

Hayden-Winkelman Unified School District #41

Jeff Gregorich
Superintendent

On-Site support Services Notification

August 14, 2020

Dear Hayden-Winkelman School District Families,

The Hayden-Winkelman School District will provide **Onsite Support Services** to parents beginning August 17, 2020. As you are aware Governor Ducey released an Executive Order on July 23, 2020 requiring schools to offer a safe and productive on-site learning environment for students with greatest need for care beginning August 17th. **Every student is eligible to receive on-site service.** In addition, the District has also reached out individually to every parent and family in the District to inform them of the availability of on-site services as well.

District on-site services is designed to provide parents a place to take their school-aged children while they go back to work or if their child has a special need and may not be able to learn through online learning based on an IEP or 504 individual learning plan. District parents with school-aged students can drop off their children from 8:00-3:15 Monday-Thursday beginning August 17. Parent will be required to complete a daily family wellness check list form prior to releasing students to school. The District will follow all CDC guidelines indicated in COVID 19 Mitigation Plan on District Website.

The District has delayed the start of the first day of school until September 8, 2020. We are currently preparing school for on online teaching and learning. The district intends to provide instruction online until November 12th.

Every Hayden-Winkelman Unified School District student will be provided an iPad and will receive internet service if needed. Our primary goal is to provide a quality online learning experience for every student using high quality online learning platform and teaching strategies.

The District believes that the safety of our students, staff, and community is our top priority in the middle of the COVID 19 pandemic. We greatly appreciate your patience and support for our district and feel free to contact me if you have any questions about the District's on-site learning services and the coming school year.

Sincerely,

Jeff Gregorich
