

Aromas-San Juan USD Bus Internet Access Program

Your child(ren) have been identified through communication with the school as either having no internet access or spotty access. Students will be able to safely access remote learning content while maintaining social distancing, free of charge thanks to the San Juan Bautista Rotary Club and ENGIE. The District's new 'Student Wi-Fi Zone' will be accessible and regularly-stationed in centralized locations throughout the community, **Monday, May 18, 2020**. These buses provide reliable, fast internet within a 300-foot radius for those affected by California's mandated shelter-in-place order. The following

locations are available to students from **8 am to 3 pm, Monday-Friday**:

- Marshall's Market in Aromas,
- Abbe Park San Juan Bautista
- 410 The Alameda, Hacienda De Leal, San Juan Bautista
- Red Barn Flea Market at 1000 US-101, Aromas

We are securing one more location that will be posted as soon as the site has been confirmed.

Log on information

- There are two signals students can connect to:

Student_WiFi and Student_WiFi_5GHz

Password: schoolyear2020"
