

CHROMEBOOK LOGIN PROCESS

Step 1 when opening your Chromebook if it does not automatically start up you can press the power button located in the upper right corner (Button location may be in a different location on different models)

Step 2 Make sure you are connected to home WiFi or mobile Hotspot. WiFi connections are located in the bottom lower section of the screen. Once device is connected – proceed to login. (Please note in some cases the WiFi login screen will show on the center of the screen) – Example 1

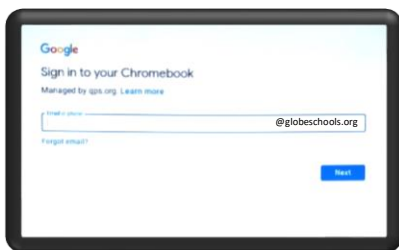

Example 1

If you are using a GUSD Hotspot the password is located on the Hotspot.

Step 3 When signing into your Chromebook the student will enter first.lastname the district domain name of [@globschools.org](https://globschools.org) will automatically be filled in for you. On the next screen enter your password. YOU SHOULD NOW BE SIGN IN TO YOUR CHROMBOOK.

THINGS TO REMEMBER ABOUT CHROMEBOOKS

- THEY SELF UPDATE
- THEY HOLD A BATTERY CHARGE FOR UP TO 8 HOURS
- THEY ARE VIRUS FREE
