iPad Case Replacement	\$25.00

REPAIR COSTS (subject to change)

iPad Damage	\$50.00
Chromebook Accidental Damage	\$50.00

IMPORTANT FACTS ABOUT DEVICES AND REPAIRS:

1. Students graduating from 8th grade at Fairmont are given their device and power supply to keep. If at any point during 6th through 8th grade, your device is deemed too damaged to repair by the manufacturer, you must return the replacement device at the end of 8th grade.
2. If you transfer/withdraw from Fairmont before graduation, you are required to return your device and matching power supply. If repairs are needed or you do not return this equipment, you will be billed for the listed amounts.
3. If a device is damaged beyond normal wear and tear or is determined to be intentionally damaged, you may be billed for all repair costs, up to the cost of a replacement unit.
4. After the first instance of accidental damage, any subsequent accidental damage within the same school year may be treated as intentional damage for billing purposes.
5. If you submit a device that is not the one issued to you for repairs, you may be billed for all repair costs, up to the cost of a replacement unit. Standard repair fees do not apply in this instance.
6. Please leave all labels/property tags on your device until you graduate. These tags allow us to identify you as the owner and return the device to you if it is turned in as a lost device. If your labels/tags peel off, come to the technology department and we will re-tag the device.
