8/19/20

Parents,

As stated in the 2020-21 Return to School Plan, it is our goal to get all students in the building each and every day. Our first priority is student safety! We will continue to work with the county and local health officials to monitor the number of cases and provide the best learning opportunities for our students in a safe environment.

With the current number of Covid cases in the county, our back to school plan is:

Pre-K through 6th grade students: the "Traditional" model where they will be in the school every day. Student desks will be spread out in the classroom and will be following additional safety precautions.

7-12th grade students: the "Hybrid" model where half of the students will be in the building and the other half will be logged onto their laptop and participating in the lesson from home. The next day, those students will switch, meaning those that were in the building will be at home and those that were at home will be in the building. This A/B model of Hybrid learning allows us to provide adequate social distancing for our students. The district has purchased laptops for all 7-12th grade students.

Again, this is the current plan to start school, but we will continue to monitor the number of cases in the county.

Please contact the school with any questions!

Sincerely,

Rob Nudell
Superintendent
