### **COVID-19 Geneva Ball Complex Protocols**

*The following protocols have been developed based on the most recent information from the NSAA, local DHM's and the CDC. The Geneva Ball Complex falls under the guidance of the City of Geneva.*

#### **Capacity**

- Based on the current DHM's, we will be able to use 75% of the SB complex capacity. Our facility is not set up in such a way that we can truly limit attendance, so we are asking for everyone to do their best to social distance and/or wear masks if social distancing is not possible. Based on DHM's, groupings of spectators should not exceed 8 persons. We have very limited bleacher space, and traditionally many people bring lawn chairs, so we feel that capacity limits will not be an issue at this time.

#### **Entrance and Exit Strategies & Occupancy**

- In order to follow NSAA recommendations, Fillmore Central fans should enter from the west on the swimming pool side (13th and E streets). Visiting fans should enter from the north (15th and F streets).

#### **Restrooms & Concessions**

- There is only one set of restrooms at the Geneva Ball Complex, so our recommendation is that everyone wears a mask while using the restroom facilities.
- We currently use a trailer for our concession stand and do not have the ability to offer a separate concession stand for home and guest fans. Please do your best to social distance while in line, and we recommend the use of masks. Concessions will be limited to pre-packaged items.

#### **Postgame**

- We politely ask that spectators leave promptly after the conclusion of the game to limit social gatherings. We also ask that no spectators come onto the field at the conclusion of the game.

#### **City of Geneva COVID-19 Release form**

- The city of Geneva is requiring all team personnel (players, coaches, managers) to sign a release waiver prior to competing. You may send these in ahead of time, or bring to the game.
