ATTENDANCE & TARDINESS

Reference: Policy 2310 and Regulation 2310

Students are encouraged to attend school daily and to remain in school for the entire daily session. Students benefit most when they are in class and can benefit from interaction with their teachers and other students. In addition, regular attendance in class promotes habits of punctuality, responsibility and self-discipline.

Attendance Policy

1. All assignments will be made up from any absence as given by the teacher/administrator. Students will be allowed one day to make up work for every day absent, with a maximum of five days.
2. When possible, assignments for make-up work will be asked for in advance. Students who will be leaving school early due to school activities must get assignments from

teachers **before** leaving on school activities (i.e. field trips, sporting events, etc.) or they will not be allowed to participate.

3. If a student is suspended, he/she will be held accountable for work missed and allowed to turn in work for credit upon their return to school.
4. Students are not allowed to leave school without a request from their parent and approval from administration.
5. Leaving school during the day without permission from an administrator is considered truant. Parents must accompany students to the principal's office to be remitted to classes. Re-admission is possible only after disciplinary action, most likely in-school suspension, has been completed and the parent/guardian and student have satisfactorily met with the principal.
6. Excused and Unexcused Absences - Parents need to call the school in the morning of the day a student is absent for that absence to be considered excused. If the student is sick, has a doctor appointment, funeral, or with the parent he/she will be considered **excused**.
***If no phone call is made, the student will be considered "unexcused."**
7. Upon **5 total days absent for the semester**, the student will begin making up school time either after school, before school, or during Saturday school. The Principal in application of this policy will consider extenuating circumstances. Letters will be sent home when students are nearing the "excessive" absence limit. If the time or date appointed cannot be fulfilled as assigned, it is the parent's responsibility to contact the principal and make satisfactory arrangements. Failure to do so could result in the matter being turned over to juvenile authorities. Continual excessive absences may be referred to the juvenile authorities at the discretion of the administration.
8. **Students must be in school a full day on the day of an activity to be eligible to participate/attend in any school related activity that same day.** Exceptions may be reviewed with the administration in advance. These include doctor and dentist appointments with a written excuse from the doctor and/or dentist. Students consistently tardy or absent after a student activity will be considered for disciplinary review by the administration. If an activity falls on a weekend, the student must have attended the preceding scheduled school day.
9. **Students may not participate or attend an activity on a day they have been suspended or in ISS (In School Suspension).**
10. **Students missing 20% or more of the year (approximately 30 days) will be under consideration for retention** and promotion to the next grade level will be reviewed before the administration.

Tardy Policy

Students who are tardy for class will be placed in the "Intervention/White" Level during Extreme Exploratory time at the end of the day. They will remain at such level for as many days as they

have tardies. If students have more than **three** tardies, they will begin staying in after school detention for each tardy beyond three.

BUS INFORMATION

Only regular bus students (assigned according to their home address) may ride the buses to and from school. On some buses, seating is extremely limited. If another child, not regularly assigned to a bus, is to ride to a friend's house, etc., a note is to be sent with your child to give to the bus driver. These students fall under the same behavioral guidelines as regular bus students. "EXTRA" students will **NOT BE ALLOWED TO BOARD THE BUS** without a note from the parent. **Regular** bus students not riding the bus will need a note stating a change in routine.

BUS RULES AND REGULATIONS

- To insure safety, the driver must be totally in charge. Passengers must respond promptly to instructions given.
- The use of tobacco, food or drink on the bus is prohibited. Animals and oversize objects, as well as glass containers are not permitted.
- Passengers must observe classroom conduct. Ordinary conversation is permitted. Horseplay, unruly behavior, abusive and obscene language or gestures are unacceptable.
- Keep aisles and stepwell clear at all times
- Never extend any portion of your body out bus windows.
- Do not attempt to get off or move about while the bus is in motion. Always remain seated until it stops.
- If you cause damage to the bus, you or your parents must pay for that damage.
- Regular schedules must be observed. The bus cannot wait for tardy passengers. Pupils must be on time.
- Wait at the proper stop. Never stand in the roadway.
- If you cross the street or road to board, wait for the driver's signal. Cross well in front of the bus.
- Observe driver's instructions when you unload. If you cross the street or road, wait for signal from driver and cross in front of the bus
- Drivers will not unload passengers at places other than the regular evening procedures without a note.
- Failure to follow these regulations may result in suspension from transportation.

STUDENTS AND PARENTS: Please review the above requests, as these will be the basic rules of conduct for your bus transportation. For the safety of all concerned, any repeat offenders will be subject to the suspension or permanent removal of the bus transportation.

BUS DISCIPLINARY GUIDELINES:

- **First Offense**—Conference with student by driver. (Warning)
- **Second Offense**—Driver contacts parents and reports act to principal.
- **Third Offense**—Three to ten day suspension of bus riding privilege and/or from school, depending upon nature of the incident. Conference with principal, driver, parent and student.

Principals have the authority to impose more severe penalties upon the student if the conduct so warrants, depending upon the nature of the incident.

CELL PHONES, ELECTRONIC DEVICES & TELEPHONE CALLS

Electronic Communication Devices are prohibited in the school setting, including locker rooms, unless approved by the administration or teacher. These include but are not limited to personal PDA’s, cell phones, pagers, CD players and other musical playing devices and headphones. Upon entering the school in the morning, students are not permitted to use cell phones for phone calls, listening to music, playing or taking videos, or any other uses. They are to be placed in the locker until the final bell rings at the end of the school day. For emergency purposes, students may have such items stored in their locker, but they are not to be carried in pockets, seen, or used during school (this includes before the beginning and final bells ring).

If students are seen using their phone or other electronic device without staff consent the consequences will be as follows:

- 1st offense: Student is given a warning and will return the phone to their locker.
- 2nd offense: The phone will be turned in to the administrator and can be picked up at the end of the school day.
- 3rd offense: The phone will be turned in to the administrator and will need to be picked up by a parent or guardian.

A student may use their cell phone in the school offices for emergency purposes with approval by teacher or office personnel.

When an **emergency** exists, students may be called to the telephone at any time. Students will be permitted to make calls before school, during lunch, or after school. Messages will be delivered to students at the end of the class period or last hour.

DISCIPLINE – SCHOOLWIDE POSITIVE BEHAVIOR SUPPORT (PBS)

Beginning August of 2010, the Mound City R-2 School District implemented the Missouri Schoolwide Positive Behavior Support (PBS) model to establish a schoolwide discipline plan to enable the goals of the district to be achieved, especially the goals of student achievement.

The PBS process is designed to educate all children on appropriate social skills and to prevent inappropriate behavior by teaching and expecting all students to be safe, respectful, and responsible learners. This defining, teaching, and supporting of appropriate student behavior creates a positive school environment for all.

We believe in this process and its benefit for children and encourage parents to be a part of Positive Behavior Support (PBS) at Mound City. ***A separate parent handbook will be provided to parents to further outline and define the parts of the PBS process.***

Purpose: The staff at Mound City R-2 agrees the purpose of PBS is to inform and communicate ways to be respectful and responsible in a safe learning environment.

The staff has identified three target behaviors for all students PK-12: respect, responsibility, and safety. Furthermore, each of these areas have been defined into expected behavior in multiple settings (Matrix of Expected Behaviors – Appendix A). Students will be taught the behavior expectations and the district will reinforce these target behaviors with positive supports (Continuum of Support – Appendix B).

Should students choose inappropriate behaviors, their behaviors will be evaluated to determine if it is a MINOR misbehavior or a MAJOR misbehavior (See Minor/Major definitions – Appendix C).

Minor Misbehavior: Students exhibiting minor misbehaviors will be redirected to demonstrate and practice appropriate behaviors. **Upon the student exhibiting three minor behaviors in a day, the student will be sent to the principal, and it will then be considered a major.**

Major Misbehavior: Students exhibiting major misbehavior will be sent immediately to the principal whereby the policies and procedures outlined by the Board of Education will be implemented. Those procedures are as follows:

BULLYING

The District is committed to a safe and civil educational environment for all students, employees, volunteers, and patrons free from harassment, intimidation or bullying. “Harassment, intimidations or bullying” means any intentional written, verbal, or physical act, including but not limited to one shown to be motivated by any characteristic, (race, color, religion, ancestry, national origin, gender, sexual orientation or mental or physical disability) , or other distinguishing characteristics, when the intentional written, verbal, or physical act:

- Physically harms a student or damages the student’s property; or
- Has the effect of substantially interfering with a student’s education; or
- Is so severe, persistent, or pervasive that it creates an intimidating or threatening educational environment; or
- Has the effect of substantially disrupting the orderly operation of the school.

Nothing in this section requires the affected student to actually possess a characteristic that is a basis for the harassment, intimidation, or bullying. “Other distinguishing characteristics” can include but are not limited to: physical appearance, clothing or other apparel, socioeconomic status, gender identity, and marital status. Harassment, intimidation, or bullying can take many forms including: slurs, rumors, jokes, innuendos, demeaning comments, drawings, cartoons, pranks, gestures, physical attacks, threats, or other written, oral, or physical actions. “Intentional acts” refers to the individual’s choice to engage in the act rather than the ultimate impact of the action (s).

This policy also prohibits cyber bullying, which is bullying through communication technologies-email, cell phones, pagers, text messages, instant messages, defamatory personal websites, personal polling sites, or a combination of these- to support deliberate, repeated , and hostile behavior by an individual or group with the intention of physically or psychologically intimidating others.

➤ **Bullying Incident Report Form may be found at the back of the handbook**

STUDENT DISCIPLINE (COPY FROM BOE POLICY)

Policy 2600

The District has the authority to control student conduct, which is prejudicial to good order and discipline in the school as provided by state law. School officials are authorized to hold students accountable for misconduct in school, on school property, during school-sponsored activities and for conduct away from school or in non-school activities that affect school discipline.

Students forfeit their right to a public school education by engaging in conduct prohibited in Regulation 2610 and related provisions. Disciplinary consequences include but are not limited to, withdrawal of school privileges (athletics, intramurals, student clubs and activities and school social events), the reassignment of the student to another school, removal for up to ten (10) school days by school principals, extension of suspensions for a total of one hundred eighty (180) days by the Superintendent, and longer term suspension and expulsion from school by the Board of Education.

The District will provide annual in-service training to all employees concerning the District’s discipline regulations and their implementation. Annual training will also include, but will not

be limited to, approved methods of dealing with school violence, discipline of students with disabilities and with the requirements of student confidentiality.

Behavioral Expectations

Regulation 2610

The discipline code set out in this regulation is intended to be illustrative but not an exclusive listing of acts of misconduct and the consequences for each. Misconduct that is not specifically listed in this regulation may be deemed to warrant discipline up to and including expulsion following provision of all due process procedures. In addition, the disciplinary consequence listed for each offense may be increased or decreased by the Administration or the Board of Education due to mitigating or aggravating circumstances.

Copies of this regulation as well as the District's corporal punishment policy will be provided to each student at the beginning of each school year. Copies of these documents will also be available for public inspection during normal business hours in the Superintendent's office.

All students attending school in District schools will be expected to accept the obligation and responsibility to attend school on a regular basis and to comply with the District's discipline code set forth in Regulation 2610. Those students who choose not to fulfill their responsibilities at school will be held accountable for their conduct. Consequences for individual acts of misconduct are calculated to punish the student; to deter future misconduct; and to provide a safe and positive environment in which students can maximize their learning potential.

SEARCHES BY SCHOOL PERSONNEL

Policy 2150

School lockers and desks are the property of the Board of Education and are provided for the convenience of students, and as such, are subject to periodic inspection without notice, without student consent, and without a search warrant. The lockers and desks may be searched by school administrators or staff who have a reasonable suspicion that the lockers or desks contain drugs, alcohol, material of a disruptive nature, stolen properties, weapons, items posing a danger to the health or safety of students and school employees, or evidence of a violation of school policy. In addition, the Board of Education authorizes the use of trained dogs to sniff lockers or other school property to assist in the detection of the presence of drugs, explosives, and other contraband.

Students or student property may be searched based on reasonable suspicion of a violation of District rules, policy or state law. Reasonable suspicion must be based on facts known to the administration, credible information provided or reasonable inference drawn from such facts or information. The privacy and dignity of students shall be respected. Searches shall be carried out in the presence of adult witnesses, if such witnesses are available. Students may be asked to empty pockets, remove jackets, coats, shoes and other articles of exterior clothing for examination if reasonable under the circumstances.

Students are permitted to park on school premises as a matter of privilege, not right. The school retains the authority to conduct routine patrols of the parking lots. The interior of a student's automobile on school premises may be searched if a school administrator has reasonable suspicion to believe that illegal, unauthorized or contraband items, or evidence of a violation of school policy is contained inside the vehicle.

Law enforcement officials shall be contacted if the search produces a controlled substance, drug paraphernalia, weapons, stolen goods or evidence of a crime, in any case involving a violation of law when a student refuses to allow a search, or where the search cannot safely be conducted. Parents may also be contacted. School officials may appropriately discipline a student who refuses to submit to a search.

HAZARD PLAN

Because of September 11, 2001, our district has developed a Hazard Plan in compliance with our nation's Homeland Security response program to protect our student to the greatest possible degree in the event of terrorist activity involving radiological, chemical, or biological incidents.

Radiological and chemical incidents will require the rapid evacuation of the building and this will be accomplished quickly. If transportation of students is required, school buses will be available for their transfer to another building.

Biological incidents will require a lock-down of the school until health department personnel can determine whom, if anyone may leave the building. Should students need to remain in the building, be assured their protection, nourishment and comfort will be provided. In the event that a lock-down must occur, be aware that police and others will secure the building and grounds and the health department quarantine will be enforced.

If medical personnel determine that students require emergency treatment, it will be provided. If protective immunizations are required, you will be informed before such treatment is begun and you will have the option to determine if the immunizations are to be given. Health department personnel will be available to inform you of the benefits and dangers involved with immunizations.

GRADING SYSTEM & HONOR ROLLS

Report Cards - Report cards will be located in their child's homeroom and available for parents to pick up at the end of first quarter during Parent-Teacher Conferences. At that time, teachers will be available for personal conferences to discuss progress or address any concerns parents may have. After 1st Quarter, report cards will be sent home within three days following the end

of the remaining quarters (generally an eight-nine week period). Parents are urged to review them and contact the office to arrange a conference with the principal and teachers.

Two Week Grade Checks - Every two weeks grades will be checked to see if students are maintaining or improving their grades. Any student receiving a D or F will receive intervening services during the last 25 minutes of the day. Parents will be notified of the grade level check through their children, calling the office, and through an on-line grading system (STI). Information regarding this parent-site will be given within the first few weeks of school.

Grading Scale: The grading scale follows

- 100 - 96, A; 95-90, A-; 89 - 87, B+; 86 - 83, B; 82 - 80, B-; 79 - 77, C+; 76 - 73, C; 72 - 70, C-; 69 - 67, D+; 66 - 63, D; 62 - 60, D-; 59 - 0, F.
- Homework not turned in on day assigned will result in a zero.
- Any student who misunderstands their grade or desires to talk over their grades is urged to make an appointment with the teacher or the principal
- Work assigned during suspensions must be completed; work is due upon first day of returning to school and credit will be given. **No extra days will be given for work completion.** Work not turned in upon returning to school must be completed, but no credit will be received.

*NOTE - LATE WORK DUE TO ABSENCES: Students will have a minimum of one day per absence in order to make up late work, or a maximum of five days to make up missed work upon returning to school. Work received after this time period will result in a “zero.”

Honor Roll

High Honor Roll: Students receiving all A’s in all classes.

Regular Honor Roll: Students receiving all A’s and/or B’s in all classes.

HOMEROOM

Homeroom – Advisor – Each class will be assigned a specific homeroom/advisor. Students will go to their “homeroom” the first hour of each day; their first hour teacher will be their homeroom/advisor. For the first 15-20 minutes on Monday of each week, the advisors will “get to know” their students better (i.e. discuss what’s happened over the weekend, what’s coming up in the week for them, what tests they might have, discuss if anything is happening that they need extra assistance, find out who has birthdays for the week, etc.). This is a time for the advisor to develop specific relationships with the class beyond what will normally happen within classrooms. The advisor is meant to be “the person” a student can go to for advice, help with a problem, or someone the student can go to for extra help. For the first four weeks of school, students will return to their homeroom during “seminar” time (the last 25 minutes of the day).

Homeroom Parties with Advisor – Class parties will be held for Halloween, winter break, and Valentine’s Day. During the Monday advisory time, the class will coordinate who will bring

treats, be responsible for games/music, and make the necessary plans. Thus, celebrations will still be part of their student life like elementary, but it will look different and be designed uniquely to Middle School. Students will have much more responsibility in the planning and an emphasis will be on building appropriate social interactions.

PROMOTION and RETENTION

Policy 2520 and Regulation 2520

The purpose of promotions and retentions is to provide maximum consideration for the long-range welfare of the student and to provide an opportunity for each student to progress through school according to his/her own needs and abilities.

It is expected that most students in the schools will be promoted annually from one grade level to another upon completion of satisfactory work, however, a student may be retained when his/her standards of achievement or social, emotional, mental, or physical development would not allow satisfactory progress in the next higher grade. Retention normally occurs before the student leaves the primary grades.

Parents/guardians who wish to appeal the decision for retention must first contact the building principal. If parents/guardians do not accept the decision at the building level, an appeal may be made in writing to the Superintendent. All appeals must be requested within two (2) weeks after the close of school.

The process for reading assessments and remediation, and retention guidelines for students who fail to meet the District's objectives for reading, are contained in Regulation 2520 – Promotion and Retention.

GENERAL PROMOTION AND RETENTION REQUIREMENTS

1. Students will be promoted to the next grade level if they are meeting grade level expectations as identified by local and State Department of Education core subject objectives.
2. "Double promotions," that is, acceleration beyond the normal grade placement, may be approved for students who are working at an academic level of more than a year above placement and are sufficiently mature, socially and emotionally, to work with students of the advanced grade. Parents/guardians, teachers, and administrators must agree that it is in the best interest of the student under consideration.
3. A list of those students who are not meeting grade level objectives in reading, language arts or mathematics will be given to the building principal by the October, January, and March reporting periods. With respect to any student who is reported as not meeting grade level objectives in reading, language arts or mathematics:
 - a. The teacher, principal and counselor will meet to review the student's academic record, current test scores and work samples.
 - b. The parent/guardian will be notified as soon after the review as possible that retention is being considered. A meeting with the parent/guardian will be scheduled. The parent/guardian will be informed that the student is not meeting grade level objectives

- and will be retained in the same grade unless there is strong and positive improvement in the student's work.
- c. A follow-up conference for the parent/guardian will be scheduled with the principal or the principal's designee to review the student's progress.
 - d. An academic program including remediation will be offered to the student.
4. In recommending promotion or retention, these factors will be considered:
 - a. Academic achievement in all subject areas, especially attainment of grade level objectives, as determined by tests, teacher assignments, and work samples.
 - b. Chronological age.
 - c. Study Habits.
 - d. Attendance.
 - e. Social and emotional maturity.
 - f. State-mandated retention requirements for middle school students.
 5. The principal and the classroom teacher in accordance with the above-referenced factors will make the decision for retention, and written notification of retention will be sent to the parent/guardian.

READING LEVELS AND STATE-MANDATED RETENTION

Fifth and Sixth Grade Students

The reading assessment process shall be repeated on a yearly basis through the end of students' sixth grade years, accompanied by a corresponding increase in the required reading level.

The permanent record of students who are determined to be reading below the fifth grade level at the end of the sixth grade shall carry a notation stating that the student has been unable to meet the minimal reading standards. That notation will be removed from the student's record once the District determines that he or she has met the standards.

Exceptions

The following students are exempt from the reading assessments:

1. Students receiving special education services under an Individualized Education Program (IEP) pursuant to §162.670, RSMo.
2. Students who are receiving special education services pursuant to Section 504 whose service plan includes an element addressing reading.
3. Students who have limited English proficiency.
4. Students who have insufficient cognitive ability to meet the reading requirements. However, a reading improvement plan shall be provided for these students in accordance with law.

Appeal of Retention Decisions

Parents/guardians who wish to appeal a decision regarding a student's retention must first contact the building principal. If parents/guardians do not accept the decision at the building level, an appeal may be made in writing to the Superintendent. All appeals must be requested within two (2) weeks after the close of school.

INTERVENTION

It is the belief of Mound City Middle School that students who are identified as "at risk" for achievement failure due to lack of academic skills, late homework, or behavior concerns, should have multiple, early interventions in order to close the achievement gap. All students should be supported with research-based instruction and materials in order to succeed. A pyramid of interventions has been developed in order meet the needs of students.

Eligible Students:

Students will receive specialized services, during the school day, for the following reasons:

1. Students who are struggling with a particular academic concept(s).
2. Students who are performing at the below average or failing level.
3. Students who do not complete their homework.

Interventions will be given to students during the school day. Students will receive additional instruction in their targeted need areas at a time in the school day when they will NOT miss additional instruction or homework in the classroom.

Academic Concerns

- After the first four weeks of school, a grade check will take place. Thereafter, every two weeks grades will be checked. Any student receiving a D or F will receive intervention.
- Direct and explicit instruction for area(s) will be given, in a small group setting, for 25 minutes daily in the Intervention Room. Parents will be notified if students need to attend the Intervention Room.
- Student will attend the Intervention Room for a minimum of two weeks, or until their grades are no longer a D or F and other grades are maintaining or increasing.
- Students will also have an additional period (45 minutes daily) available for intervention. This will automatically be given to students in grades 5 and 6, as well as non-band students in grades 7 and 8. Band members in grades 7 and 8 will have an intervention period available with the agreement of their parents.

- A team will meet monthly to discuss progress of student toward the academic targeted area(s). The Team will be composed of the classroom teacher, intervention teacher, principal, Title I personnel (if applicable), guidance counselor, and special education teacher.
- If the student is not progressing toward academic grade level expectation, the Teacher’s Team will devise a plan of intervention, which may include:
 1. Brainstorm new strategies to try and draw on additional resources as determined by the Team
 2. Communication with parents will continue to be made.

Homework Concerns

- Students who have late homework during the day will be sent to the Intervention Room as referred by teachers for 25 minutes to make up missed work or work on current homework.
- Various staff members will supervise students. Teachers will work with students long enough to know if they understand the concepts. Then students will complete their work.
- If students attend the Intervention Room for late or incomplete homework, their parents will be contacted. Upon the fourth time, the student will be required to also stay after school until 4:00 p.m. (M – TH).

HANDICAP PARKING

Handicap parking is available in the half-circle drive, on the south side of the school building.

HEALTH SERVICES

A registered professional nurse is in our building two days per week, normally on Mondays and Tuesdays. Vision, hearing, growth, scoliosis, and dental screenings are conducted throughout the school year. Various health related topics are incorporated into the curriculum throughout the year. If you have any health related concerns regarding your child, please make an appointment to discuss them with the school nurse. It is the responsibility of the parent to keep the school district informed regarding any changes in the health status of your child.

HEALTH – ALLERGIES

Students are not to share or trade food at any time, nor eat on the bus. Other students in school may have a LIFE THREATENING food allergy, usually to NUTS/PEANUTS. Always check with the classroom teacher in regards to any food allergies that may exist in the classroom before bringing foods for parties/classroom events.

Head Checks for Contagious Parasites

In the event that an infestation of head lice/nits is found, the student will be sent home from school. The parents/guardians are responsible for getting the infestation corrected before the child returns to school. Upon return to school, school authorities will check the child before the child may return to class.

HEALTH-STUDENTS WITH COMMUNICABLE DISEASES

A student shall not attend classes or other school-sponsored activities, if the student (1) has, or has been exposed to, an acute (short duration) or chronic (long duration) contagious or infectious disease, and (2) is liable to transmit the contagious or infectious disease, unless the Board of Education or its designee has determined, based upon medical evidence, that the student:

1. No longer has the disease.
2. Is not in the contagious or infectious stage of an acute disease.
3. Has a chronic infectious disease that poses little risk of transmission in the school environment with reasonable precautions.

Additional Guidelines:

1. A student shall be FEVER free at least 24 hours without medication before returning to school.
2. A student should not return to school until 24 hours AFTER last time vomited.

* A fever is considered to be 100.4 degrees or above.

School officials may require any child suspected of having a contagious or infectious disease to be examined by a physician and may exclude the child from school, in accordance with the procedures authorized by this policy, so long as there is a substantial risk of transmission of the disease in the school environment.

A student who has a chronic infectious disease, and who is permitted to attend school, may be required to do so under specified conditions. Failure to adhere to the conditions will result in the student being excluded from school. A student who has a chronic infectious disease and who is not permitted to attend school or participate in school activities will be provided instruction in an alternative educational setting in accordance with District policy.

Students with acute or chronic contagious or infectious diseases and their families have a right to privacy and confidentiality. Only staff members who have a medical reason to know the identity and condition of such students will be informed. Willful or negligent disclosure of confidential information about a student's medical condition by staff members will be cause for disciplinary action.

HEALTH-STUDENT PHYSICAL EXAMINATION

The Board of Education may require any student to be examined by a physician for the purpose of determining whether the student is afflicted with a contagious or infectious disease or have the liability of transmitting the disease. Refusal on the part of parent/guardian to obtain the required examination and to submit the certification indicating freedom from contagious or infectious disease may result in student exclusion from school.

The Board may also require certification from a physician indicating a student's fitness to participate in specific educational programs or extra-class activities.

Students may be excused from engaging in required educational activities upon proper certification from a physician advising of student disability.

All costs of physical or other examinations shall be at the expense of students unless State or Federal law specifically mandates the examination to be the responsibility of the school.

AT-RISK CURRICULUM

Policy 6150

The Board of Education directs that curriculum be developed to meet the needs of students at risk of failure. This curriculum is to include strategies infused in all areas of regular education, K-12, to address the special needs of students at-risk due to disadvantaged backgrounds.

As provided by state and federal guidelines and funds, the Board directs the administration to utilize funds from ESEA, Title I and state programs for alternative education, among others, as resources for curriculum development for students at-risk. See **Intervention** section of handbook.

CHALLENGED MATERIALS

Policy 6240 and Regulation 6241

The Board of Education has the ultimate responsibility for establishing the curriculum and for purchasing instructional and/or media materials to be used in the District. While the Board recognizes the right of students to free access to the many different types of books and instructional materials, the Board also recognizes the right of teachers and administrators to select books and other materials in accord with current trends in education and the established curriculum.

It is therefore the policy of the Board to require that books and other instructional materials shall be chosen for values of educational interest and the enlightenment of all students in the community. Instructional materials shall not be excluded on the basis of the writer's racial, nationalistic, political, or religious views. Every effort will be made to provide materials that present all points of view concerning international, national and local problems and issues of our times. Books, or other instructional or media materials of sound factual authority, shall not be prescribed, nor removed from library shelves or classrooms on the basis of partisan or doctrinal approval or disapproval. The Board will strive to provide stimulating, effective materials that will be appropriate to the community's values and the students' abilities and maturity levels.

Instructional or media materials used in the District's educational program consist of various types of print and non-print materials: texts, books, films (16mm and 8mm), filmstrips, tapes, video (VCR), records, study prints, pictures, transparencies and other printed or published items. Despite the care taken to select those materials deemed to be educationally useful, the public may make occasional objections to the selection of instructional materials. However, the principals of academic freedom and the freedom to read must be defended, rather than the materials.

If a challenge is made, it should be properly channeled through guidelines and procedures established by the Board of Education.

RELIGIOUS OR CONTROVERSIAL ISSUES

Policy 6242

Religious education is the responsibility of the home and church, and within the District's schools shall remain the free choice of the individual, true to the American heritage and Constitution. The espousal of any particular religious denomination or faith is strictly forbidden; however, teachers may teach about religion with information being presented at an appropriate maturity level for students.

No partisan political views may be espoused by any teacher or staff member, however, teachers may teach about political parties and politics as related to the governmental systems of the nation or world.

SEMESTER TESTS

Grades 5 – 7 will have normal, end-of-unit tests at the end of each semester. **Students in Grade 8 will begin taking semester, cumulative tests, over content and skills studied throughout each semester.** The semester test will be of the same value as a normal test. The purpose of this procedure is to begin giving 8th grade students a chance to experience cumulative, semester tests prior to entering high school.

INSURANCE

Each year a low cost accident policy is offered to all public school pupils. While the schools have no obligation in case of accidents, they are glad to offer this policy that will pay a part of the expenses incurred in accident cases.

Briefly, students may be insured for the school year for accidents that occur between home and school (also either on or off the school bus) as well as for accidents that occur while they are engaged in any school-sponsored activity.

Please understand this insurance is being offered as a service by the school and neither the school nor anyone connected with the school will profit in any way from it. We do feel that the students and their parents will benefit by this program.

Public Notice: Services for Students with Disabilities

The District does not have a general curriculum for students with disabilities. Instead, it is the policy of the District to develop an individualized educational program (IEP) for each public school student with a disability who needs special educational services pursuant to the Individuals with Disabilities Education Act (IDEA) and an accommodation plan for students who are qualified only pursuant to Section 504 of the Rehabilitation Act. Each IEP is designed to meet the unique needs of the student and to offer a free appropriate public education. In addition, the District's IEPs will address the extent to which each student's disability affects his/her ability to access the District's general curriculum and what modifications, accommodations, and supplementary aids and services, if appropriate, are necessary to provide for such access. Each public school student with a disability will be educated to the maximum extent appropriate with children who are non-disabled.

The District will provide special education and/or other services to students with disabilities in accordance with applicable law, include the IDEA, and its amendments, Section 504 of Rehabilitation Act of 1973, 162.670-.995, RSMo., and Missouri's State Plan for Part B.

Public Notice: Constitutionally Protected Prayer (NCLB 2001)

As part of the implementation of the No Child Left Behind Act of 2001, guidance from the Secretary of Education clarifies the rights of students to pray in public schools. The First Amendment forbids religious activity that is sponsored by the government but protects religious activity that is initiated by private individuals, such as students. Therefore, among other things, students may read their Bibles or other scriptures, say grace before meals, and pray or study religious materials with fellow students during recess, the lunch hour, or other non-instructional time to the same extent that they may engage in nonreligious activities. If a school has a "minute of silence" or other quiet periods during the school day, students are free to pray silently, or not

to pray, during these periods of time. Teachers and other school employees may neither encourage nor discourage students from praying during such time periods. Public schools should not be hostile to the religious rights of their students and their families.

At the same time, school officials may not compel student to participate in prayer or other religious activities. Nor may teachers, school administrators or other school employees, when acting in the official capacities as representative of the state, encourage or discourage prayer, or participation in such activities with students.

Computer Network User's Agreement

(Revised July 2014)

Internet access is available to the students in the Mound City R-2 School District. The purpose of internet access is to provide vast, diverse, and unique resources. The goal in providing this service to both staff and students is to promote educational excellence by increasing resource sharing, improving access to information, and developing global communications.

The internet, or world wide web, is the commonly used name for an uncontrolled, unregulated group of worldwide networked information resources. With access to computers and communication with people all over the world comes the availability of material that may be considered controversial. Mound City R-2 educators firmly believe the valuable information and interaction available on the worldwide network far outweigh the possibility that users may find material that is not consistent with the educational goals of the school district.

Internet access is coordinated through a complex association of government agencies, regional and state networks. The smooth operation of the network relies upon the proper conduct of the end users who must adhere to strict guidelines and network etiquette. These guidelines are provided so that you are aware of the responsibilities you accept when signing the ***Mound City R-2 District Network User's Agreement*** and becoming a user.

Terms of Agreement

1. The use of the network is a **PRIVILEGE** which may be revoked by the administrators of the network at any time for abusive conduct. Such conduct would include, but is not limited to the following:
 - a. Altering of system software
 - b. Gaining information about explosives and other devices to harm individuals
 - c. Accessing and/or placing unlawful or inappropriate information on the computer system
 - d. Accessing and/or placing obscene, pornographic, abusive or otherwise objectionable language or images on the computer system
 - e. Knowingly damaging a computer system, either the software or hardware, could include a financial responsibility to repair the damage
 - f. Downloading files, music, games, or programs (CD music may be listened to using personal headphones at the discretion of the instructor)
2. The use of the school's network and computer resources must be in support of education and/or research and be consistent with the educational objectives of the Mound City R-2 School District. Social sites such as Bebo, FaceBook, MySpace, Xanga, Twitter and others do not fall into the category of educational sites because of the social nature, questionable content, and questionable users that have access to the people registered on those sites. These sites will **not** be allowed to be accessed on school property during school hours.

Non-educational use may be limited at any time by the district staff. This agreement applies to all computers and networks in the Mound City R-2 School District.

3. Transmission of any material in violation of any US, State, or local regulation is prohibited. This includes, but is not limited to: copyrighted materials, threatening, harmful, and/or pornographic or obscene material. **ANY ATTEMPT TO BREAK THESE LAWS THROUGH THE USE OF THE NETWORK MAY RESULT IN LITIGATION AGAINST THE OFFENDER BY PROPER AUTHORITIES – LOCAL, STATE, OR FEDERAL.**

4. Copyrighted material is anything written by someone else. It could be an e-mail message, a game, a story, an encyclopedia entry or software. Students and staff shall not:

- a. Copy and forward
- b. Copy and download
- c. Copy and paste
- d. Copy and upload

to/from the network or internet server any copyrighted material without approval by the computer network administrator, a teacher, or school administrator.

5. Any malicious or intentional attempt to alter, harm or destroy data of another user, any network program or equipment which damages or disrupts the computer system, alters normal performance, or causes the Mound City R-2 network system to malfunction will result in cancellation of all computer privileges. This includes the hacking or infiltrating of outside computing systems or networks via the Mound City R-2 network. Only authorized persons are to troubleshoot and fix computers at Mound City R-2.

6. The students and staff should have no expectation of privacy or confidentiality in the content of electronic communications (e-mail, etc.) or other computer files sent and received on the school computer network or stored in his/her directory or on disks. The school administration or other employee may, at any time, access any material to review the subject, content, and appropriateness of the electronic communications or other computer files and to edit or remove any material which the administration, at its sole discretion, believes to be objectionable. If warranted, any violation of rules will be reported to proper authorities and the user will be permanently removed from computer privileges.

7. Information service and features contained in the network are intended for the private use of its patrons, and any commercial or unauthorized use of the materials, in any form, is expressly forbidden. Product advertising, sales soliciting, web pages to advertise or sell a service, and political lobbying are prohibited.

8. The Mound City R-2 School District does not warrant that the functions of the system will meet any specific requirement users may have, or that it will be error-free or uninterrupted; nor shall it be liable for any direct or indirect, incidental, or consequential damage (including lost data or information) sustained or incurred in the connection with the use, operation or inability to use the network. **STUDENTS HAVE THE RESPONSIBILITY OF VERIFYING THE ACCURACY OF ANY DATA**

ACCESSED FROM THE INTERNET FOR RESEARCH PURPOSES, BUT PLAGIARISM IS NOT ALLOWED, AS THIS IS CONSIDERED STEALING.

9. Internet access through the network is intended for the exclusive use of students and staff with signed agreements on file. Users are responsible for the use of their password and account and should not share their password or use anyone else's password. If you suspect someone has discovered your password, contact the network administrator, and the password will be changed. Students and staff shall not intentionally seek information on, obtain copies of, or modify files, other data, or passwords belonging to other users.
10. All students will be assigned a district email and used to share and complete assignments. Any communication and sharing performed through the district email accounts will be monitored both at the district and classroom levels. Students in elementary and middle school will not be allowed to use personal email accounts outside of their district account. High school students will be allowed to use personal email accounts outside of their district account. High school students will be allowed to use personal email accounts as determined appropriate by administration and instructor discretion.
11. Shopping via the internet is an ever growing entity. Students will not use the Mound City R-2 network system to purchase items via credit cards or other means over the internet.
12. Viruses and spyware are an ever-increasing problem with computers. Because viruses may spread through internet sites, opening e-mail attachments is not allowed. If a staff member or a student infects a school computer with a virus, he/she will be financially responsible for repairs. Students may use flashdrives to save work for school related materials only.
13. Wireless networking is available at the Mound City R-2 School District, but it will be used by only authorized Mound City R-2 users. Students will not bring to school any device (laptop, iPad, cell phone, etc.) that uses the Mound City R-2 wireless network without the permission of the administration.
14. Punishment for any violation of the internet agreement may include: First offense --- being removed from the computer system for one (1) quarter; Second offense – being removed from the computer system for the rest of the year; and more severe infractions will be dealt with according to the discretion of the school administration.
15. The rules and regulations for computer network usage may be changed from time to time by the administration as needed. Users of the network are subject to these changes.
