

Tecumseh Public Schools

Good Evening Tecumseh Early Childhood Parents,

I want to update you on our most recent information regarding COVID-19 situations involving our school.

This evening, August 25th, district officials were notified that a second employee at Tecumseh Early Childhood Center has tested positive for COVID-19. We are in contact and working with the Pottawatomie County Health Department in response to this notification.

All individuals, students and employees, who may have come into contact with this individual, will be contacted by the Pottawatomie County Health Department in the next day or so. Any individual, student or employee, who is found to have been in close contact, will be required to quarantine for 14 days per CDC and Oklahoma State Department of Health guidelines.

If you are not contacted by the Health Department officials, you or your child, were not considered to be directly affected in this situation.

In response to this information we will move all Early Childhood students to virtual learning until further notice. Teachers will be contacting you tomorrow to ensure you have everything you need for virtual learning.

We will continue to monitor our protocol for response and prevention and will keep you updated with all COVID-19 related information as it becomes necessary.
