All staff report both Team Hemlock and Team Huskies day. Instructional, administrative, custodial, maintenance, and secretarial staff reports on remote K-12 days.

Students are divided into two groups of approximately 50% of the student body to reduce the number on campus for the start of the school year as we work through training and preparing all of us (students, parents, teachers, and staff) for different expectations from what we have been previously accustomed to. Team Hemlock will be students with the last names A-K and Team

Subject to Change

Huskies will be students with the names L-Z. Households with more than one last name that would be placed into two groups should contact their child's building principal.

During the school week, when students are not reporting physically they will be doing remote learning online utilizing Google Classroom as supported by their classroom teachers. In most cases with little exception (auto shop, science, culinary arts) instruction will be synchronized whether a student be remote or present on campus.
