What is the High School Financial Account?

The High School Financial Account is an account used to support student activities throughout the school. This account is used for the benefit of students in numerous ways. Throughout the 2021-2022 school year, the High School Financial Account has helped fund the following:

- Quiz team registrations
- FCCLA chapter dues
- Student books and registration for the Youngstown State English Festival
- Student meals for Ram Crews (PBIS) leadership training
- Student registration for the Defiance College Leadership Conference
- Snacks and meal for students taking the ACT
- Art supplies for the county snow plow competition

As we emerge from COVID restrictions and are looking forward to future guest speakers and assemblies, this account will also provide funding for these and other events that support the student body. Relevant topics ranging from mental health to goal-setting can encourage, inspire, and motivate our students in new and unique ways. Speaking costs vary greatly, from a few hundred dollars to a few thousand, depending on topic and speaker notoriety. The High School Financial Account will provide the funding necessary to bring these added encounters to our students' high school experience.

Currently, the High School Financial Account is replenished through commission for doing business with LifeTouch and through surveys completed by students throughout the school year.

Please consider supporting THS students as I build additional funding for this account in order to meet the growing needs of our students and further develop the culture of our building.

Sincerely,

Alex Nafziger
