

Globe Unified School District

On-site Services Plan

Beginning August 17, 2020

1. GUSD will provide limited space to students who need supervision during regular school hours at the site of their regular attendance. Parents interested in this service should contact their child's school office for further details.
2. Students with special needs as determined by an IEP (Individual Education Plan) will be contacted by the GUSD Special Education Department to make arrangements for attendance to fulfill their IEP.
3. GUSD must plan for the safe physical distancing, adequate supervision and ability to maintain COVID-19 prevention protocols for students attending on-site services. Parents/families need to let the school know that they plan to utilize on-site services by noon the Thursday prior to the week of attendance.
4. On-site support services will continue to be offered for students during regular school hours and school days until school returns for in-person learning (hybrid or fully in-person).
