Chromebook Distribution and Agreements

Technology Implementation and Management Handbook for Parents and Students

Technology integration is an integral part of the Warren County Schools Strategic Plan. Transformative technologies will ignite a joy of learning in our students and inspire them to become 21st century learners. Students will work collaboratively on authentic problem and project-based activities which enhance creativity, critical thinking, communication, and problem solving. Through personalized, authentic, and collaborative experiences, our students will develop the skills to prepare them for a future that we can only imagine.

Technology Goals for Students

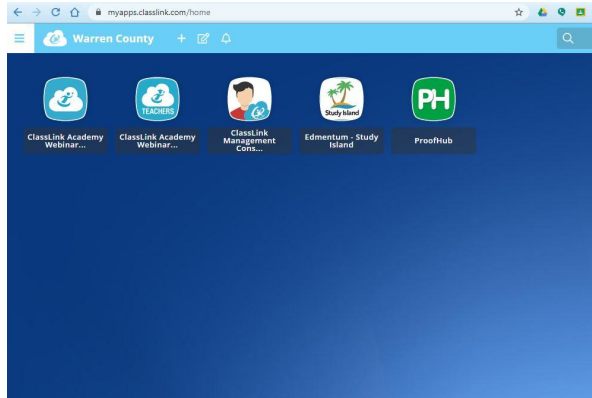

- 1. Improved Student Learning:** Through instructional strategies that apply best practices in teaching with technology and a variety of resources which support the curriculum, student learning will improve.
- 2. Meaningful Student Engagement:** We will offer technology to make school more engaging and relevant for our students that will support meaningful and more challenging work.
- 3. 21st Century Skills:** We will ensure that students will be engaged which will prepare them for a successful future.
- 4. Project and Problem-based Learning Opportunities:** Through personalized, authentic, and collaborative experiences, students will solve problems and demonstrate their learning through project-based activities.
- 5. Equity of Access:** We will bridge the digital divide by providing all students with access to technology tools and resources for anytime, anywhere learning.
