August 25, 2020

The Noble High School Football teams will be scrimmaging with Harrah High School on Thursday, August 27th beginning at 6:00 p.m. This event will allow us to prepare for the upcoming season and how it will look. The following guidelines will be in place for Thursday only and we will review and revise them as needed, for our opening game next week.

1. All patrons must wear a mask to enter the stadium. Masks are to be worn at all times in restrooms, concession lines, and at any other time that Social Distancing other than immediate families is not taking place.
2. Students in 8th grade and below will only be allowed entry with a parent, guardian or other adult family member.
3. The hills will be allowed to be used for blanket seating in an effort to provide additional spacing for our attendees.
4. No gatherings of students, or walk arounds, or any other mixing of students will be allowed. We want to allow all fans of football, band, cheer and pom to attend, but do not have the ability to police this situation without your help and support.
5. There will be no field access for anyone other than teams, game personnel, security and administration.
6. Everyone on the sidelines will be required to have a face covering on unless they are on the field.

While we understand that many people will not like these guidelines, we are attempting to be proactive to ensure that we can continue with our seasons during this most unusual time. All of our Varsity games will be streamed online through the Oklahoma Sports Network. This will provide another avenue for those unable to attend to support our teams. Our football team, our band, our cheerleaders and pom's, all of these groups are important to the success of our school. We must do everything possible to promote the safety and wellbeing of them, as well as of everyone that enters the stadium.

Thank you for your support! Go Bears!
