

PIONEER PLEASANT VALE SCHOOLS POSITIVE COVID-19 NOTIFICATION FOR PARENTS

Parents/Guardians,

8/23/2020

Late this afternoon, our administration got confirmation that one of our support employees at the secondary campus has tested positive for the Covid-19 virus. Following approved protocol, the employee was sent home at the first sign of symptoms and the employee's work areas were thoroughly cleaned and disinfected. The employee was tested shortly thereafter at a medical facility and continued home. The results were delivered today.

School is expected to resume, under Pioneer Pleasant Vale's ORANGE protocol, tomorrow morning. Our district administration will contact the Garfield County Health Department when they open tomorrow morning. Pioneer Pleasant Vale Schools would like to thank our Pioneer Pleasant Vale Community for doing your part to help keep our schools open by taking your students temperature before they come to school and by monitoring for possible Covid-19 symptoms daily. Your patience and understanding have been immeasurable and greatly appreciated. We will do our best to keep you informed as relevant information becomes available.
