The committee discussed the final chapters of the professional read and summarizing thoughts on the concepts in the book as it relates to our M.S.A.D. #11 students.

Individuals expressed interest in selecting a book that better profiles our rural towns with limited community resources as well as poverty.

Members of the committee volunteered to help compile the survey data for grades K-2 and grades 3-5. The survey will be administered the week of May 22nd.

The committee planned the School Board presentation, at the June meeting, to share the data results, mission, and book study. Some members of the committee expressed interest in attending if they are available.

Ideas from “Attendance Matters” were shared in response to the need for some ideas that could be implemented for the 2017-18 school year. Some ideas included poster contests, attendance goals, and staff discussions.

The group discussed goals for next year and looking again at our mission in September.
