Parental Information

August 24th-28th

Monday through Thursday will have two types of learning. First there will be Face-to-Face learning at school. Students will either ride busses to school walk or be dropped off by parents. The remote learning students will learn from home.

The Face-to-Face schedule will show students being able to enter the building at 7:45 a.m., going through the KIOSK, grabbing a bagged breakfast (if they want one) and then reporting to their class, where they will eat their breakfast. The classes will start at 8:10 and end at 1:10. Remote Learning students will follow the schedule created by their teacher. Monday through Thursday will see teaching staff working on the skills of remote learning with their students.

On Friday, students will stay home. This will be a remote learning day. The day will start at 8:10 and end at 1:10. Elementary teachers will have different schedules for their students. This will not be a change for our Remote Learning students.

August 31st – September 4th

This week will follow the same schedule as the week of the 24th – the 28th. Friday will be a remote planning day. There will be NO student remote attendance for Face-to-Face or Remote students. This will allow teachers to plan and make contact with parents to help refine the remote learning process.

September 8th – September 11th will be four days of Face-to-Face learning.

This plan will be subject to change based upon the conditions that the school district faces. Any changes will be communicated.

Change in Dates

Due to our change in schedule last week, we will adjust the response dates for students in remote learning or home schooling wanting to return to Face-to-Face learning. Students who have optioned to remote learn or home school, who want to return to Face-to-Face learning need to notify the respective building principal with this intent. The date for this notification will be by the end of the day on Friday, August 28th.

How does the KIOSK work? Students will step in front of the KIOSK. It will say, move up or back, tell you to put a mask on, take your picture, take your temperature and say 98.6, your temperature is normal or you have a fever. It is important that every parent certify every student for attendance through Teacher Ease.
Masks

The District will have a mask for each student. This will be a cloth mask. Recent Illinois Department of Public Health changes have the neck gaiter off of the list of acceptable masks.

Parent Survey

The date of the first parent survey will be September 4th. This has been backed up due to our changes of last week. Parents will receive an email notification. This survey will look at all areas of re-entry and remote learning that need to be addressed, to better student learning opportunities. We appreciate your feedback. Thank you for your assistance.

Student Attendance

Student attendance and self-certification will be reviewed daily. This will help us to provide the safest environment possible for students and staff.

Bus Riders

Bus riders will be expected to wear masks and to follow social distancing. Students in the same family will be able to sit together.

Breakfast and Lunch

Students will have access to breakfast daily. We will provide breakfast items in a "Grab 'N Go" format. When students arrive, they will be able to take a bag and milk to the classroom. Class will begin at 8:10, so plan accordingly if your child needs to eat breakfast before class begins. Lunch will also be served daily. East Grade will eat at 11:15, the Elementary at 12:15 and the Jr/Sr High will eat at 1:10. Lunches will be taken to the classrooms. Milk will be served with each meal. Those students eating a school breakfast or lunch will be charged on their account. The meal program used last year when school was closed has not been approved this year by the USDA. Students are welcome to bring lunch boxes from home.

Office Staff:
Kim Allen
Dawn Phillips
Paula White
School Nurse
Gina Hamilton

Please know that there will be bumps in the road every day. Something will go wrong. KIOSK time may be slow, bus loading may be long. It is essential that we be flexible as the directives given to schools change. Thank you!
