestive or insulting sounds or whistles; obscene telephone calls.
- E. Sexually suggestive objects, pictures, videotapes, audio recordings or literature, placed in the educational environment, which may embarrass or offend individuals.
- F. Unwelcome and inappropriate touching, patting, or pinching; obscene gestures.
- G. A pattern of conduct, which can be subtle in nature, that has sexual overtones and is intended to create or has the effect of creating discomfort and/or humiliation to another.
- H. Remarks speculating about a person's sexual activities or sexual history, or remarks about one's own sexual activities or sexual history.
- I. Inappropriate boundary invasions by a Corporation employee or other adult member of the School Corporation community into a student's personal space and personal life.

Not all behavior with sexual connotations constitutes unlawful sexual harassment. Conduct must be sufficiently severe, pervasive, and persistent such that it adversely affects an individual's education, or such that it creates a hostile or abusive educational environment.

NOTE: Sexual conduct/relationships with students by Corporation employee or any other adult member of the School Corporation community is prohibited, and any teacher, administrator, coach or other school authority, or staff member who engages in certain sexual conduct with a student may be disciplined up to and including termination and may also be guilty of the criminal charge of "sexual

battery" as set forth in Indiana Code 35-42-4-8. In the case of a child under fourteen (14) years of age, the person may also be guilty of "child molesting" under Indiana Code 35-42-4-3. In the case of a child between the ages of fourteen (14) and sixteen (16), the person may also be guilty of "sexual misconduct with a minor" under Indiana Code 35-42-4-9. The issue of consent is irrelevant in regard to the latter two (2) criminal charges. Any employee accused of sexual relations with a student may be placed on leave with pay until school administrative proceedings are completed. Proven sexual relationships with a student regardless of the age of the student will initiate the termination process for the employee.

Race/Color Harassment

Prohibited racial harassment occurs when unwelcome physical, verbal, or nonverbal conduct is based upon an individual's race or color and when the conduct has the purpose or effect of interfering with the individual's work or educational performance; of creating an intimidating, hostile, or offensive working, and/or learning environment; or of interfering with one's ability to participate in or benefit from a class or an educational program or activity. Such harassment may occur where conduct is directed at the characteristics of a

person's race or color, such as racial slurs, nicknames implying stereotypes, epithets, and/or negative references relative to racial customs.

Racial or ethnic harassment includes, but is not limited to, verbal harassment or abuse or repeated remarks to a person with racial or ethnic implications. A student who has been subjected to racial or ethnic harassment from either a fellow student or employee should report it promptly to the principal or administrative assistant. If the student is not comfortable reporting the matter to the principal or administrative assistant, the student may report the matter to the counselor. Students who are guilty of racial or ethnic harassment are subject to discipline including, but not limited to, suspension or expulsion.

Religious (Creed) Harassment

Prohibited religious harassment occurs when unwelcome physical, verbal, or nonverbal conduct is based upon an individual's religion or creed and when the conduct has the purpose or effect of interfering with the individual's educational performance; of creating an intimidating, hostile, or offensive learning environment; or of interfering with one's ability to participate in or benefit from a class or an educational program or activity. Such harassment may occur where conduct is directed at the characteristics of a person's religious tradition, clothing, or surnames, and/or involves religious slurs.

National Origin Harassment

Prohibited national origin harassment occurs when unwelcome physical, verbal, or nonverbal conduct is based upon an individual's national origin and when the conduct has the purpose or effect of interfering with the individual's educational performance; of creating an intimidating, hostile, or offensive learning environment; or interfering with one's ability to participate in or benefit from a class or an educational program or activity. Such harassment may occur where conduct is directed at the characteristics of a person's national origin, such as negative comments regarding customs, manner of speaking, language, surnames, or ethnic slurs.

Disability Harassment

Prohibited disability harassment occurs when unwelcome physical, verbal, or nonverbal conduct is based upon an individual's disability and when the conduct has the purpose or effect of interfering with

the individual's educational performance of creating an intimidating, hostile, or offensive learning environment; or with one's ability to participate in or benefit from a class or an educational program or activity. Such harassment may occur where conduct is directed at the characteristics of a person's disabling condition, such as negative comments about speech patterns, movement, physical impairments or defects/appearances, or the like.

Reports and Complaints of Harassing Conduct

Members of the School Corporation community and third parties are encouraged to promptly report incidents of harassing conduct to an administrator, supervisor or other School Corporation official so that the Board may address the conduct before it becomes severe, pervasive, or persistent.

Members of the School Corporation community or third parties who believe they have been unlawfully harassed by another member of the School Corporation community or a third party are entitled to utilize the Board's informal and/or formal investigation and complaint process. Initiating a complaint, whether formally or informally, will not adversely affect the complaining individual's participation in educational or extra-curricular programs. Individuals should make every effort to file a complaint as soon as possible after the conduct occurs while the facts are known and potential witnesses are available.

The titles of the Anti-Harassment Complaint Coordinators with whom complaints of unlawful harassment should be filed are set forth in the administrative guidelines which supplement this policy. The titles of these individuals will be published annually.

The Superintendent shall establish Administrative Guidelines describing both a formal and an informal process for making a charge of harassment, a process for investigating claims of harassment, and a process for rendering a decision regarding whether the claim of harassment was substantiated. This Policy and the Administrative Guidelines will be readily available to all members of the School Corporation community and posted in appropriate places throughout the School Corporation.

Any Board employee who directly observes unlawful harassment of a student is obligated, in accordance with this policy, to report such observations to one of the Complaint Coordinators. Thereafter, the Complaint Coordinator must contact the student if over age eighteen (18) or the student's parents if under the age eighteen (18), to advise s/he/them of the Board's intent to investigate the alleged misconduct, including the obligation of the Complaint Coordinator or designee to conduct an investigation following all the procedures outlined for a formal complaint.

Privacy/Confidentiality

The School Corporation will respect the privacy of the complainant, the individual(s) against whom the complaint is filed, and the witnesses as much as possible, consistent with the Board's legal obligations to investigate, to take appropriate action, and to conform with any discovery or disclosure obligations. All records generated under the terms of this policy and its related administrative guidelines shall be maintained as confidential to the extent permitted by law.

Informal Process for Addressing Complaints of Harassment

The administrative guidelines will include an informal complaint process to provide members of the School Corporation community or third parties who believe they are being unlawfully harassed with a range of options designed to bring about a resolution of their concerns. Members of the School

Corporation community or third parties who believe that they have been unlawfully harassed may initiate their complaint through this informal complaint process, but are not required to do so. The administrative guidelines will include as a requirement the prerequisite that the informal process is only available in those circumstances where the parties (alleged target of harassment and alleged harasser(s)) agree to participate in the informal process. Those members of the School Corporation community or third parties who believe that they have been unlawfully harassed may proceed immediately to the formal complaint process and individuals who seek resolution through the informal procedure may request that the informal process be terminated at any time to move to the formal complaint process. However, all complaints of harassment involving a Corporation employee or any other adult member of the School Corporation community against a student will be formally investigated.

Formal Process for Addressing Complaints of Harassment

The administrative guidelines will also include a formal complaint process. While the formal complaint process may serve as the first step to resolution of a charge of unlawful harassment, it is also available in those circumstances when the informal complaint process fails to satisfactorily resolve a concern. Because of the need for flexibility, no specific time lines are established for initiating the formal complaint process; however, once the formal complaint process is begun, the investigation will be completed in a timely manner (ordinarily, within thirty-one (31) calendar days of the complaint being received).

Members of the School Corporation community or third parties who feel they have been unlawfully harassed should file a formal written complaint with the principal of their school building or with one (1) of the Complaint Coordinators identified in the Administrative Guidelines. Oral complaints of harassment will be reduced to writing by the individual receiving the complaint and the Complainant will be asked to verify the accuracy of the reported charge by signing the document. Complaints received by a school building principal will be immediately reported to the appropriate Complaint Coordinator identified in the Administrative Guidelines.

After a complaint is filed, the Complaint Coordinator or designee shall conduct a prompt and timely investigation. The investigation may include interviews of the complainant, the individual accused of engaging in harassing behavior, and any other witness who may reasonably be expected to have information relevant to the situation. All interviewed parties and witnesses will be provided an opportunity to present any evidence that they reasonably believe to be relevant to the situation.

At the conclusion of the investigation the Complaint Coordinator or designee will prepare and deliver to the Superintendent a written report summarizing the evidence gathered during the investigation and providing his/her recommendations regarding whether or not the complaint of unlawful harassment has been substantiated. The written report must be based on the totality of the circumstances involved in the complaint, the nature of the alleged conduct, the context in which the alleged conduct occurred, and the ages and maturity of the individuals involved.

Upon review of the written report the Superintendent will either issue a final decision regarding whether or not the complaint of unlawful harassment was substantiated, or request that further investigation be conducted. A copy of Superintendent's action will be delivered to both the Complainant and the individual accused of the harassing conduct.

A Complainant who is dissatisfied with the Superintendent's decision may appeal it to the Board by submitting written notice to the Superintendent within ten (10) days of the date of the Superintendent's decision. Upon receipt of a notice of appeal, the Board shall meet in executive session at its next regularly scheduled meeting, which is scheduled to occur at least ten (10) days after the Superintendent's receipt of the appeal notice, to review the complaint and the summary of the investigation. Following the meeting, the Board will issue a decision either affirming, modifying, or rejecting the Superintendent's decision. The decision of the Board shall be final.

The Complaint process set forth in the policy and in the administrative guidelines is not intended to interfere with the rights of a member of the School Corporation community or a third party to pursue a complaint of unlawful harassment with the United States Department of Education, Office for Civil Rights, the Indiana Civil Rights Commission, or the Equal Employment Opportunity Commission.

The Board reserves the right to investigate and resolve a complaint or report of unlawful harassment regardless of whether the member of the School Corporation community or third party alleging the harassment pursues the complaint. The Board also reserves the right to have the formal complaint investigation conducted by an external person in accordance with this policy and administrative guidelines or in such other manner as deemed appropriate by the Board or its designee.

Sanctions and Monitoring

The Board shall vigorously enforce its prohibitions against unlawful harassment. While observing the principles of due process, a violation of this policy may result in disciplinary action up to and including the suspension/expulsion of a student. All disciplinary action will be taken in accordance with applicable State law. When imposing discipline, the Superintendent shall consider the totality of the circumstances involved in the matter, including the ages and maturity levels of those involved. In those cases where unlawful harassment is not substantiated, the Board may consider whether the alleged conduct nevertheless warrants discipline in accordance with other Board policies.

Where the Board becomes aware that a prior remedial action has been taken against a member of the School Corporation community, all subsequent sanctions imposed by the Board and/or Superintendent shall be reasonably calculated to eliminate such conduct in the future.

Education and Training

In support of this Anti-Harassment Policy, the Board promotes preventative educational measures to create greater awareness of unlawful discriminatory practices. The Superintendent or designee shall provide appropriate training to all members of the School Corporation community related to the implementation of this policy and its accompanying administrative guidelines. All training regarding the Board's policy and administrative guidelines and harassment in general will be age and content appropriate.

THREATENING BEHAVIOR

BULLYING

The School Board is committed to providing a safe, positive, productive, and nurturing educational environment for all of its students. The Board encourages the promotion of positive interpersonal relations between members of the school community. Bullying behavior toward a student, whether by other students, staff, or third parties is strictly prohibited and will not be tolerated. This prohibition includes physical, verbal, and psychological abuse as provided herein. The Board will not tolerate any gestures, comments, threats, or actions which cause or threaten to cause bodily harm or personal degradation. This policy applies when a student is on school grounds immediately before or during school hours, immediately after school hours, or at any other time when the school is being used by a school group; off school grounds at a school activity, function, or event; traveling to or from school or a school activity, function, or event; or, using property or equipment provided by the school. Additionally, this policy applies regardless of the physical location when:

- A. the individual committing the bullying behavior and any of the intended targets of the bullying behavior are students attending a school within the Corporation; and
- B. the bullying behavior results in a substantial interference with school discipline or an unreasonable threat to the rights of others to a safe and peaceful learning environment.

Bullying as defined in State law means overt, unwanted, repeated acts or gestures, including verbal or written communications transmitted, physical acts committed, aggression, or any other behaviors committed by a student or group of students against another student with the intent to harass, ridicule, humiliate, intimidate, or harm the other student and create for the targeted student an objectively hostile school environment that:

- A. places the targeted student in reasonable fear of harm to the targeted student's person or property;
- B. has a substantially detrimental effect on the targeted student's physical or mental health;
- C. has the effect of substantially interfering with the targeted student's academic performance; or
- D. has the effect of substantially interfering with the targeted student's ability to participate in or benefit from the services, activities, and privileges provided by the school.

This type of behavior is a form of harassment, although it need not be based on any of the legally protected characteristics, such as sex, race, color, national origin, marital status, or disability. It includes, but is not limited to, such behaviors as stalking, intimidation, menacing behavior, coercion, name-calling, taunting, making threats, and hazing.

Any student who believes s/he has been or is currently the victim of bullying should immediately report the situation to the building principal or assistant principal, or the Superintendent. The student also may report concerns to a teacher or counselor who will be responsible for notifying the appropriate administrator. Complaints against the building principal should be filed with the Superintendent. Complaints against the Superintendent should be filed with the Board President.

Every student is encouraged, and every staff member is required, to report any situation that they believe to be bullying behavior directed toward a student. Reports may be made to those identified above.

All complaints about bullying behavior that may violate this policy shall be promptly investigated.

If the investigation finds an instance of bullying behavior has occurred, it will result in prompt and appropriate disciplinary action, up to and including expulsion for students, discharge for employees, exclusion for parents, guests, volunteers, and contractors, and removal from any official position and/or a request to resign for Board members. Bullying acts may be reported to law enforcement officials.

The complainant shall be notified of the findings of the investigation and as appropriate, any remedial action that has been taken to the extent disclosure is permitted by law.

Retaliation against any person who reports, is thought to have reported, files a complaint, or otherwise participates in an investigation or inquiry concerning allegations of bullying is prohibited and will not be tolerated. Such retaliation shall be considered a serious violation of Board policy and independent of whether a complaint is substantiated. Suspected retaliation should be reported in the same manner as bullying. Making intentionally false reports about bullying for the purpose of getting someone in trouble is similarly prohibited and will not be tolerated. Retaliation and intentionally false reports may result in disciplinary action as indicated above.

For a definition of and instances that could possibly be construed as hazing, consult Policy 5516.

Confidentiality

To the extent appropriate and/or legally permitted, confidentiality will be maintained during the investigation process. However, a proper investigation will, in some circumstances, require the disclosure of names and allegations.

Safe School Committee

In accordance with State law, there shall be a Safe School Committee in each school within this Corporation (see Policy 8400 - School Safety).

The Superintendent is directed to develop administrative guidelines to implement this policy. Guidelines shall include reporting and investigative procedures, as needed. The complaint procedure established by the Superintendent shall be followed.

I.C. 5-2-10.1, 20-20-8-8, 20-30-5-5.5, 20-33-8-0.2, 20-33-8-13.5, 20-34-6-1

This rule applies when a student is:

- a. On school grounds immediately before or during school hours, immediately after school hours or at any other time when the school is being used by a school group (including summer school);
- b. Off school grounds at a school activity, function, or event;
- c. Traveling to or from school or a school activity, function, or event; or
- d. Using property or equipment provided by the school.

Bullying among children is commonly defined as intentional, repeated hurtful acts, words or other behavior, such as name-calling, threatening and/or shunning committed by one or more children against another. The victims do not intentionally provoke these negative acts, and for such acts to be defined as bullying, an imbalance in real or perceived power must exist between the bully and the victim.

Bullying may be physical, verbal, emotional or sexual in nature. For example:

- Physical bullying includes punching, poking, strangling, hair pulling, beating, biting, and excessive tickling.
- Verbal bullying includes such acts as hurtful name-calling, teasing and gossip.
- Emotional bullying includes rejecting, terrorizing, extorting, defaming, humiliating, blackmailing, rating/ranking of personal characteristics such as race, disability, ethnicity, or perceived sexual orientation, manipulating friendships, isolating, ostracizing and peer pressure.
- Sexual bullying includes many of the actions listed above as well as exhibitionism, voyeurism, sexual propositioning, sexual harassment and abuse involving actual physical contact and sexual assault.

Cyber-bullying takes place on or immediately adjacent to school grounds, at any school-sponsored activity, on school provided transportation or at any official school bus stop, through the use of the district Internet system while on or off campus, through the use of a personal digital device, including cell phones, on campus, or off-campus activities that cause or threaten to cause a substantial disruption at school.

- "Substantial disruption" means
- Significant interference with instructional activities, school activities, or school operations.
- An environment for any student that is abusive, intimidating, threatening, or hostile and impairs that student's ability to participate in educational programs or school activities.
- Physical or verbal violent altercations between students.

Any Student who believes he/she has been or is currently the victim of bullying should immediately report the situation to the principal, assistant principal, or the Superintendent. The student may also report concerns to a teacher or counselor who will be responsible for notifying the appropriate administrator. Complaints against the building principal should be filed with the Superintendent. Complaints against the Superintendent should be filed with the Board President.

Every student is encouraged, and every staff member is required, to report any situation that they believe to be bullying behavior directed toward a student. Reports may be made to those identified above.

HEALTH PROCEDURES

HEALTH POLICIES & CLINIC UTILIZATION

Hamilton Community School Corporation supports student success by providing health care assessment, intervention, treatment, and follow-up for all children within the school setting. The health clinic is staffed with a registered nurse who will provide illness and injury assessments and interventions, screening for health factors impacting student learning, chronic disease management and education, administering medications, provides suitable education to all students including those with acute, chronic, and or infectious diseases, and to ensure a safe and healthy school environment for all students and staff.

First aid treatment shall be rendered in our school for injuries occurring while the student is under the jurisdiction of the school. Students who require minor first aid during recess or other activities should report first to the supervising person with whom they are with and then to their homeroom teacher. They will then be given a pass to the clinic. Students with any possibility of high fevers or serious injuries such as head injuries, severe cuts (possibly needing stitches), possible broken bones, broken teeth, etc. should be escorted immediately to the clinic. The parents will be notified immediately and any necessary actions thereafter will be pursued.

Hamilton Community Schools shall not be responsible for the diagnosis and treatment of student illness. The administration of prescribed medication and/or medically-prescribed treatments to a student during school hours will be permitted only when failure to do so would jeopardize the health of the student, the student would not be able to attend school if the medication or treatment were not made available during school hours, or the child is disabled and requires medication to benefit from his/her educational program.

"Treatment" refers both to the manner in which a medication is administered and to health-care procedures which require special training, such as catheterization or intravenous or intramuscular injection

Emergency care information **MUST** be on file in the office for every student. The parent/guardian bears the responsibility of furnishing the school with accurate and updated information. When illness occurs during the school day, parents will be called to come to the school to pick up their child. **PLEASE DO NOT SEND YOUR CHILD TO SCHOOL IF HE/SHE IS ILL.**

WHEN TO KEEP STUDENTS HOME FROM SCHOOL:

Deciding when to keep a sick child at home is not always easy. It is important for children to attend school, but when a child is truly sick, they need to stay home in the care of an adult to get well and to prevent spreading illness to others.

It is your responsibility to keep the school office and school nurse up to date with current phone numbers and emergency contact information so you or an alternate contact can be reached if your child becomes ill or injured at school.

Coughing: A child with deep or uncontrollable coughing belongs at home even without a fever.

Diarrhea/Vomiting: Children who have vomited or had diarrhea should be kept at home and should not return to school until they are symptom free without medication for 24 hours.

Fever: Any child with a fever of 100' F or higher should not attend school and should not return to school until they are fever free for 24 hours without medication. It is common for temperatures to be low in the morning but rise during the day. The 24 hour wait time is extremely important.

Head Lice: Hamilton Schools abides by a no nit policy. Students must be lice and nit free.

Rash: rashes with fever, painful skin sores, and skin sores with drainage and or crusting must be evaluated by a health care provider. A note from the healthcare provider is requested stating when the child is no longer contagious and able to return to school.

Please remember that handwashing is the most effective way to prevent the spread of illness. Remember to cough into your sleeve, tissue, or elbow and then always wash your hands. If we follow these guidelines, we will greatly reduce staff and student illnesses and absences!

ACCIDENTS:

Any student who is involved in an accident or injured at school, or at an extracurricular activity, should report it as soon as possible to the appropriate teacher, administrator, nurse or supervisor of the activity.

MEDICATION ADMINISTRATION POLICY:

Indiana School Laws allow the school nurse or other designated personnel to assist students who are required to take medication throughout the school day. The purpose of this service is to help each student maintain or improve his/her potential for education and learning. The intent of this policy is to provide safe, effective administration of medications for those students who require them. For purposes of this policy, "medication" shall include all medicines including those prescribed by a physician and any non-prescribed (over-the-counter) drugs, preparations, and/or remedies.

- Prescription medications must be accompanied by a medication form completed and signed by the healthcare provider and the parent or guardian. A copy of the original prescription or pharmacy label may be substituted for the signature of the healthcare provider.
- Non-prescription medications must be accompanied by a medication permission slip that is completed and signed by the parent/guardian. Any student who requires over the counter medications such as antihistamines, antacids, Tylenol, ibuprofen, etc. must have their own supply in the nurse's office.
- Medication forms may be obtained from the nurse's office. A new form must be completed each school year and each medication must be on its own form.
- ALL medications must be kept in the original container. Prescription medications must be in a pharmacy bottle labeled correctly with the dosage and times to give. The student's name must be on the bottle. Your pharmacist will be able to provide you with a duplicate labeled medication container if the medication is needed at home as well as at school.
- Any change in medication, dosage, or time to be given, must be in written form with the healthcare provider and parent/guardian signature.
- ANY medications to be used during the school day must be given to the school nurse. These medications will be kept under lock and key and are dispensed by the school nurse or his/her designee.
- It is the responsibility of the parent/guardian to make sure the medication is delivered safely to the school nurse or designee.
- Unused medications should be picked up within one week of the end of the school year.

Medications left at school after this time will be destroyed in the presence of a witness. A school may send home medication that is possessed by a school for administration during school hours or at school functions with a student in grades 9-12, with written parental consent. For students in grades K-8, medication may only be released to student's guardian or individual who is at least eighteen (18) years of age and who has been designated in writing, by the student's guardian to receive the medication (IC 20-8.1-5.1-7.5).

- For any student with an acute or chronic disease or medical condition that requires medication to be administered on an emergency basis, Senate enrolled act 376 provides that a school corporation must allow the student to possess and self-administer this medication while the student is on school grounds or off school grounds at a school activity, function, or event. In this case, the student parent/guardian must file an annual authorization that includes a written statement from the student's physician for the student to self-administer the medication. Any medication carried by the student without authorization will be in violation of school drug policy. (Policy 5530)

- No student is allowed to provide or sell any type of over-the-counter medication to another student. Violations of this rule will be considered violations of Policy 5530- Drug Prevention and of the Student Code of Conduct/Student Discipline Code.

LICE:

The Hamilton Community School Corporation abides by a “No Nit Policy” meaning students are not permitted into the classroom if live lice or nits are found in the hair. In an effort to cooperate with parents in eradicating head lice and reducing the expenses involved, the Hamilton Community School Corporation will follow the procedures concerning head lice:

- A. Each time a student is identified having head lice the parent/guardian will be notified and asked to pick the child up at school. After treatment, parents are required to bring the student to school before class and wait until the student has been checked by the school nurse. If lice and nit free, the student will be permitted to return to the classroom. The student will be checked every morning by the school nurse until lice free for three consecutive days, then checked once a week for three consecutive weeks.
- B. With each consecutive week re-infestation, the parent/guardian may be asked to check with the child’s physician for diagnosis and treatment. At this time, a note from the child’s physician stating that the child has been treated and that all nits have been removed will be required for re-entry into the classroom. The three- week period of checking by the school nurse will be reinstated.

If you require assistance with obtaining a head lice treatment for your child or have any questions regarding this matter, please contact the school nurse.

Pediculosis (lice) is a problem in all schools. Head lice are tiny, crawling insects that live on the human scalp. They grow in little white eggs (nits) attached to the hair shaft. It is spread from one person to another by direct contact or by shared personal items (combs, brushes, hats).

Hamilton Community Schools does not contact all parents each time there is a confirmed case of lice. It is strongly recommended that parents periodically, once a week, check their children’s hair for lice. If lice are found, treat all the children within the household; wash all bed linens; vacuum all carpets, upholstered furniture, and cars; wash or clean coats and hats; remove nits from the hair; and contact the school.

Close physical contact of the infested children will be screened; and appropriate action, as determined by the building nurse, will be taken. Information and advice can be obtained by contacting the school nurse.

CARE OF STUDENTS WITH CHRONIC HEALTH CONDITIONS

Students with chronic health conditions will be provided with a free appropriate public education. If their impairment does not require specially designed instruction for them to benefit educationally, they may be eligible for accommodations/modifications/interventions of the regular classroom, curriculum, or activity (i.e. the school setting) so that they have the same access to an education as students without disabilities. Such accommodations/modifications/interventions may be provided pursuant to a Section 504 Plan. All information regarding student identification, health care management, and emergency

care shall be safeguarded as personally identifiable information in accordance with Policy 8330 and Policy 8350.

Staff will be trained about chronic health conditions and their control at a minimum annually in each school in which there is a student with a chronic health condition. This training shall include:

- A. education about chronic health conditions;
- B. the management procedures that the student and/or school personnel will be responsible for during the school day;
- C. the early warning signs of chronic health conditions;
- D. what to do in case of a distress reaction;
- E. special planning needed for school functions such as parties, field trips, before and after-school activities, particularly those involving physical activity or exercise;
- F. reporting procedures for changes in the student's physical or emotional behavior and condition;
- G. access to appropriate consulting health professionals to address questions about chronic health conditions.

Designated staff who have responsibility for specialized services such as giving inhaler treatments or injections, or conducting glucose and/or ketone tests shall be provided training specific to the procedures, at least annually, by a licensed health professional.

The school nurse shall maintain a copy of the training program and the records of training completed by school employees.

Communication by school personnel with the student's parents/guardians and healthcare providers is to begin as soon as the student with a chronic health condition is identified. In the absence of school nursing services, the principal will contact the parents/guardians to discuss the need for written physician's instructions and a health care action plan for the student with a chronic health condition to be completed and provided to the school as soon as possible. The plan shall clearly state all accommodations and emergency care procedures for the student with a chronic health condition during school hours or at a school-related event or activity. Healthcare action plans shall be accessible to designated staff in case of a distress reaction, or suspected onset of medical distress.

Except in an emergency, the school shall allow the student to attend to the management and care of his/her chronic health condition, as provided in the individualized healthcare action plan.

The school shall provide an information sheet to the individual who is responsible for providing transportation for or supervising a student with a chronic health condition during an off-campus school related activity that:

- A. identifies the student with a chronic health condition;
- B. identifies potential emergencies that may occur as a result of the chronic health conditions and appropriate responses to an emergency;
- C. provides the telephone number of a contact in case an emergency occurs.

CARE OF STUDENTS WITH DIABETES

A diabetes management and treatment plan shall be prepared and implemented for a student with diabetes for use during school hours or at a school-related event or activity. The plan shall be developed by:

- A. the licensed health care practitioner responsible for the student's diabetes treatment; and
- B. the student's parent/legal guardian.

The parent/legal guardian of a student with diabetes shall submit a copy of the student's diabetes management and treatment plan to the school nurse for review.

An individualized health plan shall be developed for each student with diabetes while the student is at school or participating in a school activity. The school's nurse shall develop a student's individualized health plan.

A student's individualized health plan shall incorporate the components of the student's management and treatment plan. The Board is not liable for civil damages as a result of a student's self-administration of medication for an acute or chronic disease or medical condition except for an act or omission amounting to gross negligence or willful and wanton misconduct. I.C. 20-34-5

ATTENDANCE POLICY

The School Board, as an agency of the State, is required to enforce regular attendance of students. The Board recognizes that the presence in the classroom enables the student to participate in instruction, class discussions, and other related activities. As such, regular attendance and classroom participation are integral to instilling incentives for the student to excel.

Attendance shall mean to be physically present in a school or at another location where the school's educational program is being conducted during regular school hours on a day in which the educational program in which the student is enrolled is being offered.

Attendance shall be required of all Corporation students, except those exempted under other provisions of State law, during the days and hours that the school is in session.

Exceptions to compulsory attendance that shall be recognized by the school corporation as provided by state statute are:

- A. service as a page or honoree of the general assembly (I.C. 20-33-2-14)
- B. service on a precinct election board or helper to a political candidate on the date of an election (I.C. 20-33-2-15)
- C. subpoena to appear in court as a witness in a judicial proceeding (I.C. 20-33-2-16)
- D. service in active duty with the National Guard for not more than ten (10) days (I.C. 20-33-2-17)
- E. participating as a member of the Indiana wing of the civil air patrol for not more than five (5) days (I.C. 20-33-2-17.2)
- F. participating in an educationally related non-classroom activity which is consistent with and promotes educational philosophy and goals of the school corporation, facilitates the attainment of specific educational objectives, is part of the goals and objectives of an approved course or curriculum, represents a unique educational opportunity, cannot reasonably occur without

interrupting the school day, and is approved in advance by the school principal (I.C. 20-33-2-17.5)

For any of these exceptions a student shall not be recorded as absent from school.

The Superintendent shall require, from the parent of each student or from an adult student who has been absent for any reason, a written statement of the cause for such absence. The Board reserves the right to verify such statements and to investigate the cause of each single absence.

The Board considers the following for excused absences:

- A. illness verified by a note/phone call from the parent (maximum of 10 per school year)
- B. illness verified by a note from a physician
- C. professional appointments – Parents are encouraged to schedule medical, dental, legal, and other necessary appointments other than during school hours. When appointments are necessary during the school day, the student shall report back to school immediately after the appointment with a signed statement from the doctor, dentist, lawyer, counselor, etc.
- D. death in the immediate family or of a relative
- E. observation or celebration of a bona fide religious holiday in accordance with Policy 5223
- F. military connected families' absences related to deployment and return

An **unexcused absence** is any absence not covered under the definition of excused absence or an exception to compulsory attendance. An out of school suspension shall not be considered an unexcused absence.

Repeated instances of unexcused absences may result in disciplinary action up to suspension or expulsion of a student.

Truancy is defined as absence from school without permission of the parent.

The Superintendent or an attendance officer having jurisdiction shall report a child who is habitually absent from school to an intake officer of the juvenile court or the Department of Child Services.

Attendance need not always be within the school facilities, but a student will be considered to be in attendance if present at any place where school is in session by authority of the Board.

The Board shall consider each student assigned to a program of other guided learning experiences, authorized under Policy 2370, to be in regular attendance for the program provided that s/he reports daily to such staff member s/he is assigned for guidance at the place in which s/he is conducting study, and regularly demonstrates progress toward the objectives of the course of study.

The Superintendent shall develop administrative guidelines for the attendance of students which:

- A. ensure a school session which is in conformity with the requirements of the law;
- B. ensure that students absent for any excusable reason have an opportunity to make up work they missed;
- C. govern the keeping of attendance records in accordance with the rules of the State Board;
- D. ensure that any student who, due to a specifically identifiable physical or mental impairment, exceeds or may exceed the Corporation's limit on excused absence is referred for evaluation for

eligibility either under the Individuals with Disabilities Education Act (IDEA) or Section 504 of the Rehabilitation Act of 1973.

Such guidelines should provide that a student's grade in any course is based on his/her performance in the instructional setting and is not reduced for reasons of conduct. If a student violates the attendance or other rules of the school, s/he should be disciplined appropriately for the misconduct, but his/her grades should be based upon what the student can demonstrate s/he has learned.

The Superintendent shall ensure that the administrative guidelines on attendance properly address the matter of truancy by including a process which:

- A. identifies the habitual truant, that is, a student who is chronically absent by having unexcused absences from school for more than ten (10) school days in one (1) school year;
- B. investigates the cause(s) of his/her truant behavior;
- C. considers, when appropriate, modification of his/her educational program to meet particular needs which may be causing the truancy;
- D. ensures that truant students are disciplined in accordance with the Corporation's policies and administrative guidelines on student discipline;
- E. provides for the reporting to the Bureau of Motor Vehicles those students who have been suspended for the second time during a school year, expelled, or excluded for misconduct.

MAKE-UP WORK

Students will receive one day to make up work for each excused day he/she misses. It is the student's responsibility to obtain make-up work following his/her absence(s).

Parents and/or students wishing to receive make-up homework assignments for students who have been absent three (3) or more consecutive school days may do so by calling the office by 9:00 a.m. Every attempt will be made to have it available by 3:30 p.m. the same day.

EXTRA-CURRICULAR ABSENCE POLICY

Students must be in attendance by 9:30 AM, in order to attend an extra-curricular activity. If the extra-curricular activity occurs on a weekend, then the student must be in attendance at school on the Friday prior to the activity. A Doctor's appointment with written verification by the Doctor would be an exception. (School attendance by athletes governed by the athletic code in the Athletic Handbook).

ABSENCES DEFINED

A student will be counted absent one (1) period for missing all or at least ten or more minutes of an individual class period.

Students will be allowed a maximum of ten (10) illness related absences verified by a note/phone call from the parent to count as excused per school year. Any absences beyond ten (10) will require documentation by licensed personnel. Once a student reaches ten (10) unexcused absences they will be subject to disciplinary action for habitual truancy.

Tardy

A student is considered tardy if he/she is not in the classroom when the bell rings. A tardy is defined as missing ten or less minutes of a class without a student pass. Tardiness will be considered a disciplinary issue, which will be addressed through established procedures.

Truancy

Truancy refers to situations where the student: is somewhere without authorization, does not attend class as expected, leaves the school without authorization, or willfully fails to attend school without the parent or caregiver's knowledge. Truancy will be considered a disciplinary issue. Truancy is considered an unexcused absence. A student will be allowed to make up the work, but the student will not be given credit for the work.

Family Vacation Days

We discourage taking students out of school for family vacations. However, students who are absent from school for vacations or other planned absences must submit a form, signed by all teachers and the parent or guardian, one week in advance of the days to be missed to enable schoolwork to be made up for credit. All absences of this nature will be counted as unexcused and will count towards the maximum of ten (10) unexcused absences allowable per school year.

College Visitation

College visitation must be arranged and approved by the counselor and parents. These visitations are generally reserved for second semester juniors and first and second semester seniors. The college visit must be pre-arranged three (3) days in advance, in order to be approved. Only two college visitations will be allowed per school year.

Junior/Senior High School Absentee Procedure for Calling in Absences

If your child is ill and will not be attending school on any particular day, the parent/guardian must call the school by 8:15 a.m. on the day of the absence. If for some reason, you are unable to call in, then, when your child returns to school, he/she must bring a note from the parent/guardian for the absence to be excused. If your child is late for school, they must sign in at the office upon entering school. Failure to notify the school of a student's absence by either telephone or a note will result in an unexcused absence.

Junior/Senior High School Procedure for going to a Doctor's Appointment

Appointments should be scheduled after school if at all possible, however if your child is going to an appointment, (doctor, dentist, etc.) it is the responsibility of the parent/guardian to bring an appointment slip back from the physician. If your physician does not give you one, you may obtain a slip in the office prior to your appointment to take with you for the physician/secretary in the doctor's office to fill out. No student will be allowed to leave the building without parental permission, either by a phone call or note.

Junior/Senior High School Procedure Regarding Attendance Violations

When any student accumulates five (5) unexcused absences in a semester, the parents or guardians will receive written notice by mail. If the student reaches ten (10) unexcused absences, the case will be turned over to the County Probation Department as well as the Department of Child Services for potential Educational Neglect and a violation of the Indiana Compulsory Attendance Law *IC 20-33-2-27*.

DISPLAY OF FLAG AND PLEDGE OF ALLEGIANCE

DISPLAY OF THE UNITED STATES FLAG

The United States flag shall be displayed in each classroom in the school corporation.

PLEDGE OF ALLEGIANCE

The building principal shall ensure that a daily opportunity is provided for students of the school corporation to voluntarily recite the Pledge of Allegiance in each classroom or on school grounds. The building principal shall determine the appropriate time when school is in session for the recitation of the Pledge.

A student is exempt from participation in the Pledge of Allegiance and may not be required to participate in the Pledge of Allegiance if:

- a. the student chooses not to participate; or
- b. the student's parent chooses to have the student not participate.

Students who are exempt from reciting the Pledge shall remain quietly standing or sitting while others recite the Pledge and shall make no display that disrupts or distracts other students who are reciting the Pledge.

During the Pledge of Allegiance, students who participate shall stand and recite the Pledge while facing the United States flag with their right hands over their hearts or in an appropriate salute if in uniform.

The student code of conduct applies to disruptive behavior during the recitation of the Pledge in the same manner as provided for in other circumstances of such behavior.

The superintendent may establish administrative guidelines to implement this policy.

MOMENT OF SILENCE

In order that the right of each student to the free exercise of religion is guaranteed and the freedom of each student is subject to the least possible coercion from the state either to engage in or refrain from religious observation on school grounds, there shall be a daily observance of a moment of silence in each classroom or on school grounds of each school in the school corporation.

During the moments of silence, the teacher responsible for a classroom shall ensure that all students remain seated or standing and silent during the moment of silence and the students make no distracting display so that each student may, in the exercise of the student's individual choice, meditate, pray, or engage in any other silent activity that does not interfere with, distract, or impede another student in the exercise of the student's individual choice.

This "moment of silence" is not intended to be and shall not be conducted as a religious exercise. This policy precludes students from using the occasion to pray audibly or otherwise speak, singly or in unison. Staff must not allow or tolerate any coercion or overbearing by anyone to force other students to engage in or refrain from prayer or any other permitted activity under this policy.

The student code of conduct applies to disruptive behavior during a moment of silence in the same manner as provided for in other circumstances of such behavior.

The superintendent may establish administrative guidelines to implement this policy.

*Special exception for graduation dress will be made for students who have enlisted in the military:

1. Any student enlisted in the military will have the opportunity to be recognized for their enlistment through a commemorative sash indicating branch of service to be worn in conjunction with traditional cap and gown as part of the standard dress for the ceremony. Student shall make a formal written request to the principal and present a letter from his/her branch of service indicating the date of completion for his/her enlistment, that s/he is in good standing with the military.

VALEDICTORIAN AND SALUTATORIAN DESIGNATION

No valedictorian or salutatorian designation would be made if student GPA's are within three-tenths of a point on a 12-point scale at the end of seven semesters until such time as it is beyond reasonable dispute that a valedictorian and/or salutatorian can be clearly identified from student grade point averages based upon a 12-point scale. The students must have attended Hamilton Jr/Sr High School for at least four (4) consecutive semesters immediately preceding the determination of class valedictorian and salutatorian. Therefore, any student who transfers into Hamilton Jr/Sr High school by 2nd semester of their sophomore year (January of their sophomore year) will be eligible to be valedictorian and salutatorian.

ACADEMIC RECOGNITION

No HHS student will be granted any type of academic recognition based upon grade point average, class rank, or any other criteria, unless they have met the requirements for an Academic Honors curriculum applicable at that time in the student's high school career. The types of recognition would include, but not be limited to: valedictorian and salutatorian.

EARLY GRADUATION

The School Board acknowledges that some students are pursuing educational goals which include graduation from high school at an earlier date than their designated class.

NATIONAL HONOR SOCIETY

The National Honor Society (NHS) is the nation's premier organization established to recognize outstanding high school students. More than just an honor roll, NHS serves to honor those students who have demonstrated excellence in the areas of Scholarship, Leadership, Service, and Character. Chapter membership not only recognizes students for their accomplishments, but challenges them to develop further through active involvement in school activities and community service.

Any student in grades 10 through 12 in a school with both an official charter of the National Honor Society and an affiliation with the NASP Department of Student Activities is eligible for consideration for membership in the National Honor Society. The NHS chapter rules for membership are based upon a student's outstanding performance in the areas of scholarship, service, leadership, and character. These four criteria for selection form the foundation upon which the organization and its activities are built.

- **Scholarship:** Students who have a cumulative grade point average of 9.0 (on a 12.0 scale) or higher meet the scholarship requirement for membership. These students are then eligible for consideration on the basis of service, leadership, and character.
- **Service:** This quality is defined through the voluntary contributions made by a student to the school or community, done without compensation and with a positive, courteous, and enthusiastic spirit.
- **Leadership:** Student leaders are those who are resourceful, good problem solvers, promoters of school activities, idea-contributors, dependable, and persons who exemplify positive attitudes about life. Leadership experiences can be drawn from school or community activity while working with or for others.
- **Character:** The student of good character upholds principles of morality and ethics, is cooperative, demonstrates high standards of honesty and reliability, shows courtesy, concern and respect for others and generally maintains a good and clean lifestyle.

Once selected by the local selection committee, known as the Faculty Council, a student is awarded membership in the local chapter at a special induction ceremony. With induction, a member assumes certain obligations. The chapter must conduct a service project for the school or community, and see to the development of an individual service project for each member.

Chapters may choose to sponsor fundraising projects or involve themselves with the school to reach the chapter's goals established to encourage scholarship, promote leadership and service, and build character. In addition, regular meetings of the chapter are to be held to conduct chapter business and communicate with members. All active NHS chapter members are expected to support these and other chapter activities.

PROMOTION, RETENTION, AND SUMMER SCHOOL GUIDELINES

The School Board recognizes that the personal, social, physical, and educational growth of children will vary and that they should be placed in the educational setting most appropriate to their needs at the various stages of their growth.

It shall be the policy of the Board that each student be moved forward in a continuous pattern of achievement and growth that is in harmony with his/her own development.

A student will be promoted to the succeeding grade level when s/he has:

- A. completed the course requirements at the presently assigned grade;
- B. in the opinion of the professional staff, achieved the instructional objectives set for the present grade;
- C. demonstrated sufficient proficiency to permit him/her to move ahead in the educational program of the next grade;
- D. demonstrated the degree of social, emotional, and physical maturation necessary for a successful learning experience in the next grade.

A student enrolled in special education shall be promoted or retained based on the opinion of the Case Conference Committee and the student's I.E.P.

Following sound principles of child guidance, the Board discourages the skipping of grades.

It is the policy of the Board that a student shall not be retained or held back in a grade level for the sole purpose of improving the student's ability to participate in extra-curricular athletic programs.

Final decisions on student promotion, placement, or retention resides with the building principal.

HOMEWORK POLICY (GRADES 6-12)

Introduction: Educators and parents share one common goal: to help each student be successful. Students learn best when they, their parents, and the school work together. Homework is an opportunity for students to spend time strengthening their self-discipline and extending their learning and practice skills. Homework is seen as an extension of learning; not as a substitute for classroom instruction. Homework which reinforces, enriches, and enhances instruction is intended to encourage families to become more involved with education.

Purpose of Homework: Homework is defined as an out-of-class assignment that contributes to the education of the students. It should be an extension of class work and should be related to curriculum

objectives. Homework may include practice exercises, reading of material on a specified topic, in-depth extension of classroom activities, or independent project work related to the subject. Students should fulfill the following objectives:

- a. To review, reinforce or extend classroom learning by providing practice and application of knowledge gained;
- b. to teach students responsibility and organizational skills;
- c. to promote wise and structured use of time;
- d. to encourage a carry-over of worthwhile school activities into a permanent career and leisure interests;
- e. to provide opportunities for broad enrichment activities;
- f. to promote home/school cooperation in the educational process;
- g. to develop good study habits; and
- h. to practice needed skills.

Guidelines:

- a. Homework will be assigned to all students at all levels.
- b. The amount of homework is to be commensurate with the objectives of the class. All students should expect to have some homework each evening.
- c. If absent due to illness, students will be given at least one day to make up work per each day of absence. Students are responsible to obtain any missing work they need upon their return.
 1. The deadline for make-up is set by the teacher, who will allow at least one day for each day of absence.
 2. The student should make up work ahead of time if the absence is known in advance. It is understood that there are emergency situations that arise.
- d. Students can expect to be held accountable for late assignments/homework.

PHYSICAL EDUCATION

PHYSICAL EDUCATION CLASSES

A student will not be excused from participating in physical education classes unless he or she brings a signed statement from the school nurse or a physician stating that this student should be excused. Long-term excuses will require a physician's statement.

PHYSICAL EDUCATION UNIFORMS

All students who participate in the physical education curriculum must purchase a physical education uniform. Uniforms can be purchased in the 6-12 office.

INDEPENDENT STUDY CRITERIA

The school administration and guidance department understand that Independent Studies have a place in the school curriculum. However, much learning and other academic benefits are gained from a course as it takes place in the day-to-day interactions between teachers and classmates. The administration of Hamilton Junior/Senior High School seeks to promote and provide the best possible curriculum an learning environment for all students.

An Independent Study will be considered on an individual need, case-by-case basis. Independent Studies are not a right, or an entitlement. Independent Studies will not be granted solely to accommodate Middle College scheduling conflicts. Independent Studies will be approved only by the school administration, with input from the appropriate faculty member and school guidance department taken into consideration.

COLLEGE AND UNIVERSITY PROGRAMS

Hamilton High School is dedicated to make as many educational options as possible available to our students. Hamilton High School is equally dedicated to assuring the members of this community and the Department of Education that the curriculum offered meets the highest standards and expectations possible. With those goals in mind, the administration of Hamilton High School has adopted the following guidelines in administering the School Board's educational policy regarding college and university programs.

- Juniors and Seniors will only be considered for college and university programs
- Students must follow admission guidelines for each college and university they wish to attend.
- No student may participate, however, without the written consent of the high school principal or if such participation would delay his/her graduation from high school. Students must be in good standing at Hamilton Junior/Senior High School.
- Classes at a post-secondary institution will be allowed if those classes do not interfere with the High School master schedule.
- College classes with at least three credit hours will be recognized with one credit on the high school transcript.
- Fulfilling state graduation requirements will take priority over post-secondary institutions in determining student schedules.
- Independent study will not be used to substitute a high school class so that a class at a post-secondary institution can be taken.
- Students must have successfully completed the state required end of course assessment.

EMERGENCY PROCEDURES

FIRE DRILLS & SAFETY PROCEDURES

Indiana Law requires all schools to have monthly fire drills. When the fire alarm is sounded, all students are to leave the building quickly and in an orderly fashion according to the directions of the teacher in whose room they are located. Each classroom should have clearly identified emergency exit routes (primary and secondary). Students are to wait a safe distance from the building until the signal is given to return to the building.

TORNADO ALERT PROCEDURE

The school intercom will be used to notify everyone of a Tornado Alert. If the power goes off, the message will be hand delivered. When the announcement is completed, students and staff members will proceed in an orderly fashion in single file, quickly but always in control, to their designated assignment.

Upon reaching their designated areas, students will sit down on the floor their legs crossed and remain quiet for any instructions from those in charge. Every effort will be made to warn all personnel so that time is available to reach the designated areas.

APPEARANCE AND DRESS

The Board of Trustees and the Administration believes that proper dress and proper grooming are the responsibilities of every pupil attending Hamilton Community Schools. The Superintendent and the Principal are charged with the responsibility of establishing and enforcing reasonable standards of dress and grooming necessary for the orderly running of the school. Appearance and dress must be decent, and must not present health or safety problems to students or cause disruption of the school program, functions, or purposes.

DRESS **GENERAL**

At school and school related activities, the Board of School Trustees believes that proper dress and proper grooming are the responsibility of every student attending Hamilton Junior/Senior High School and their parents. The administration is charged with the responsibility of establishing and enforcing reasonable standards of dress and grooming necessary for the orderly operation of the school. A safe and disciplined learning atmosphere is the most essential requirement of a good school. The adoption of school dress codes promote school safety, improve discipline, and enhance the learning environment. Parental support of the dress code is crucial to its success. As general guidelines for reasonableness, students will be required to wear footwear and clothing, which meet standards of good taste, common sense, safety, and cleanliness.

We believe that appropriate dress and grooming contributes to the achievement of the fundamental purposes and mission of school. Therefore, students are expected to choose clothing that does not detract from the learning environment. Students and parents are expected to understand that standards of acceptable attire for educational purposes may be in conflict with current fashion trends and fads. Students may wear stylish clothes of their choice as long as those clothes are appropriate for the school setting, are not dangerous to health and safety, and do not distract or offend others.

The following personal appearance rules are established in order to encourage and support:

- The achievement of the school's mission.
- A school environment that is more business-like than casual.
- Pride in self and school.
- Personal cleanliness, modesty and safety.
- Good habits for future employment.

STUDENT DISCIPLINE

TEACHER AUTHORITY AND BEHAVIOR EXPECTATIONS

The roles, responsibilities and authority of teachers and school officials are established by Indiana Code IC 20-26-2-4 (Duty and powers of school corporation to supervise and discipline students) states:

- Student supervision and the desirable behavior of students in carrying out school purposes is the responsibility of a school corporation and the students of a school corporation.
- In all matters relating to the discipline and conduct of students, school personnel stand in the relation of parents and guardians to the students of the school corporation. Therefore, school corporation personnel have the right, subject to this chapter, to take any disciplinary action necessary to promote student conduct that conforms with an orderly and effective educational system.
- Students must follow reasonable directions of school personnel in all educational settings and refrain from disruptive behavior that interferes with the educational environments.

Thus, the faculty is responsible for Hamilton Jr./Sr. High School, and is expected to develop and maintain an orderly and safe school, and a climate that promotes learning.

In carrying out their responsibilities teachers are required to supervise students at all times, including before and after school, during passing periods and during lunch periods.

Students also have a responsibility to maintain a safe and orderly school environment, and to possess sufficient self-discipline to monitor their own behavior and not infringe upon the rights of others. Furthermore, they are expected to understand that teachers have the authority to deal with them even if they do not have them in class. All students are expected to contribute to the development and maintenance of an orderly school environment in the following ways:

1. Being punctual to class; having necessary materials with them at the beginning of the class period; and participating in the learning activities by cooperating with the instructions of the teacher.
2. Supporting the rights of other students to learn and the responsibility of the faculty to teach by refraining from actions that would disrupt or interfere with classes or other school programs or encouraging others to do so.
3. Supporting the need for a safe environment, free from weapons, fighting, threats, harassment, and other actions that could cause injury to another person.
4. Respecting the property of other students, the faculty, the school and community.
5. Respecting the role and authority of teachers.
6. Being physically and mentally alert and free from the influence of alcohol, marijuana, drugs or other controlled substances.
7. Refraining from the use of tobacco in the school buildings, on school buses, on the school grounds and on property immediately adjacent to the school grounds during the school day.
8. Demonstrating sufficient maturity to recognize that school is not the place for displays of affection, and refraining from inappropriate kissing, embracing or other forms of affection.
9. Abiding by the laws of the State of Indiana during school hours and while involved in school activities.

STUDENT REMOVAL FROM CLASS

If a Student is ever removed from class and sent to the office due to discipline reasons, according to IC 20-33-8-9 (c), a behavior plan conference may be conducted with the parents before the student is allowed to return to the class within a timely fashion. The student may not be placed back into the student's original classroom until an administrator meets with the teacher and the parent of the removed student to develop a behavior plan for the student to follow. This meeting must take place within reasonable time of the student's removal from class.

CONTROL AND DISCIPLINE OF STUDENTS

When self-discipline fails, school personnel are authorized to take certain measures reasonably desirable or necessary to help any student, to further school purposes, or to prevent an interference with the educational process in accordance with Board of School Trustees policies and the Indiana Code. In addition to the general interventions listed in Policy 5114.1, the following techniques may be used to address student misbehavior: verbal or written reprimand, assigning a student to a time-out room or area, soliciting parental cooperation, referral to student services or administrative personnel, soliciting the services of juvenile authorities, in-school suspension, out of school suspension and/or expulsion from school.

When working with student behavior problems we will attempt to achieve 3 goals:

- 1. To make sure the student knows why a behavior is inappropriate***
- 2. To work with the student to insure that the behavior will not be repeated***
- 3. To work to gain the cooperation of the student***

SPECIFIC DISCIPLINE INTERVENTIONS AND PROCEDURES

SATURDAY SCHOOL

PURPOSE: The purpose of the Saturday Suspension School is to help students stay in school and provide an opportunity for supervised study. It is very important that the parents and school work together to help the students learn proper behavior and for those students to understand that there are certain consequences for inappropriate behavior. Students may be assigned to the class by the school administration for any infraction of school rules and regulations. In some instances, out-of-school suspension or expulsion will still be used. Saturday school will be served on designated dates set by the administration. Failure to attend Saturday school will result in an immediate one-day suspension. Saturday school rules are listed below:

Saturday School Guidelines:

1. Saturday school will be held in the cafeteria. Seats will be assigned.
2. Saturday school begins promptly at 8:00 a.m. and concludes at exactly 11:30 a.m.
3. Tardiness will result in the assignment of extra time (e.g. detention).
4. Failure to show up for Saturday school will result in a one-day out-of-school suspension.
5. Restroom breaks will be given at the discretion of the Saturday School supervisor.
6. Students may not sleep or communicate in any way during Saturday school. Students who appear to be sleeping (including putting their heads down) or communicating will receive

one warning. Additional incidents will result in the assignment of a detention, detentions, and/or an additional Saturday school.

7. The student's teachers will supply the student with assignments to be completed during Saturday school. The student must bring all the necessary materials (books, paper, pencils, etc.) to complete their assignments. Failure to do so will result in the assignment of additional time (e.g. detention).
8. Any student exhibiting insubordinate, inappropriate, and/or uncooperative behavior will be dismissed and recommended to the administration for further disciplinary action. All school rules, as printed in the Student Handbook, are in effect.
9. In the event bad weather causes the cancellation of school on the Friday prior to Saturday school, Saturday school will be rescheduled.
10. If a student is ill on the morning of Saturday school, the parent must report the absence by calling Hamilton Junior/Senior High School office at 488-2161 or by providing an absence document the following Monday.

AFTER SCHOOL DETENTION

1. Teachers/staff members can assign students detentions for tardies and violations of classroom rules and procedures.
2. Please use the disciplinary referral form to assign detentions. (Send a copy to the school secretary.)
3. The last day to assign an After School Detention will be on the Tuesday prior to the week that the detention is held.
4. Students are given a copy of the written referral stating the disciplinary action taken such as an After School Detention.
5. Failure to serve an after school detention will result in Saturday school.
6. After School Detention takes place Thursdays from 3:05 to 4:05 p.m./other designated time.
7. Students will only be assigned to three after school detentions per semester.
8. Students who have reached three after school detentions will be subject to Saturday school and/or out of school suspension.

SUSPENSION FROM EXTRA-CURRICULAR ACTIVITIES

Participation in extracurricular activities is a privilege carrying with it the responsibility for proper behavior both in and out of school. Students may be suspended from athletic teams, student government, class offices, school clubs, social activities and class activities for the following:

1. They are found to be in violation of the individual rules and regulations of the team or organization;
2. Their school behavior exhibits a lack of self-discipline and unwillingness to cooperate with school rules;
3. They are involved in out-of-school actions which may bring discredit or embarrassment to the school, team or organization.

Students who are suspended from school (either in school or out of school) are also suspended from all extra-curricular activities during the period of suspension.

Students may be suspended from participation in extra-curricular activities by the coach or teacher responsible for the supervision of the event in cases of violation of training or other specific rules of the team or organization and by school administrative officials for inappropriate behavior in or out of school.

SUSPENSION FROM ATTENDING EXTRA-CURRICULAR ACTIVITIES

Building administrators may suspend students from attending extra-curricular activities as a consequence for inappropriate behavior.

IN-SCHOOL SUSPENSION

The principal or his designee may deny a student the right to attend school or to take part in any school function for a period of up to ten (10) school days. Such short-term suspension will be made only after an investigation has been conducted and it has been determined that the action is necessary to help the student, to further school purposes, or to prevent an interference with the educational process. As an alternative to short-term, out of school suspension, a student may be suspended from attending regular classes and activities and reassigned to in-school suspension. Before a student is suspended from school, he/she will be given an opportunity to explain his/her conduct. Parents will be notified of student suspensions. When assigned to in-school suspension, the student is to report to the main administrative office by 8:10 am on the day(s) of the in-school suspension assignment with ALL necessary school materials for the day. Students assigned to in-school suspension are required to work on school assignments throughout the session. A student who is assigned to in-school suspension may receive credit for work assigned during the suspension period provided that it is completed and returned to the teacher upon the student's return to class. No food, beverages, candy or electronic devices are permitted and students are not permitted to talk to each other. If the student fails to cooperate with the supervisor, he/she is dismissed and other disciplinary measures are instituted.

OUT-OF-SCHOOL SUSPENSION

The principal or his designee may deny a student the right to attend school or to take part in any school function for a period of up to ten (10) school days. Such short-term suspension will be made only after an investigation has been conducted and it has been determined that the action is necessary to help the student, to further school purposes, or to prevent an interference with the educational process.

Before a student is suspended from school, he/she will be given an opportunity to explain his/her conduct. Normally, if a student is suspended during the school day, he/she will not be permitted to leave the school building until a parent has been notified of the situation. If a parent cannot be contacted the student will be detained at the school until the normal dismissal time if at all possible. A parental conference is required before a suspended student will be re-admitted to school.

A student who is assigned to out of school suspension may receive credit for work assigned during the suspension period provided that it is completed and returned to the teacher within three days of his/her return to school. If the student is suspended for more than three days, arrangements may be made for picking up assigned work during the suspension period.

EXPULSION FROM SCHOOL

Expulsion refers to any disciplinary action in which a student is suspended from school for a period in excess of ten (10) days; is suspended for the balance of the current semester or current year; or is disciplined in a manner which automatically prevents completion of graduation requirements on time.

Before a student may be expelled, the superintendent of schools must first review the circumstances surrounding each case and if he agrees that further actions are either desirable or necessary, he must provide the students or the parents or guardian with the opportunity to have a formal hearing on the matter. A hearing officer is named by the superintendent who then is responsible for notifying the student and parents of the hearing procedure.

RESPONDING TO BEHAVIOR PROBLEMS

School personnel use the following guidelines when dealing with specific behavior problems. However, it should be kept in mind that each person is unique, and that situations vary in intensity. In addition, the number of times a student has been in trouble during the school year must also be considered in dealing with a problem or situation. While the prescribed penalty will be generally followed, certain situations or set of circumstances may dictate different responses. **Any Indiana law that is broken is subject to law enforcement notification.**

STUDENT DUE PROCESS RIGHTS

Indiana Code 20-33-8-25 provides administrators and teachers with the authority to take disciplinary actions that are deemed necessary to ensure a safe, orderly and effective school environment. Such actions can include student counseling, parent conferences, additional work assignments, rearranging the student’s class schedule, keeping students after school for counseling or additional work, restricting extracurricular activities, removal from class with additional work assigned, assignment to a special course of study, in-school suspension or an alternative educational program, and removal from school transportation services. In addition, the principal or his designee may prevent a student from attending school through suspension or expulsion.

Before a student can be suspended or expelled from school, “due process” is necessary. This term comes from the Fourteenth Amendment to the United States Constitution, which prohibits a state from depriving a person of life, liberty or property without due process of law. Since public school corporations are deemed arms of the state, they are subject to due process requirements.

The amount of due process that must be granted depends significantly on the facts of case and the severity of the proposed punishment. The greater the potential loss, the more extensive the due process procedure must be. A suspension of 10 days or less is considered relatively little property and liberty loss and only minimal due process is required. An expulsion, on the other hand, requires more elaborate procedures.

Indiana Code 20-33-8-7 provides schools with the authority to **suspend** a student from school attendance for a period of not more than ten (10) school days for misbehavior.

PARKING REGULATIONS

1. Students are to always park in the north parking lot. This includes during school and after school activities.
2. Upon entering the parking area, the vehicle is to be immediately parked and under no circumstances are students to be in any vehicle or in the parking area, including during lunch periods, except by written permission by either the principal and/or building administrator. School officials have the authority to regulate parking, driving, and the use of vehicles on or near school property at all times, including authority to restrict use and/or to punish for violations.
3. The first three (3) rows of parking spaces in the main lot are reserved for faculty.

STUDENT DRIVERS

Student drivers must have the following on file with the office.

1. Name of student and driver's license number.
2. Name of parent or guardian.
3. Make of automobile and year on all cars that may be driven.
4. License plate number on all cars that may be driven.
5. Students must purchase a parking permit and have it displayed on their rear view mirror.
6. Parent consent for random drug testing (renewed at the beginning of each school year).

DRUG TESTING PROGRAM

A STATEMENT OF NEED AND PURPOSE

A program of deterrence will be instituted as a pro-active approach to a drug free school. Through driving or participation in extra-curricular activities, students using illegal drugs pose a threat to their own health and safety, as well as to that of other students. The purpose of this program is three fold: (1) to provide for the health and safety of students; (2) to undermine the effects of peer pressure by providing a legitimate reason for students to refuse to use illegal drugs; and (3) to encourage students who use drugs to participate in drug treatment programs. Students involved in extracurricular activities need to be exemplary in the eyes of the community and other students. It is further the purpose of this program to prevent students from driving to and from school or participating in extracurricular activities while he/she has drug residues in his/her body, and it is the purpose of this program to educate, help, and direct students away from drug and alcohol abuse and toward a healthy and drug free lifestyle. It is designed to create a safe, drug free, environment for students and assist them in getting help when needed. No student shall be expelled or suspended from school as a result of any verified "positive" test conducted by his/her school under this program other than stated therein.

REASONABLE SUSPICION

Hamilton Community School Corporation reserves the right to test any student for reasonable suspicion of drugs, alcohol, and intoxicant usage. Documented physical symptoms, observations or information implicating the use of alcohol, drugs, or intoxicant may qualify as reasonable suspicion. Other factors will include, but are not limited to excessive discipline problems and/or excessive absences from school. Such testing will fall outside this program.

SCOPE

Participation in extracurricular activities is a privilege. This policy applies to all Hamilton Community School Corporation students in grades 6-12 who wish to participate in extracurricular activities that are listed below:

HAMILTON COMMUNITY SCHOOLS AND THE HAMILTON ATHLETIC DEPARTMENT FEEL THAT SPORTSMANSHIP IS AN IMPORTANT PART OF THE ENTIRE EDUCATIONAL PROCESS!

“TO ANY ATHLETE”

There are little eyes upon you, And they're watching night and day.
There are little ears that quickly, Take in every word you say.
There are little hands all eager, To do anything you do.
And little children who are dreaming, Of the day they'll be like you.
You're the little children's idol, You're the wisest of the wise.
In their little minds about you, No suspicions ever rise.
They believe in you devoutly, Hold all that you say and do.
They will say and do, in your way, When they're grown up like you.
There are wide eyed little children, Who believe you're always right.
And their eyes are always opened, And they watch day and night.
You are setting an example, Every day in all you do,
For the little ones who are waiting, To grow up to be like you.

SPORTSMANSHIP

Hamilton Community Schools continues to address issues pertaining to sportsmanship as they relate to athletes, coaches, parents and spectators. A true sport shows a combination of positive values and attitudes.

Sportsmanship is an honorable quality that desires to be courteous, fair, and respectful. It is a blending of cheers for the “home team” and applause for the “visitors”, observing the letter and spirit of the rules, and showing consideration for opponents. It is playing by the code of conduct “treat other participants and spectators as you would want to be treated.”

Fundamentals of Sportsmanship:

- Show respect for the opponent.
- Show respect for the officials.
- Know, understand, and appreciate the rules of the contest.

- Exercise self-control at all times.
- Recognize and appreciate skill in performance regardless of affiliation.

The lessons of good sportsmanship--playing the game hard but fair, winning humbly, losing gracefully, developing respect for discipline and authority, playing and living by the spirit as well as the words of the rules--are not confined to those who play the game.

EVERYONE should see the full impact and potential of school athletics as an educational experience. This is a challenge that we must pursue. Spectators should realize that an admission ticket is a privilege to observe a contest and support an activity. It is not a license to verbally assault others.

SECTION I - GENERAL INFORMATION AND POLICIES

A. INTRODUCTION:

1. You, as student-athletes, are generally the leaders of student opinion, and your followers are easily impressed. A true Marine is a well-groomed athlete. He/She is the best student and citizen that he/she is capable of being. He/she is a leader setting patterns of conduct and citizenship, rather than a follower who merely conforms to regulations. In competition and practices he/she gives more than others.
2. Participation in athletics means more than competition between two teams representing different schools or two individuals. It teaches fair play, sportsmanship, and understanding and appreciation of teamwork. It also teaches that quitting means failure while hard work means success.
3. Sportsmanship is contagious. It is hard for spectators to boo when they see the team they are supporting behaving with courtesy and good manners toward their opponents and officials. Fans are usually better sports when they see the members of their team quick to render a helping hand to an injured opponent accepting the official's rulings with politeness whether just or unjust, shaking hands before a game, and congratulating their rival on their performance after game, win or lose.
4. In short, we believe that the real MARINE ATHLETE is the best athlete in the STATE.
5. Participating in interscholastic athletics is a privilege, not a right.

B. SELECTION OF ATHLETES:

1. Players and managers will be selected on the basis of dependability, attitude, sportsmanship, determination, humility, obedience, loyalty, punctuality, neatness, leadership, honesty, courtesy, integrity, personal appearance, cooperation, cleanliness of speech, scholastic record, and athletic ability as determined by the Coaching Staff.

C. SCHOOL SPIRIT:

1. A good athlete will back his/her school with pride. He/she will be a loyal fan for sports of games which he/she does not participate. He/she will think of his/her school and teammates rather than his/her own personal interests.
2. A good athlete will do everything in his/her power to bring glory and honor to Hamilton High School, its athletic program, and the community.

D. PARTICIPATION and DUAL PARTICIPATION:

1. All athletes are strongly encouraged to participate in all sport seasons. The physical considerations, camaraderie, and spirit of participating in one sport enhance another. For example, winter athletes should be participating in a fall sports. Spring athletes should be participating in a winter sport.
2. Participation of student-athletes in two sports during the same season is strongly discouraged. However, a student-athlete may participate in participate in two sports during the same season if he/she meets the following requirements:
 - a. Both coaches involved must approve of the Dual Sport Participation.
 - b. The athlete must select a primary sport.
 - i. Primary sport competitions will supersede practices for the secondary sport.
 - ii. If contests in both sports exists on the same day, the primary sport takes precedence, unless the secondary contest is a conference tournament or the state tournament.
 - c. A schedule must be developed prior to the beginning of the contest season that specifically identifies practice and contest attendance and resolves conflicts.
 - d. The schedule must be approved by both coaches, the student-athlete, and the parent/guardian.
 - e. If the student-athlete commits a code violation the consequences will be served in both sports.
3. The coaching staff for said sport has the right to determine their roster. If a player, in the staff's opinion, does not possess the necessary skill level to compete in inter-school contests, the staff may dismiss said individual from the sport.

G. DROPPING A SPORT:

2. Any athlete quitting a team will forfeit his/her award in that sport. If he/she quits one team during the season, he/she may not try out, condition, or attend open facility for another team until the season of the sport he/she has quit has ended.

H. INSURANCE:

1. Each athlete is responsible for their own insurance coverage. The school does not have an insurance plan for the athletes (except the IHSAA catastrophe plan).

SECTION II - CODE OF CONDUCT

A. HAMILTON ATHLETIC (EXTRA-CURRICULAR) TRAINING RULES:

Training rules are to be followed by all Hamilton student athletes in grades 5-12 that participate in a sport, during the entire calendar year. After a student athlete's 8th grade year, his/her previous record is forgiven and the student athlete is given a "fresh" start at the beginning of their 9th grade year.

Statement of Philosophy

Athletic Competition should be fun, embody high standards of sportsmanship, and develop good character and other important life skills. Essential elements of character building are intrinsic in the concept of sportsmanship and the Six Pillars of Character: trustworthiness, respect, responsibility, fairness, caring, and citizenship. The highest potential of sports is achieved by learning the T.E.A.M. approach (teach, enforce, advocate, and model) and committing to the ideal of pursuing victory with honor. Good-faith efforts to honor the words and spirit of the Hamilton Junior-Senior High School Athletic Code of Conduct will improve the quality of our programs and the well-being of all the students at HCS.

This code will deter students from making poor decisions while providing an opportunity for rehabilitation and fairly administered consequences if the student violates the code of conduct. ALL STUDENTS PARTICIPATING IN EXTRA-CURRICULAR ATHLETIC ACTIVITIES WILL BE GOVERNED BY THIS CODE.

Mandatory Meetings

Students wishing to participate in extra-curricular athletic activities must attend one mandatory meeting each year, in which this athletic code will be explained. Any financial obligations associated with such counseling will be the responsibility of the student and/or parent-guardian. However, financial assistance may be available through the drug testing funds and organizations.

- C. Violations not specifically covered in the Athletic Code

The Hamilton Jr./Sr. High School Administration will determine consequences for possible code violations not specifically addressed in this code of conduct. Violations considered will be those actions which violate the high standards of moral and ethical behavior expected of HCS Athletes. Potential violations and consequences will be reviewed with the athletic council.

- D. Additional Clarification and Enforcement

If a student commits a violation of the Athletic Code while not participating in a sport, consequences will be assessed at the beginning of the next sport in which they choose to participate. In order for the suspension to be validated, the student must complete the sport season in good standing. 1. On trips, athletes are representing themselves and their families, their school, their team, their coaches, and their community. They are to conduct themselves at a high level of standard at all times.
2. There is to be no horseplay aboard the bus, and the directions of the coaches are to be followed.
3. When entering restaurants or other public places, the athletes are to be quiet and orderly. They should follow accepted rules of etiquette.
4. The dressing rooms and equipment of the host school are to be treated with care and respect. Any breaking or defacing, etc., which is purposely done, will result in an appearance before the Athletic Director and possible suspension from the team. A good athlete is gracious in defeat and victory and respects the property of the opponent.

WORKING ATHLETES:

1. Work should not interfere with practice or athletic contests. Work is not an acceptable excuse for missing practices or games, a parent-coach conference concerning work at home being the only exception.

2. If work and participation in athletics conflict too much, the athlete may be required to make a choice.

SECTION III - SPECIFIC CAUTIONARY STATEMENTS AND ATHLETIC TRAINING

Participation in athletics is not without a price. Hamilton Community School athletes must sacrifice much time, effort, and just plain hard work in order to find success in their athletic endeavors. Unfortunately, participation in athletics can sometimes result in the development of injuries and conditions that can limit the athlete's performance. These types of injuries can be the source of great frustration for the athlete and can often result in loss of playing time in order for the injury to heal. In order to minimize the effects of athletic injuries, the Hamilton Athletic Department and Dekalb Health work with Hamilton student athletes to prevent, treat, and rehabilitate injuries so the athlete can safely return to participation with minimal delay. Hamilton Community Schools is fortunate to have a Certified Athletic Trainer to coordinate our training program. She works directly with the athletes on a daily basis developing conditioning and injury programs, treating and rehabilitating injuries, and serving as a liaison between the parents, coaches and school administration.

The participation in interscholastic athletics carries a level of risk. Every effort is made to insure the safety and well-being of our student-athletes. Even with these efforts, all our sports carry inherent risks.

WHY DO WE CHARGE ADMISSION TO ATHLETIC CONTESTS

Admission is charged to athletic contests at Hamilton Community Schools in the sports of baseball, basketball, softball, track and field, volleyball and soccer. The collection of admission serves as the primary source of revenue for the athletic department. The state of Indiana, unlike surrounding states, provides tax dollars only for coaches' stipends, building of facilities and transportation. No school monies are used for coordinating any part of the athletic program at Hamilton Community Schools. The Athletic Department must generate revenue for uniforms, equipment and operating expenses through gate receipts, concession sales and other fund-raising activities.
