To the Students of The Baptist Preparatory School:

Our goal for the upcoming year is to provide optimal opportunities for all of our students. The purpose of the Student Activities Handbook is to provide information about the many co-curricular activities available at The Baptist Preparatory School.

Our experience tells us that students who take advantage of our dynamic and challenging programs will find high school a meaningful experience.

If you find questions that are not answered in the booklet, please direct them to June Haynie, Principal; Steve Miller, Athletic Director; or Bernie Cox, Assistant Principal.

Sincerely,

June Haynie
Principal

Steve Miller
Athletic Director

Bernie Cox
Assistant Principal

Statement of Beliefs on Multiple Activity Participants

Participation in multiple extracurricular activities can contribute to a more complete and well-rounded education of the whole student.

Students who choose to participate in multiple activities should expect to make some additional sacrifices that students in only one activity may not have to make.

Parents, students, coaches, directors, and advisors should communicate with each other from the onset and plan proactively to reduce the inevitable stress and strain, both physically and otherwise, on students who choose to participate in multiple activities.

Coaches, directors, and advisors, and parents should help students make responsible time management and planning decisions, especially with regard to curricular work. Students should advise their parents about the agreed upon plan to manage the multiple activities and continue to inform their parent of any conflicts or issues which may arise in the implementation of the plan.

As a general rule, contests and performances should take priority over practices and rehearsals. Reasonable exceptions may be made through communication between coaches, directors, and advisors, depending on a student's role and importance to other students involved in an activity.

Extracurricular Activities Eligibility

Academic Requirements

1. Student will maintain a passing grade in all classes.
2. Student will maintain a 2.0 grade average for all classes.

Procedures of Accountability

1. Sponsors of each co-curricular activity (play, cheerleading, music, athletics, etc.) will check each student's academic progress at the end of each nine week grading period.
2. Students who do not meet the Academic Requirements as stated above in this section will become ineligible to continue participating in all extracurricular activities for four and one-half weeks. At the end of the four and one-half week participation suspension or at the time of the mid-quarter reports, the student's progress will be rechecked. If the student has corrected his/her deficiency in the Academic Requirements, he/she may regain his/her eligibility.
3. Students who become ineligible for extracurricular activities may, at the discretion of the sponsor or principal, be required to fulfill additional requirements to remain in the organization on an ineligible basis. These requirements may include, but are not limited to, study hall outside of school hours, assignment sheets, weekly progress reports, etc.

These extra requirements are intended to provide additional academic supervision, accountability, and motivation for the student to eliminate poor academic performance and regain eligibility for co-curricular activities.

Clarifications

1. At the end of the second and fourth quarters, the academic requirement will be calculated according to the semester grade. Nine weeks grades will be used at the end of the first and third quarters.
2. If, due to extenuating circumstances, a conflict arises between The Baptist Preparatory School academic requirement and the Arkansas Activities Association scholarship requirement, the AAA requirement will take priority, if it is more restrictive in nature.
3. Students who have been declared ineligible at the end of the fourth quarter may regain eligibility for the first quarter of the following year by meeting all requirements of AAA during the summer through accredited courses as described in the AAA and The Baptist Preparatory School handbooks.
4. New students to Baptist Prep will be exempt from the Baptist Prep academic requirements for the first nine weeks of school, if they are eligible according to the AAA academic requirement. At the end of this period, new students will be held accountable in meeting Baptist Prep academic requirements.
5. Students may not try out for certain activities or teams (play, cheer, etc.) if the student

was ineligible at the most recent 9 week or semester grade (as stated in Clarification #1).
