TREMONT COMMUNITY UNIT DIST. #702

August 24, 2020

Welcome back Tremont families!! We have missed our time with your children and are genuinely excited to start what is sure to be another interesting school year! As we move forward, I wanted to share a few legal updates that impact our procedures and parental access. This bill (PA 101-643) was in the works prior to COVID and underwent some revising before being finalized.

-Within 3 days of your child's IEP meeting, your student's case manager will be sharing their IEP paperwork in advance of the meeting for your review. We will not include paperwork that determines eligibility or educational placement as those are decisions we will make together as an IEP team

-Your case manager will plan to email you the IEP documents; however, if you prefer they be mailed, or to pick them up at the school, please let them know in advance

- You have the right to review your child's records prior to any IEP meeting

- You have the right to request service logs for related services that your child receives. These include dates and times for service in: speech and language services, occupational therapy services, physical therapy services, school social work services, school counseling services, school psychology services, and school nursing services.

- You will be notified if an IEP service is not implemented within ten school days after the service was to be initiated as set forth in the IEP

Each of our students is unique and requires flexibility in our approaches to services. As a result of the impact of COVID-19 on education, we have each grown in new ways. Please reach out to your case manager and/or to myself if you have any concerns or questions about your student's learning. When IEP meetings need to be scheduled, we will continue to offer the option of meeting remotely, if that is better for you. We sincerely thank you for ALL the EXTRA support you gave each of us and your children last spring!

Sincerely,

Michelle McKune
