Bloom Vernon Local Schools has recently added a new Cash Register System. As part of the LunchTime suite of software, School Payment Portal is being offered as a safe, secure and convenient way for parents or guardians of students manage school payments. You will have the opportunity to track purchases, create reminders and set up automatic payments. The automatic payment portion is ready for you to set up your account and view their daily transactions. Below is a guide to setting up your students account. If you do not want to pay on-line and would like to continue sending in money with your student, you are still able to create a user name and password to track your students' purchases and see how much money is on the account.

Below is a quick guide to setting up your User ID. If you would like detailed information use the "Parent Guide to School Payment Portal". This document will assist new users with the most basic functionality of the School Payment Portal. Any questions or concerns with a student's account should be directed to Krystal Hill
