

# RCAPS AT-HOME SCREENER

COVID-19 affects different people in different ways.  
We are asking you and your family to use the  
symptom checker below when considering if your  
child should attend school.

## IN THE LAST 24 HOURS HAS YOUR CHILD HAD...

- Temperature 100.4 degrees Fahrenheit or feels feverish
- Sore throat
- New uncontrolled cough that causes difficulty breathing (for students with chronic allergic/asthmatic cough, a change in the cough from baseline)
- Diarrhea, vomiting, or abdominal pain
- New onset of severe headache, especially with a fever
- Close contact/potential exposure

## OR IN THE PAST 14 DAYS HAS YOUR CHILD:

- > Had close contact (within 6 feet of an infected person for at least 15 minutes) with a person with confirmed COVID-18; OR
- > Had close contact (within 6 feet of an infected person for at least 15 minutes) with a person under quarantine for possible exposure to COVID-19; OR
- > Had international travel or have been on a cruise

## IF YOU ANSWERED "YES" TO ANY OF THE ABOVE...

**Keep your child home from school.**

If the answer is YES to any symptoms question and YES to any close/potential exposure questions, call the school as soon as possible to let them know the reason your child won't be there today. Call your healthcare provider right away. If you don't have one or cannot be seen, go to [www.mi.gov/coronavirustest](http://www.mi.gov/coronavirustest) or call 2-1-1 to find a location to have your child(ren) tested for COVID-19.

## YES TO SYMPTOMS, BUT NO TO CONTACT EXPOSURE

**Your student may return based on the guidance for their symptoms (see "Managing Communicable Disease in Schools"):**

- \*FEVER: at least 24 hours have passed with no fever, without the use of fever-reducing medications.
- \*SORE THROAT: improvement (strep throat: do not return until at least 2 doses of antibiotics have been taken)
- \*COUGH/SHORTNESS OF BREATH: improvement
- \*DIARRHEA, VOMITING, ABDOMINAL PAIN: no diarrhea or vomiting for 24 hours
- \*SEVERE HEADACHE: improvement

**DISCLAIMER: THIS SCREENING TOOL IS SUBJECT TO CHANGE BASED ON THE LATEST INFORMATION ON COVID-19.**
