

Virtual Plan 2020-21  
Salazar/Ivins

Oklahoma History, Government, Physical Science, Environmental Science

All students will use Google Classroom, Google Meet and Edgenuity.

The students will log in to their email and go to Google Classroom on a daily basis. Google Classroom is found in the grid box in the upper right hand corner of their email account. Here the student will find the assignment for the day. The assignment will be in Edgenuity most of the time. At times there will be added videos or assignments that will be posted in Google Classroom, if we feel it is a topic that needs more coverage. Google Meet, found in the same place Google Classroom, is where we will conduct class meetings or added lectures. Students will be instructed in class on how to familiarize and work through Edgenuity in for the first chapter/module- we will also be lecturing in class. Students have already been enrolled in appropriate classes on Edgenuity. Students will be assigned projects that may be required to make a slide presentation. Google slides will be used, found in the same area as Google Classroom and Google Meet. Students will need to take their books and composition books home with them during this time of virtual learning.

Platforms:

Edgenuity

Google Classroom

Google Meet
