2020

Summary of Requirements for COVID-19 Plan

These requirements formed the foundation our instructional and operational plan

School Operations and Logistics

Physical distancing requirements are in place. We must maintain classrooms with 35 square feet per person (including staff). We must work to keep students six feet apart during the day, with consistent seating and desks.

Volunteers and non-essential **guests** are not allowed in school buildings during the school day. Essential visitors must be screened prior to entry and must wear masks.

Students must be kept in stable **cohorts** as much as possible.

Students will be assigned **entry/exit doors** to limit crossover.

High School Students will use one way flow to limit crossover.

Buildings will be **cleaned** multiple times per day and **sanitized** each day.

Health and Safety

Students and staff exhibiting symptoms must stay home. While students are home, they are welcome to participate in the online option. Students may flow in and out of the online opportunities as needed.

Students will be **visually screened** upon entry, students exhibiting symptoms will be assessed, **temperature** checked, and sent home if necessary.

Students and staff are required to wear face covering

Students and staff will **wash or sanitize hands** upon entry and when exiting the building at numerous times during the day.

Transportation

One of the largest challenges in the guidance is transportation. Requirements for transportation are:

- Visual screening for symptoms as students enter the bus each day.
- Drivers must wear masks or face shields.
- We must try to keep passengers at least three feet apart.
- We must try to keep passengers six feet from the bus driver.

Key Factors to Consider:

Teachers move to the students: Elementary will have the teachers they expect to welcome them to school. Music will be in the regular classroom.

Entry/Exit: In addition to staying with their assigned cohorts all day, students are assigned different entry/exit doors.

Meals will be served in classrooms: Elementary students will not share cafeteria space. Some high school cohorts will eat in the cafeteria.

Recess: Cohorts of K-1, 2-3, 4-5, and 6 will be employed for recess.

Instructional Options

On-Site Hybrid

Students in grades K-6 will be assigned to a teacher and will remain with this teacher and this group of students all day. The classroom will be partially streamed to online students so students at home may participate with peers.

Students in grades 7-12 will be assigned to a cohort. Students will participate in a modified block schedule to reduce the number of transitions.

Students K-12 attend school Monday-Thursday. Friday is intervention time for students in need of additional help. All students will receive character, community, citizenship, and career instruction on Friday aligning with Imbler Charter School's guiding principles.

Online

It is important to note that online school is not the same as it was during distance learning. It will be more rigorous, it will be more scheduled and it will be graded.

Online students in grades K-6 will participate with their classroom and their teacher throughout the day utilizing in class cameras as well as complete assignments through Google Classroom.

Students in grades 7-12 will have a set schedule, and they will participate in Google Classroom with their teachers. Each secondary teacher may have on-line students as well as on-site students.

Online students are still part of the full Imbler School District. They may participate in athletics and activities. They may attend school functions and be recognized for awards, etc.

On-Site Hybrid students may attend on-line school for part of their school year. If quarantine is necessary or other situations make on-site school unavailable for a period of time, students will be able to maintain their studies on-line.

Support Services Continue

When allowable,
school athletics
and activities
resume

Counseling Services

will continue using
small groups and
virtual meetings.

We need your feedback!

This is a **DRAFT** plan. It will not be finalized until we've heard from you. Please read through the guidance, and the plans and then share your best thinking with us. Together, we will make 2020-21 an amazing year for students. An unusual year for sure, but an amazing one.
