

COVID-19 Daily Student Screener

Please use this tool every morning to check your student for any of the following symptoms.
WITHIN THE PAST 24 HOURS HAS YOUR CHILD EXPERIENCED OR ARE CURRENTLY EXPERIENCING:

Any of the following:

- Fever of 100.4 F or above*
- New or worsening cough
- Shortness of breath/Difficulty breathing
- New onset loss of taste or smell

OR 2 or more of the following:

- Sore throat
- Congestion/Runny nose
- Unusual fatigue
- Unexplained muscle pain
- Headache that is severe, not typical
- Diarrhea, vomiting, nausea*
- Chills or shivering

*Fever, diarrhea, or vomiting as a single symptom doesn't indicate COVID-19 but child should stay home

If YES to the above symptoms of COVID-19, please keep your student home. Report symptoms to the school attendance line and your child's school will be in contact with follow-up.

In the meantime, please call your primary care provider to rule out COVID-19, seek community COVID-19 testing, or self-quarantine for 10 days since symptom onset (district household members need to stay home as well. Contact school if siblings develop symptoms during the quarantine period)

YOUR STUDENT SHOULD ALSO STAY HOME IF:

- Your child tested positive for COVID-19 or been diagnosed with COVID-19 in the last 10 days
- Your child or a household member (sibling/parent in the school setting or close contact to positive COVID-19 case) is waiting for COVID-19 test results
- Your child has been recommended to self-quarantine by the public health department, their physician, or the school district per the Sheboygan Public Health Department decision tree (district household members should also stay home).
- Your child has been in close contact with an individual who has tested positive for COVID-19 or diagnosed with COVID-19 in the last 14 days. (within 6 feet for a cumulative of 15+ minutes, physical contact with the person-like a hug, contact with secretions- cough/sneezed on or shared personal items, stayed overnight in a household with that person.)

By sending your student to school, you're verifying that your child does NOT have any symptoms of COVID-19 or has NOT been in close contact with someone who has tested positive for COVID-19.
