Each member of the committee provided a brief introduction, as this is the second meeting of the year for the Drop-Out Prevention Committee.

The committee discussed a mission statement for the group to set “a plan of action” for the group, for the 2016-17 school year. As we look ahead, the group framed their intentions to help with at-risk students of MSAD 11 at all levels as part of the committee. All individuals on the committee contributed to the ideas and concepts that will set us forward with a purpose this school year.

The committee also reviewed and reflected on last year’s data, recognizing that there is a need for K-5 data, as the group finds the early grades are a great opportunity for intervention with our struggling and at-risk families.

The group focused on gathering data at the elementary schools. There may need to be a different survey for grades k-2 and for grades 3-5. The group also discussed resources on-line for parent and teacher communication (class dogo, bolster collaborative).

In terms of a professional read, the group is considering one of four (4) options. For the next meeting, we will send out a Google survey of the four (4) reads, and each individual committee member will vote on one.
